

Analysis of the Main Economic Indicators of the World

Gina Ioan¹, Cătălin Angelo Ioan²

Abstract: The article analyzes the main economic indicators of the World for each of the developing countries or regions of the world. A number of indicators are analyzed, such as: Expenses, Exports of goods and services, Imports of goods and services, GDP, Gross capital formation, Inflation, consumer prices, Revenue, excluding grants.

Keywords: GDP; Exports, Imports; Gross capital formation; Inflation

JEL Classification: E17; E27

1 Main Notions

In the following we will analyze the main economic indicators of the World for each country or developing region of the World.

The source of the statistical data present in the analysis is the World Bank, all the indicators and regression models being the contribution of the authors.

Before starting the analysis, we will briefly outline the significance of some (less usual) indicators.

Expenses are cash payments for the government's operating activities in the supply of goods and services, including salaries, interest and subsidies, social benefits and other expenses.

Exports of goods and services are the value of all goods and other market services provided to other countries.

Imports of goods and services represent the value of all goods and other market services received from other countries.

GDP is the sum of the gross added value of all producers resident in the economy, which is subject to product taxes, by subtracting subsidies not included in the value of the products.

Gross capital formation represents expenditure related to the addition to fixed assets of the economy plus net variations in the level of stocks.

Inflation, consumer prices (according to International Monetary Fund) reflects “the annual percentage change in the cost for the average consumer to purchase a basket of goods and services”.

Revenue, excluding grants, is cash receipts from taxes, social contributions and other income excluding subsidies.

2 The Analysis

2.1 Aruba

The analysis of indicator: GDP growth (annual %) during 1995-2009 highlights an average of 0.97 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 90% in the World.

The study of indicator: GDP per capita growth (annual %) during 1995-2009 highlights an average of -0.92 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 86% in the World.

Gross capital formation (% of GDP) during 1994-2011 highlights an average of 30.15 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 24% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1994-2011 highlights an average of 77.67 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 6% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1994-2011 highlights an average of 71.91 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 14% in the World.

Services, etc., value added (% of GDP) during 1994-2011 highlights an average of 81.24 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 4% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1985-2016 highlights an average of 3.02 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 95% in the World.

2.2 Afghanistan

The analysis of indicator: GDP (constant 2010 US\$) during 2002-2016 highlights an average of 14626886778.55. Also for GDP (constant 2010 US\$) the region ranks on the first 63% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $1104271810.440 \cdot \text{Year} - 2203855180395.800$. From this equation we can note that, every year, the indicator grow with 1104271810.440. The analysis of indicator: GDP growth (annual %) during 2003-2016 highlights an average of 7.42 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 57% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 503.86. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 95% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $23.588 \cdot \text{Year} - 46883.566$. From this equation we can note that, every year, the indicator grow with 23.588. The study of indicator: GDP per capita growth (annual %) during 2003-2016 highlights an average of 3.99 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 80% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2002-2016 highlights an average of 507.23. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 92% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $24.204 \cdot \text{Year} - 48119.431$. From this equation we can note that, every year, the indicator grow with 24.204. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 8.32 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 87% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 20.23 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 35% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 7.91 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 100% in the World.

The analysis of indicator: Revenue, excluding grants (% of GDP) during 2006-2015 highlights an average of 9.50 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 97% in the World.

Services, etc., value added (% of GDP) during 2002-2016 highlights an average of 47.83 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 67% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $1.423 * \text{Year} - 2810.000$. From this equation we can note that, every year, the indicator grow with 1.423.

The analysis of: Inflation, consumer prices (annual %) during 2005-2016 highlights an average of 6.83 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 47% in the World.

2.3 Angola

The analysis of indicator: GDP (constant 2010 US\$) during 1985-2016 highlights an average of 50217796229.14. Also for GDP (constant 2010 US\$) the region ranks on the first 46% in the World. The analysis of indicator: GDP growth (annual %) during 1986-2016 highlights an average of 4.75 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 93% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 2657.13. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 64% in the World. The study of indicator: GDP per capita growth (annual %) during 1986-2016 highlights an average of 1.43 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 97% in the World.

Gross capital formation (% of GDP) during 1991-2016 highlights an average of 16.14 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 99% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1985-2016 highlights an average of 50.83 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 71% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1985-2016 highlights an average of 59.21 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 52% in the World.

The analysis of indicator: Expense (% of GDP) during 1999-2015 highlights an average of 25.67 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 63% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1999-2015 highlights an average of 38.96 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 68% in the World.

Services, etc., value added (% of GDP) during 1985-2001 highlights an average of 34.67 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 98% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1991-2016 highlights an average of 423.26 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 2% in the World.

2.4 Albania

The analysis of indicator: GDP (constant 2010 US\$) during 1980-2016 highlights an average of 8103875247.94. Also for GDP (constant 2010 US\$) the region ranks on the first 71% in the World. The analysis of indicator: GDP growth (annual %) during 1981-2016 highlights an average of 2.77 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 41% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 2712.24. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 55% in the World. The study of indicator: GDP per capita growth (annual %) during 1981-2016 highlights an average of 2.58 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 20% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1996-2016 highlights an average of 3337.60. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 54% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $147.712 * \text{Year} - 292973.351$. From this equation we can note that, every year, the indicator grows with 147.712. Gross capital formation (% of GDP) during 1980-2016 highlights an average of 29.05 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 29% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1980-2016 highlights an average of 37.90 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 39% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1980-2016 highlights an average of 19.64 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 56% in the World.

The analysis of indicator: Expense (% of GDP) during 1995-2016 highlights an average of 14.13 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 42% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1995-2016 highlights an average of

13.01 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 38% in the World.

Services, etc., value added (% of GDP) during 1980-2016 highlights an average of 39.79 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 74% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1992-2016 highlights an average of 18.04 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 59% in the World.

2.5 Andorra

The analysis of indicator: GDP (constant 2010 US\$) during 1970-2016 highlights an average of 2290565183.81. Also for GDP (constant 2010 US\$) the region ranks on the first 86% in the World. The analysis of indicator: GDP growth (annual %) during 1971-2016 highlights an average of 2.65 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 80% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 39983.20. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 10% in the World. The study of indicator: GDP per capita growth (annual %) during 1971-2016 highlights an average of 0.09 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 43% in the World.

Services, etc., value added (% of GDP) during 2000-2015 highlights an average of 84.49 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 1% in the World.

2.6 Arab World

The analysis of indicator: GDP (constant 2010 US\$) during 1975-2016 highlights an average of 1333204559589.15. Also for GDP (constant 2010 US\$) the region ranks on the first 15% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $46600541714.629 * \text{Year} - 91658176431952.800$. From this equation we can note that, every year, the indicator grows with 46600541714.629. The analysis of indicator: GDP growth (annual %) during 1976-2016 highlights an average of 3.86 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 44% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 4917.63. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 48% in the World. The study of indicator: GDP per capita growth (annual %) during 1976-2016 highlights an average of 1.21 smaller than the World

average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 58% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2001-2016 highlights an average of 5738.67. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 48% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $124.566 * \text{Year} - 244452.072$. From this equation we can note that, every year, the indicator grow with 124.566. Gross capital formation (% of GDP) during 1990-2016 highlights an average of 23.80 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 26% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1970-2016 highlights an average of 34.61 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 41% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1970-2016 highlights an average of 41.42 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 35% in the World.

Services, etc., value added (% of GDP) during 1975-2016 highlights an average of 43.34 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 69% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1973-2016 highlights an average of 6.00 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 41% in the World.

2.7 United Arab Emirates

The analysis of indicator: GDP (constant 2010 US\$) during 1975-2016 highlights an average of 186132997483.23. Also for GDP (constant 2010 US\$) the region ranks on the first 33% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $7337700335.789 * \text{Year} - 14456248022584.300$. From this equation we can note that, every year, the indicator grow with 7337700335.789. The analysis of indicator: GDP growth (annual %) during 1976-2016 highlights an average of 5.01 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 48% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 65635.77. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 12% in the World. The study of indicator: GDP per capita growth (annual %) during 1976-2016 highlights an average of -1.97 smaller than the

World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 49% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2001-2016 highlights an average of 47037.87. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 14% in the World. Gross capital formation (% of GDP) during 2001-2016 highlights an average of 23.20 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 40% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2001-2016 highlights an average of 69.50 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 3% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $4.099 * \text{Year} - 8162.364$. From this equation we can note that, every year, the indicator grow with 4.099. The analysis of indicator: Exports of goods and services (% of GDP) during 2001-2016 highlights an average of 78.55 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 3% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $3.883 * \text{Year} - 7720.339$. From this equation we can note that, every year, the indicator grow with 3.883.

The analysis of indicator: Expense (% of GDP) during 1997-2016 highlights an average of 2.20 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 98% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1997-2016 highlights an average of 2.02 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 98% in the World.

Services, etc., value added (% of GDP) during 1975-2016 highlights an average of 43.51 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 51% in the World.

The analysis of: Inflation, consumer prices (annual %) during 2008-2016 highlights an average of 2.82 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 55% in the World.

2.8 Argentina

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 254038658286.68. Also for GDP (constant 2010 US\$) the region ranks on the first 30% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.60 smaller than the World

average: 3.53. Also for GDP growth (annual %) the region ranks on the first 96% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 7715.06. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 33% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 1.22 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 95% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 7559.90. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 33% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 20.15 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 91% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 9.45 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 100% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 11.12 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 95% in the World.

The analysis of indicator: Expense (% of GDP) during 1990-2016 highlights an average of 11.40 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 26% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1990-2016 highlights an average of 16.68 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 48% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $0.446 * \text{Year} - 875.733$. From this equation we can note that, every year, the indicator grows with 0.446.

Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 54.98 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 31% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1960-2013 highlights an average of 182.80 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 5% in the World.

2.9 Armenia

The analysis of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 6932952855.80. Also for GDP (constant 2010 US\$) the region ranks on the first 75% in the World. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 3.11 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 89% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 2308.58. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 60% in the World. The study of indicator: GDP per capita growth (annual %) during 1991-2016 highlights an average of 3.85 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 77% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2016 highlights an average of 2379.86. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 58% in the World. Gross capital formation (% of GDP) during 1990-2016 highlights an average of 24.95 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 86% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 highlights an average of 49.83 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 43% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 27.52 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 45% in the World.

The analysis of indicator: Expense (% of GDP) during 2004-2015 highlights an average of 19.19 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 60% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 2004-2015 highlights an average of 19.95 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 65% in the World.

Services, etc., value added (% of GDP) during 1990-2016 highlights an average of 36.88 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 70% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1994-2016 highlights an average of 158.97 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 98% in the World.

2.10 American Samoa

The analysis of indicator: GDP (constant 2010 US\$) during 2002-2016 highlights an average of 584796475.77. Also for GDP (constant 2010 US\$) the region ranks on the first 97% in the World. Time regression analysis reveals a correlation coefficient value: -0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $-7733165.513 * \text{Year} + 16120725991.190$. From this equation we can note that, every year, the indicator decreases with 7733165.513. The analysis of indicator: GDP growth (annual %) during 2003-2016 highlights an average of -1.07 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 97% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 10262.47. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 36% in the World. The study of indicator: GDP per capita growth (annual %) during 2003-2016 highlights an average of -0.68 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 94% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2002-2016 highlights an average of 106.81 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 5% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2002-2016 highlights an average of 82.65 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 11% in the World.

2.11 Antigua and Barbuda

The analysis of indicator: GDP (constant 2010 US\$) during 1977-2016 highlights an average of 852282997.90. Also for GDP (constant 2010 US\$) the region ranks on the first 91% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $27364057.692 * \text{Year} - 53780058184.003$. From this equation we can note that, every year, the indicator grow with 27364057.692. The analysis of indicator: GDP growth (annual %) during 1978-2016 highlights an average of 3.85 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 18% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 10295.87. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 29% in the World. The study of indicator: GDP per capita growth (annual %) during 1978-2016 highlights an average of 3.01 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 13% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1977-2016 highlights an average of 67.78 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 37% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1977-2016 highlights an average of 58.18 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 33% in the World.

The analysis of indicator: Expense (% of GDP) during 2000-2014 highlights an average of 21.88 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 72% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 2000-2014 highlights an average of 18.62 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 75% in the World.

Services, etc., value added (% of GDP) during 1977-2016 highlights an average of 81.73 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 7% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1999-2016 highlights an average of 1.81 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 90% in the World.

2.12 Australia

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 641311960847.38. Also for GDP (constant 2010 US\$) the region ranks on the first 21% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $19910386162.722 * \text{Year} - 38940535730644.500$. From this equation we can note that, every year, the indicator grows with 19910386162.722. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.49 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 52% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 35876.14. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 4% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $665.245 * \text{Year} - 1286630.900$. From this equation we can note that, every year, the indicator grows with 665.245. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 1.92 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 56% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 34972.88. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 3% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $633.876 * \text{Year} - 1225172.344$. From this equation we can note that, every year, the indicator grow with 633.876. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 28.01 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 36% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 17.32 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 91% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 16.32 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 87% in the World.

The analysis of indicator: Expense (% of GDP) during 1972-2016 highlights an average of 24.38 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 28% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1972-2016 highlights an average of 24.13 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 32% in the World.

Services, etc., value added (% of GDP) during 1990-2016 highlights an average of 69.21 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 16% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 4.90 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 60% in the World.

2.13 Austria

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 255280637994.64. Also for GDP (constant 2010 US\$) the region ranks on the first 31% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $6143033302.275 * \text{Year} - 11957069566927.600$. From this equation we can note that, every year, the indicator grow with 6143033302.275. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.77 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 76% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 32182.53. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 7% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $684.257 * \text{Year} - 1328120.262$. From this equation we can note that, every year, the indicator grow with 684.257. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 2.37 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 73% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 35688.39. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 7% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $666.344 * \text{Year} - 1292334.223$. From this equation we can note that, every year, the indicator grow with 666.344. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 26.02 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 49% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 35.35 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 36% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.93. The equation of linear regression is therefore: $0.496 * \text{Year} - 950.708$. From this equation we can note that, every year, the indicator grow with 0.496. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 35.74 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 19% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $0.575 * \text{Year} - 1106.885$. From this equation we can note that, every year, the indicator grow with 0.575.

The analysis of indicator: Expense (% of GDP) during 1972-2015 highlights an average of 40.07 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 6% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1972-2015 highlights an average of 37.75 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 4% in the World.

Services, etc., value added (% of GDP) during 1976-2016 highlights an average of 64.91 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 18% in the World. Time regression

analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $0.343 \cdot \text{Year} - 619.854$. From this equation we can note that, every year, the indicator grow with 0.343.

The analysis of: Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 3.33 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 65% in the World.

2.14 Azerbaijan

The analysis of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 29854570888.74. Also for GDP (constant 2010 US\$) the region ranks on the first 50% in the World. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 4.56 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 98% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 3420.74. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 50% in the World. The study of indicator: GDP per capita growth (annual %) during 1991-2016 highlights an average of 3.34 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 98% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1994-2014 highlights an average of 3067.69. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 49% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $276.239 \cdot \text{Year} - 550515.966$. From this equation we can note that, every year, the indicator grow with 276.239. Gross capital formation (% of GDP) during 1990-2016 highlights an average of 25.69 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 41% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 highlights an average of 41.49 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 43% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 46.78 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 26% in the World.

The analysis of indicator: Expense (% of GDP) during 1994-2015 highlights an average of 13.40 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 61% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1994-2015 highlights an average of

20.27 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 24% in the World.

Services, etc., value added (% of GDP) during 1990-2016 highlights an average of 34.45 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 93% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1992-2016 highlights an average of 132.16 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 27% in the World.

2.15 Burundi

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 1396555765.03. Also for GDP (constant 2010 US\$) the region ranks on the first 88% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.59 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 91% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 255.99. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 100% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 0.18 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 96% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1997-2016 highlights an average of 228.09. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 100% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 12.82 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 90% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 22.91 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 65% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 9.59 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 100% in the World.

The analysis of indicator: Expense (% of GDP) during 1991-2013 highlights an average of 10.95 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 86% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1991-2013 highlights an average of

8.72 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 89% in the World.

Services, etc., value added (% of GDP) during 1970-2016 highlights an average of 31.41 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 91% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $0.571 * \text{Year} - 1106.244$. From this equation we can note that, every year, the indicator grow with 0.571.

The analysis of: Inflation, consumer prices (annual %) during 1966-2016 highlights an average of 9.95 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 21% in the World.

2.16 Belgium

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 318998662253.87. Also for GDP (constant 2010 US\$) the region ranks on the first 28% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $7167728939.817 * \text{Year} - 13930446470102.700$. From this equation we can note that, every year, the indicator grow with 7167728939.817. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.65 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 77% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 31148.36. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 9% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $611.617 * \text{Year} - 1184745.743$. From this equation we can note that, every year, the indicator grow with 611.617. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 2.25 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 67% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2015 highlights an average of 34563.35. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 11% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $607.306 * \text{Year} - 1175493.789$. From this equation we can note that, every year, the indicator grow with 607.306. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 23.52 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 47% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 57.81 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 7% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 59.11 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 5% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $0.788 * \text{Year} - 1507.144$. From this equation we can note that, every year, the indicator grows with 0.788.

The analysis of indicator: Expense (% of GDP) during 1995-2015 highlights an average of 43.20 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 10% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1995-2015 highlights an average of 41.13 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 6% in the World.

Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 73.73 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 8% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $0.422 * \text{Year} - 771.665$. From this equation we can note that, every year, the indicator grows with 0.422.

The analysis of: Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 3.55 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 50% in the World.

2.17 Benin

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 3679451830.14. Also for GDP (constant 2010 US\$) the region ranks on the first 78% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.63 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 35% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 641.39. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 91% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 0.90 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 59% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 635.96. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 87% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 17.43 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 28% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 30.04 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 50% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 17.97 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 50% in the World.

The analysis of indicator: Expense (% of GDP) during 2001-2013 highlights an average of 12.22 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 93% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 2001-2013 highlights an average of 16.09 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 80% in the World.

Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 49.35 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 80% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1993-2016 highlights an average of 4.69 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 95% in the World.

2.18 Burkina Faso

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 4156908356.66. Also for GDP (constant 2010 US\$) the region ranks on the first 73% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.38 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 14% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 386.19. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 94% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 1.88 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 32% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1965-2015 highlights an average of 390.84. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 94% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $7.169 \cdot \text{Year} - 13875.569$. From this equation we can note that, every year, the indicator grows with 7.169. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 18.97 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 44% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 24.83 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 61% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 10.34 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 65% in the World.

The analysis of indicator: Expense (% of GDP) during 2002-2016 highlights an average of 12.94 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 82% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 2002-2016 highlights an average of 14.89 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 72% in the World.

Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 44.37 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 92% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 4.48 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 88% in the World.

2.19 Bangladesh

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 55585269406.98. Also for GDP (constant 2010 US\$) the region ranks on the first 42% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.15 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 6% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 487.18. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 87% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 1.92 bigger than the World

average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 3% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1973-2016 highlights an average of 539.51. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 82% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 17.58 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 21% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 15.89 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 91% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 10.00 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 91% in the World.

The analysis of indicator: Expense (% of GDP) during 2001-2015 highlights an average of 8.83 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 99% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 2001-2015 highlights an average of 9.58 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 98% in the World.

Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 45.44 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 62% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1987-2016 highlights an average of 6.32 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 22% in the World.

2.20 Bulgaria

The analysis of indicator: GDP (constant 2010 US\$) during 1980-2016 highlights an average of 39357883496.37. Also for GDP (constant 2010 US\$) the region ranks on the first 51% in the World. The analysis of indicator: GDP growth (annual %) during 1981-2016 highlights an average of 2.03 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 35% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 4928.84. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 42% in the World. The study of indicator: GDP per capita growth (annual %) during 1981-2016 highlights an average of 2.64 bigger than the World

average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 12% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1980-2016 highlights an average of 4832.85. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 42% in the World. Gross capital formation (% of GDP) during 1980-2016 highlights an average of 24.55 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 81% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1980-2016 highlights an average of 48.76 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 20% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1980-2016 highlights an average of 45.89 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 12% in the World.

The analysis of indicator: Expense (% of GDP) during 1990-2015 highlights an average of 26.60 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 48% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1990-2015 highlights an average of 24.98 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 45% in the World.

Services, etc., value added (% of GDP) during 1980-2016 highlights an average of 51.01 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 29% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1986-2016 highlights an average of 63.74 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 93% in the World.

2.21 Bahrain

The analysis of indicator: GDP (constant 2010 US\$) during 1980-2015 highlights an average of 15506816799.35. Also for GDP (constant 2010 US\$) the region ranks on the first 57% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $700707982.047 * \text{Year} - 1384157377339.920$. From this equation we can note that, every year, the indicator grows with 700707982.047. The analysis of indicator: GDP growth (annual %) during 1981-2015 highlights an average of 4.15 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 54% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 20630.96. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 20% in the World. The study of indicator: GDP per capita growth (annual %) during 1981-2015 highlights an average of 0.25 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 74% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2006-2015 highlights an average of 19629.50. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 24% in the World. Gross capital formation (% of GDP) during 1980-2016 highlights an average of 26.24 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 22% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1980-2016 highlights an average of 76.71 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 16% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1980-2016 highlights an average of 89.46 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 8% in the World.

The analysis of indicator: Expense (% of GDP) during 1990-2013 highlights an average of 20.84 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 59% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1990-2013 highlights an average of 23.43 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 50% in the World.

Services, etc., value added (% of GDP) during 2010-2016 highlights an average of 53.99 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 47% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1966-2016 highlights an average of 3.85 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 40% in the World.

2.22 Bahamas

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 5287289457.97. Also for GDP (constant 2010 US\$) the region ranks on the first 80% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $127103739.885 * \text{Year} - 247394945432.740$. From this equation we can note that, every year, the indicator grows with 127103739.885. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an

average of 3.20 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 89% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 20525.43. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 21% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 0.85 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 88% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1989-2016 highlights an average of 22237.20. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 25% in the World. Gross capital formation (% of GDP) during 1977-2016 highlights an average of 23.66 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 35% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1977-2016 highlights an average of 51.15 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 47% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1977-2016 highlights an average of 50.02 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 42% in the World.

The analysis of indicator: Expense (% of GDP) during 1973-2015 highlights an average of 15.85 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 89% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1973-2015 highlights an average of 15.60 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 90% in the World.

Services, etc., value added (% of GDP) during 1984-2016 highlights an average of 79.60 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 2% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1967-2016 highlights an average of 4.24 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 89% in the World.

2.23 Bosnia and Herzegovina

The analysis of indicator: GDP (constant 2010 US\$) during 1994-2016 highlights an average of 13469595617.14. Also for GDP (constant 2010 US\$) the region ranks on the first 65% in the World. The analysis of indicator: GDP growth (annual %) during 1995-2016 highlights an average of 10.35 bigger than the World

average: 3.53. Also for GDP growth (annual %) the region ranks on the first 47% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 3635.58. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 53% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $189.559 * \text{Year} - 376430.703$. From this equation we can note that, every year, the indicator grow with 189.559. The study of indicator: GDP per capita growth (annual %) during 1995-2016 highlights an average of 10.99 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 18% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2006-2016 highlights an average of 4830.84. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 52% in the World. Gross capital formation (% of GDP) during 1995-2016 highlights an average of 23.48 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 78% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1994-2016 highlights an average of 68.19 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 29% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1994-2016 highlights an average of 28.85 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 41% in the World.

The analysis of indicator: Expense (% of GDP) during 2005-2016 highlights an average of 37.18 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 8% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 2005-2016 highlights an average of 38.22 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 4% in the World.

Services, etc., value added (% of GDP) during 1994-2016 highlights an average of 60.43 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 35% in the World.

The analysis of: Inflation, consumer prices (annual %) during 2006-2016 highlights an average of 1.77 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 97% in the World.

2.24 Belarus

The analysis of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 39947128953.28. Also for GDP (constant 2010 US\$) the region ranks on the first 50% in the World. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 2.67 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 98% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 4114.47. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 48% in the World. The study of indicator: GDP per capita growth (annual %) during 1991-2016 highlights an average of 2.96 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 94% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2016 highlights an average of 4047.22. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 49% in the World. Gross capital formation (% of GDP) during 1990-2016 highlights an average of 30.46 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 39% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 highlights an average of 64.02 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 18% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 60.10 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 13% in the World.

The analysis of indicator: Expense (% of GDP) during 1992-2016 highlights an average of 29.19 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 22% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1992-2016 highlights an average of 31.35 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 22% in the World.

Services, etc., value added (% of GDP) during 1990-2016 highlights an average of 46.23 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 63% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1993-2016 highlights an average of 214.92 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 7% in the World.

2.25 Belize

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 639762872.77. Also for GDP (constant 2010 US\$) the region ranks on the first 90% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $28692278.894 * \text{Year} - 56400487568.045$. From this equation we can note that, every year, the indicator grow with 28692278.894. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 5.16 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 92% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 2752.10. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 57% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $72.496 * \text{Year} - 141369.606$. From this equation we can note that, every year, the indicator grow with 72.496. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 2.60 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 93% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1981-2015 highlights an average of 3225.50. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 57% in the World. Gross capital formation (% of GDP) during 1980-2015 highlights an average of 22.34 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 54% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1980-2015 highlights an average of 62.70 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 15% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1980-2015 highlights an average of 55.21 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 14% in the World.

The analysis of indicator: Expense (% of GDP) during 1990-2014 highlights an average of 21.34 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 61% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1990-2014 highlights an average of 23.51 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 44% in the World.

Services, etc., value added (% of GDP) during 1978-2015 highlights an average of 59.45 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 30% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1981-2015 highlights an average of 2.56 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 94% in the World.

2.26 Bermuda

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2013 highlights an average of 3611486197.97. Also for GDP (constant 2010 US\$) the region ranks on the first 81% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.95. The equation of linear regression is therefore: $88217316.853 * \text{Year} - 171632213729.637$. From this equation we can note that, every year, the indicator grow with 88217316.853. The analysis of indicator: GDP growth (annual %) during 1961-2013 highlights an average of 2.81 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 96% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 61278.24. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 2% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $1184.171 * \text{Year} - 2291077.275$. From this equation we can note that, every year, the indicator grow with 1184.171. The study of indicator: GDP per capita growth (annual %) during 1961-2013 highlights an average of 2.06 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 95% in the World.

Gross capital formation (% of GDP) during 2009-2013 highlights an average of 12.83 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 97% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2009-2013 highlights an average of 29.56 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 79% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2009-2013 highlights an average of 47.13 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 30% in the World.

Services, etc., value added (% of GDP) during 1996-2012 highlights an average of 90.16 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 0% in the World.

2.27 Bolivia

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 11518567598.25. Also for GDP (constant 2010 US\$) the region ranks on the first 61% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.17 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 28% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 1620.37. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 71% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 1.20 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 35% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 1627.58. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 70% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 15.96 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 69% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 27.60 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 65% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 25.52 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 70% in the World.

The analysis of indicator: Expense (% of GDP) during 1986-2007 highlights an average of 19.62 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 54% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1985-2007 highlights an average of 16.73 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 59% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.91. The equation of linear regression is therefore: $0.494 * \text{Year} - 969.705$. From this equation we can note that, every year, the indicator grows with 0.494.

Services, etc., value added (% of GDP) during 1970-2016 highlights an average of 49.41 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 67% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 249.91 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 31% in the World.

2.28 Brazil

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 1198046227549.42. Also for GDP (constant 2010 US\$) the region ranks on the first 16% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $38718351520.815 * \text{Year} - 75774036595830.800$. From this equation we can note that, every year, the indicator grow with 38718351520.815. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.10 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 99% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 7751.90. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 32% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $138.661 * \text{Year} - 267906.385$. From this equation we can note that, every year, the indicator grow with 138.661. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 2.15 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 99% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 7532.83. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 31% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $132.517 * \text{Year} - 255911.085$. From this equation we can note that, every year, the indicator grow with 132.517. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 20.24 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 94% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 9.55 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 100% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 9.54 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 96% in the World.

The analysis of indicator: Expense (% of GDP) during 1980-2015 highlights an average of 24.88 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 27% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1980-2015 highlights an average of 22.78 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 39% in the World.

Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 55.60 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 15% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1981-2016 highlights an average of 326.10 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 9% in the World.

2.29 Barbados

The analysis of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 4065274946.61. Also for GDP (constant 2010 US\$) the region ranks on the first 84% in the World. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 1.01 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 64% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 14879.65. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 23% in the World. The study of indicator: GDP per capita growth (annual %) during 1991-2016 highlights an average of 0.66 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 48% in the World.

Gross capital formation (% of GDP) during 1990-2015 highlights an average of 15.11 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 92% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2015 highlights an average of 45.93 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 44% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2015 highlights an average of 42.10 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 43% in the World.

The analysis of indicator: Expense (% of GDP) during 2003-2013 highlights an average of 30.99 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 23% in the World. The analysis of indicator:

Revenue, excluding grants (% of GDP) during 2003-2013 highlights an average of 27.21 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 45% in the World.

Services, etc., value added (% of GDP) during 1990-2015 highlights an average of 81.72 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 1% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1967-2015 highlights an average of 6.39 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 96% in the World.

2.30 Brunei Darussalam

The analysis of indicator: GDP (constant 2010 US\$) during 1974-2016 highlights an average of 11352173196.54. Also for GDP (constant 2010 US\$) the region ranks on the first 72% in the World. The analysis of indicator: GDP growth (annual %) during 1975-2016 highlights an average of 1.70 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 97% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 40246.56. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 16% in the World. The study of indicator: GDP per capita growth (annual %) during 1975-2016 highlights an average of -0.71 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 96% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2016 highlights an average of 36056.28. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 19% in the World. Gross capital formation (% of GDP) during 1989-2016 highlights an average of 23.96 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 8% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1974-2016 highlights an average of 29.59 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 56% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1974-2016 highlights an average of 62.98 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 21% in the World.

Services, etc., value added (% of GDP) during 1974-2016 highlights an average of 30.82 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 95% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1981-2016 highlights an average of 1.57 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 93% in the World.

2.31 Bhutan

The analysis of indicator: GDP (constant 2010 US\$) during 1980-2016 highlights an average of 837576364.54. Also for GDP (constant 2010 US\$) the region ranks on the first 88% in the World. The analysis of indicator: GDP growth (annual %) during 1981-2016 highlights an average of 7.61 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 3% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 1290.26. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 69% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $63.834 * \text{Year} - 126250.303$. From this equation we can note that, every year, the indicator grow with 63.834. The study of indicator: GDP per capita growth (annual %) during 1981-2016 highlights an average of 5.62 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 2% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2000-2016 highlights an average of 1840.12. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 69% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $86.026 * \text{Year} - 170900.804$. From this equation we can note that, every year, the indicator grow with 86.026. Gross capital formation (% of GDP) during 1980-2016 highlights an average of 45.25 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 1% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1980-2016 highlights an average of 51.24 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 28% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1980-2016 highlights an average of 30.94 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 54% in the World.

The analysis of indicator: Expense (% of GDP) during 1982-2016 highlights an average of 18.64 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 74% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1982-2016 highlights an average of

17.72 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 62% in the World.

Services, etc., value added (% of GDP) during 1980-2016 highlights an average of 37.81 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 99% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1981-2016 highlights an average of 7.03 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 26% in the World.

2.32 Botswana

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 5613685339.94. Also for GDP (constant 2010 US\$) the region ranks on the first 67% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $297446898.452 * \text{Year} - 585710748782.381$. From this equation we can note that, every year, the indicator grow with 297446898.452. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 8.35 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 27% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 3355.84. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 44% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $137.551 * \text{Year} - 270095.207$. From this equation we can note that, every year, the indicator grow with 137.551. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 5.55 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 40% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1975-2016 highlights an average of 4161.44. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 45% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $146.587 * \text{Year} - 288353.355$. From this equation we can note that, every year, the indicator grow with 146.587. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 30.47 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 45% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 51.37 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 46% in the

World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 47.36 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 16% in the World.

The analysis of indicator: Expense (% of GDP) during 1990-2014 highlights an average of 19.46 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 44% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1990-2014 highlights an average of 27.08 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 15% in the World.

Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 39.45 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 38% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1975-2016 highlights an average of 9.55 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 30% in the World.

2.33 Central African Republic

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 1369073909.84. Also for GDP (constant 2010 US\$) the region ranks on the first 90% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 1.14 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 24% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 492.59. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 100% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of -0.86 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 20% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2008-2016 highlights an average of 389.23. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 98% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 13.52 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 96% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 30.81 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 70% in the

World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 20.80 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 95% in the World.

The analysis of indicator: Expense (% of GDP) during 2008-2011 highlights an average of 16.30 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 82% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 2008-2011 highlights an average of 10.89 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 97% in the World.

Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 35.24 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 96% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1981-2015 highlights an average of 5.12 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 2% in the World.

2.34 Canada

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 1004981664065.90. Also for GDP (constant 2010 US\$) the region ranks on the first 17% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $27138807252.532 * \text{Year} - 52946967153968.200$. From this equation we can note that, every year, the indicator grows with 27138807252.532. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.20 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 77% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 35257.83. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 7% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $591.494 * \text{Year} - 1140632.134$. From this equation we can note that, every year, the indicator grows with 591.494. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 1.91 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 74% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 37429.11. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 7% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of

linear regression is therefore: $562.681 \cdot \text{Year} - 1083993.784$. From this equation we can note that, every year, the indicator grows with 562.681. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 22.58 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 55% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 26.95 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 62% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 28.03 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 49% in the World.

The analysis of indicator: Expense (% of GDP) during 1990-2016 highlights an average of 19.73 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 66% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1990-2016 highlights an average of 18.90 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 78% in the World.

Services, etc., value added (% of GDP) during 2007-2013 highlights an average of 68.98 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 25% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 3.84 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 57% in the World.

2.35 Central Europe and the Baltics

The analysis of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 1071427606070.33. Also for GDP (constant 2010 US\$) the region ranks on the first 20% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $33384783506.349 \cdot \text{Year} - 65798293757146.900$. From this equation we can note that, every year, the indicator grows with 33384783506.349. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 2.59 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 49% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 10078.33. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 26% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $343.244 \cdot \text{Year} - 677439.785$. From this equation we can note

that, every year, the indicator grow with 343.244. The study of indicator: GDP per capita growth (annual %) during 1991-2016 highlights an average of 2.88 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 23% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2004-2015 highlights an average of 12033.86. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 31% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $307.557 * \text{Year} - 606001.433$. From this equation we can note that, every year, the indicator grow with 307.557. Gross capital formation (% of GDP) during 1990-2016 highlights an average of 23.92 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 62% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 highlights an average of 45.52 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 20% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $1.352 * \text{Year} - 2662.545$. From this equation we can note that, every year, the indicator grow with 1.352. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 43.84 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 12% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $1.489 * \text{Year} - 2939.376$. From this equation we can note that, every year, the indicator grow with 1.489.

The analysis of indicator: Expense (% of GDP) during 1994-2015 highlights an average of 18.99 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 31% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1994-2015 highlights an average of 17.35 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 32% in the World.

Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 61.55 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 36% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1992-2016 highlights an average of 16.05 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 85% in the World.

2.36 Switzerland

The analysis of indicator: GDP (constant 2010 US\$) during 1980-2016 highlights an average of 477377198644.51. Also for GDP (constant 2010 US\$) the region ranks on the first 26% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $8335580530.348 * \text{Year} - 16177112700991.300$. From this equation we can note that, every year, the indicator grow with 8335580530.348. The analysis of indicator: GDP growth (annual %) during 1981-2016 highlights an average of 1.74 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 79% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 65984.22. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 1% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $655.376 * \text{Year} - 1243456.963$. From this equation we can note that, every year, the indicator grow with 655.376. The study of indicator: GDP per capita growth (annual %) during 1981-2016 highlights an average of 0.95 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 73% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1980-2015 highlights an average of 67486.61. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 1% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $670.627 * \text{Year} - 1272090.282$. From this equation we can note that, every year, the indicator grow with 670.627. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 21.74 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 52% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 34.47 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 25% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 38.07 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 10% in the World.

The analysis of indicator: Expense (% of GDP) during 1980-2016 highlights an average of 15.08 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 68% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1980-2016 highlights an average of

14.59 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 70% in the World.

Services, etc., value added (% of GDP) during 1990-2016 highlights an average of 71.00 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 15% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 2.55 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 89% in the World.

2.37 Channel Islands

The analysis of indicator: GDP growth (annual %) during 1999-2007 highlights an average of 1.74 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 54% in the World.

The study of indicator: GDP per capita growth (annual %) during 1999-2007 highlights an average of 1.01 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 39% in the World.

2.38 Chile

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 106508348032.87. Also for GDP (constant 2010 US\$) the region ranks on the first 36% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.14 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 74% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 7473.33. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 25% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 2.59 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 70% in the World.

Gross capital formation (% of GDP) during 1960-2014 highlights an average of 20.20 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 61% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 24.37 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 78% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 25.49 bigger than the World average: 20.45.

Also for Exports of goods and services (% of GDP) the region ranks on the first 58% in the World.

The analysis of indicator: Expense (% of GDP) during 1972-2016 highlights an average of 21.39 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 48% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1972-2016 highlights an average of 23.48 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 52% in the World.

Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 53.64 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 35% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 41.71 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 29% in the World.

2.39 China

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 1998577964933.88. Also for GDP (constant 2010 US\$) the region ranks on the first 9% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 8.25 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 10% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 1562.60. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 46% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 6.85 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 3% in the World.

Gross capital formation (% of GDP) during 1960-2014 highlights an average of 36.29 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 4% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 12.54 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 97% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 14.24 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 84% in the World.

The analysis of indicator: Revenue, excluding grants (% of GDP) during 2005-2014 highlights an average of 10.83 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 90% in the World.

Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 33.14 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 79% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1987-2016 highlights an average of 5.32 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 50% in the World.

2.40 Cote d'Ivoire

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 17516577145.02. Also for GDP (constant 2010 US\$) the region ranks on the first 57% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $418603482.729 * \text{Year} - 814667146519.740$. From this equation we can note that, every year, the indicator grow with 418603482.729. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.05 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 2% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 1547.04. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 80% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 0.58 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 6% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2008-2016 highlights an average of 1258.83. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 79% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 16.35 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 70% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 32.86 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 95% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 39.40 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 47% in the World.

The analysis of indicator: Expense (% of GDP) during 2001-2014 highlights an average of 14.16 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 94% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1995-2014 highlights an average of 11.79 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 92% in the World.

Services, etc., value added (% of GDP) during 2013-2016 highlights an average of 46.23 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 89% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1961-2015 highlights an average of 5.67 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 69% in the World.

2.41 Cameroon

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 15365572419.31. Also for GDP (constant 2010 US\$) the region ranks on the first 58% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $464647669.080 * \text{Year} - 908353993712.657$. From this equation we can note that, every year, the indicator grows with 464647669.080. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.70 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 25% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 1230.32. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 81% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 0.94 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 48% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1967-2016 highlights an average of 1199.45. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 80% in the World. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 20.92 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 58% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1965-2016 highlights an average of 24.91 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 86% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1965-2016 highlights an average of 23.48 bigger than the World average: 20.45.

Also for Exports of goods and services (% of GDP) the region ranks on the first 88% in the World.

Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 50.05 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 61% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1969-2016 highlights an average of 6.02 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 66% in the World.

2.42 Congo, Dem. Rep.

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 19754521871.92. Also for GDP (constant 2010 US\$) the region ranks on the first 59% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 1.45 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 55% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 649.85. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 99% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of -1.48 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 87% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1993-2016 highlights an average of 308.05. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 98% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 12.66 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 92% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 24.40 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 61% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 22.00 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 64% in the World.

The analysis of indicator: Expense (% of GDP) during 1990-2010 highlights an average of 10.10 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 99% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1990-2010 highlights an average of

6.83 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 82% in the World.

Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 40.78 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 91% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1964-2013 highlights an average of 716.32 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 72% in the World.

2.43 Congo, Rep.

The analysis of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 6335649521.46. Also for GDP (constant 2010 US\$) the region ranks on the first 70% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.93. The equation of linear regression is therefore: $217601646.270 * \text{Year} - 426256423264.116$. From this equation we can note that, every year, the indicator grow with 217601646.270. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.28 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 96% in the World.

The analysis of indicator: GDP per capita (constant 2010 US\$) during - highlights an average of 2307.39. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 69% in the World. The study of indicator: GDP per capita growth (annual %) during 1961-2015 highlights an average of 1.34 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 98% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 2529.50. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 63% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 29.97 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 2% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 highlights an average of 56.75 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 8% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 55.01 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 14% in the World.

The analysis of indicator: Expense (% of GDP) during 1992-2012 highlights an average of 23.82 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 88% in the World. The analysis of indicator: Revenue, excluding grants (% of GDP) during 1972-2012 highlights an average of 19.95 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 6% in the World.

Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 43.99 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 97% in the World.

The analysis of: Inflation, consumer prices (annual %) during 1986-2015 highlights an average of 4.08 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 23% in the World.

2.44 Colombia

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 154083862194.48. Also for GDP (constant 2010 US\$) the region ranks on the first 33% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $5452759738.685 * \text{Year} - 10686002498311.300$. From this equation we can note that, every year, the indicator grow with 5452759738.685. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.23 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 67% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 4272.43. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 43% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $85.214 * \text{Year} - 165132.031$. From this equation we can note that, every year, the indicator grow with 85.214. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.23 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 62% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 4156.38. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 44% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $81.412 * \text{Year} - 157690.768$. From this equation we can note that, every year, the indicator grow with 81.412. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 20.05 smaller than the World

average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 37% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 16.36 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 93% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 15.33 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 94% in the World.

The indicator: Expense (% of GDP) during 1998-2015 reveals an average of 16.78 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 51% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1998-2015 reveals an average of 14.43 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 64% in the World.

Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 51.34 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 46% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 14.93 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 12% in the World.

2.45 Comoros

The study of indicator: GDP (constant 2010 US\$) during 1980-2016 highlights an average of 425069900.57. Also for GDP (constant 2010 US\$) the region ranks on the first 96% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $8964170.593 * \text{Year} - 17485342944.811$. From this equation we can note that, every year, the indicator grows with 8964170.593. The analysis of indicator: GDP growth (annual %) during 1981-2016 highlights an average of 2.35 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 62% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 820.40. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 91% in the World. The indicator: GDP per capita growth (annual %) during 1981-2016 reveals an average of -0.31 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 78% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2001-2014 highlights an average of 786.23. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 90% in the World. Gross capital formation (% of GDP) during 1980-2016 highlights an average of 19.65 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 68% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1980-2016 reveals an average of 43.69 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 43% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1980-2016 highlights an average of 16.25 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 92% in the World.

Inflation, consumer prices (annual %) during 2001-2015 highlights an average of 2.40 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 100% in the World.

2.46 Cabo Verde

The study of indicator: GDP (constant 2010 US\$) during 1980-2016 highlights an average of 885581203.59. Also for GDP (constant 2010 US\$) the region ranks on the first 88% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $54182965.507 * \text{Year} - 107371983878.485$. From this equation we can note that, every year, the indicator grows with 54182965.507. The analysis of indicator: GDP growth (annual %) during 1981-2016 highlights an average of 6.61 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 35% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1946.69. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 65% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $94.277 * \text{Year} - 186419.233$. From this equation we can note that, every year, the indicator grows with 94.277. The indicator: GDP per capita growth (annual %) during 1981-2016 reveals an average of 4.74 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 37% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2007-2013 highlights an average of 3231.10. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 64% in the World. Gross capital formation (% of GDP) during 2007-2014 highlights an average of 42.89 bigger than the World average:

25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 8% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1980-2014 reveals an average of 64.76 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 23% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1980-2014 highlights an average of 26.29 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 40% in the World.

The indicator: Expense (% of GDP) during 2005-2009 reveals an average of 26.07 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 60% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2005-2009 reveals an average of 27.99 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 42% in the World.

Services, etc., value added (% of GDP) during 2007-2016 highlights an average of 70.03 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 20% in the World.

Inflation, consumer prices (annual %) during 1984-2016 highlights an average of 4.04 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 98% in the World.

2.47 Costa Rica

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 18405856657.41. Also for GDP (constant 2010 US\$) the region ranks on the first 54% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $716112721.905 * \text{Year} - 1405226234490.550$. From this equation we can note that, every year, the indicator grows with 716112721.905. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.64 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 26% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 5415.91. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 35% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $107.817 * \text{Year} - 208925.119$. From this equation we can note that, every year, the indicator grows with 107.817. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.25 bigger than the

World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 23% in the World.

Gross capital formation (% of GDP) during 1960-2014 highlights an average of 20.42 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 76% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 37.09 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 66% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 32.72 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 48% in the World.

The indicator: Expense (% of GDP) during 1973-2015 reveals an average of 20.90 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 42% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 20.36 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 61% in the World.

Services, etc., value added (% of GDP) during 1983-2016 highlights an average of 61.54 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 16% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $0.592 * \text{Year} - 1122.102$. From this equation we can note that, every year, the indicator grow with 0.592.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 12.13 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 84% in the World.

2.48 Caribbean small states

The study of indicator: GDP (constant 2010 US\$) during 1966-2016 highlights an average of 40944084154.31. Also for GDP (constant 2010 US\$) the region ranks on the first 48% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.91. The equation of linear regression is therefore: $855729739.679 * \text{Year} - 1662813827546.410$. From this equation we can note that, every year, the indicator grow with 855729739.679. The analysis of indicator: GDP growth (annual %) during 1967-2016 highlights an average of 2.14 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 91% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6627.00. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 39% in the World. The indicator: GDP per capita growth (annual %) during 1967-2016 reveals an average of 1.24 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 87% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2007-2015 highlights an average of 8355.49. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 44% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 23.73 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 60% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 48.28 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 38% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 48.00 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 32% in the World.

The indicator: Expense (% of GDP) during 2001-2014 reveals an average of 23.56 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 46% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2001-2014 reveals an average of 24.16 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 37% in the World.

Services, etc., value added (% of GDP) during 1984-2016 highlights an average of 60.39 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 22% in the World.

Inflation, consumer prices (annual %) during 1967-2016 highlights an average of 5.55 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 79% in the World.

2.49 Cuba

The study of indicator: GDP (constant 2010 US\$) during 1970-2015 highlights an average of 41938395624.08. Also for GDP (constant 2010 US\$) the region ranks on the first 45% in the World. The analysis of indicator: GDP growth (annual %) during 1971-2015 highlights an average of 3.17 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 25% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3929.93. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 48% in the World. The indicator: GDP per capita growth (annual %) during 1971-2015 reveals an average of 2.54 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 14% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2013 highlights an average of 3751.30. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 48% in the World. Gross capital formation (% of GDP) during 1970-2015 highlights an average of 17.34 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 100% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1970-2015 reveals an average of 29.77 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 99% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1970-2015 highlights an average of 24.37 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 90% in the World.

Services, etc., value added (% of GDP) during 1970-2015 highlights an average of 69.56 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 17% in the World.

2.52 Cyprus

The study of indicator: GDP (constant 2010 US\$) during 1975-2016 highlights an average of 15593093515.22. Also for GDP (constant 2010 US\$) the region ranks on the first 62% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $577964516.616 * \text{Year} - 1137735099392.180$. From this equation we can note that, every year, the indicator grow with 577964516.616. The analysis of indicator: GDP growth (annual %) during 1976-2016 highlights an average of 4.71 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 48% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 22490.19. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 17% in the World. The indicator: GDP per capita growth (annual %) during 1976-2016 reveals an average of 3.38 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 38% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1975-2016 highlights an average of 22225.36. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 21% in the World. Gross capital formation (% of GDP) during 1975-2016 highlights an average of 25.16 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 92% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1975-2016 reveals an average of 60.12 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 15% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1975-2016 highlights an average of 54.31 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 11% in the World.

The indicator: Expense (% of GDP) during 1975-2015 reveals an average of 41.85 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 17% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1975-2015 reveals an average of 39.64 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 17% in the World.

Services, etc., value added (% of GDP) during 1975-2016 highlights an average of 71.10 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 2% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $0.766 * \text{Year} - 1458.298$. From this equation we can note that, every year, the indicator grows with 0.766.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 3.59 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 99% in the World.

2.53 Czech Republic

The study of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 173715794736.48. Also for GDP (constant 2010 US\$) the region ranks on the first 39% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear

regression is therefore: $4239660671.810 * \text{Year} - 8318324530899.110$. From this equation we can note that, every year, the indicator grow with 4239660671.810. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 1.90 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 54% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 16764.23. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 20% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $392.203 * \text{Year} - 768818.985$. From this equation we can note that, every year, the indicator grow with 392.203. The indicator: GDP per capita growth (annual %) during 1991-2016 reveals an average of 1.81 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 40% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1992-2015 highlights an average of 16079.00. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 25% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $345.113 * \text{Year} - 675354.108$. From this equation we can note that, every year, the indicator grow with 345.113. Gross capital formation (% of GDP) during 1990-2016 highlights an average of 28.68 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 32% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 reveals an average of 53.58 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 11% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $1.650 * \text{Year} - 3251.805$. From this equation we can note that, every year, the indicator grow with 1.650. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 55.16 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 6% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $1.915 * \text{Year} - 3781.475$. From this equation we can note that, every year, the indicator grow with 1.915.

The indicator: Expense (% of GDP) during 1993-2015 reveals an average of 31.95 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 33% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1993-2015 reveals an average of 28.76 bigger than the World

average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 44% in the World.

Services, etc., value added (% of GDP) during 1993-2016 highlights an average of 59.26 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 46% in the World.

Inflation, consumer prices (annual %) during 1994-2016 highlights an average of 3.77 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 70% in the World.

2.54 Germany

The study of indicator: GDP (constant 2010 US\$) during 1970-2016 highlights an average of 2667975480303.97. Also for GDP (constant 2010 US\$) the region ranks on the first 12% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $49266148741.701 * \text{Year} - 95519458961905.600$. From this equation we can note that, every year, the indicator grow with 49266148741.701. The analysis of indicator: GDP growth (annual %) during 1971-2016 highlights an average of 2.00 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 67% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 33123.51. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 8% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $571.917 * \text{Year} - 1106706.303$. From this equation we can note that, every year, the indicator grow with 571.917. The indicator: GDP per capita growth (annual %) during 1971-2016 reveals an average of 1.88 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 65% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 33393.59. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 10% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $585.303 * \text{Year} - 1133114.781$. From this equation we can note that, every year, the indicator grow with 585.303. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 23.27 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 80% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1970-2016 reveals an average of 26.44 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 55% in the

World. The analysis of indicator: Exports of goods and services (% of GDP) during 1970-2016 highlights an average of 27.56 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 26% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 28.13 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 44% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 26.81 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 41% in the World.

Services, etc., value added (% of GDP) during 1991-2016 highlights an average of 67.98 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 23% in the World.

Inflation, consumer prices (annual %) during 1992-2016 highlights an average of 1.72 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 74% in the World.

2.55 Djibouti

The study of indicator: GDP (constant 2010 US\$) during 1990-2015 highlights an average of 954170271.07. Also for GDP (constant 2010 US\$) the region ranks on the first 90% in the World. The analysis of indicator: GDP growth (annual %) during 1991-2015 highlights an average of 1.94 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 10% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1269.23. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 80% in the World. The indicator: GDP per capita growth (annual %) during 1991-2015 reveals an average of 0.11 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 11% in the World.

Gross capital formation (% of GDP) during 1990-2007 highlights an average of 14.41 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 8% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2007 reveals an average of 57.55 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 11% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2007 highlights an average of 42.10 bigger than the World average: 20.45.

Also for Exports of goods and services (% of GDP) the region ranks on the first 20% in the World.

Services, etc., value added (% of GDP) during 1989-2007 highlights an average of 79.87 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 4% in the World.

Inflation, consumer prices (annual %) during 1980-2016 highlights an average of 2.53 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 43% in the World.

2.56 Dominica

The study of indicator: GDP (constant 2010 US\$) during 1977-2016 highlights an average of 358497602.03. Also for GDP (constant 2010 US\$) the region ranks on the first 97% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $8764466.741 * \text{Year} - 17139760247.133$. From this equation we can note that, every year, the indicator grow with 8764466.741. The analysis of indicator: GDP growth (annual %) during 1978-2016 highlights an average of 2.75 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 53% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 5000.75. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 47% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $124.862 * \text{Year} - 244285.370$. From this equation we can note that, every year, the indicator grow with 124.862. The indicator: GDP per capita growth (annual %) during 1978-2016 reveals an average of 2.75 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 43% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1977-2016 reveals an average of 62.11 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 26% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1977-2016 highlights an average of 42.76 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 24% in the World.

The indicator: Expense (% of GDP) during 2000-2014 reveals an average of 24.02 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 59% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2000-2014 reveals an average of 25.17 bigger than the World

average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 45% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1977-2016 highlights an average of 61.38 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 28% in the World.

Inflation, consumer prices (annual %) during 1967-2016 highlights an average of 4.38 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 79% in the World.

2.57 Denmark

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 227846311103.77. Also for GDP (constant 2010 US\$) the region ranks on the first 33% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $4575435168.068 * \text{Year} - 8868118803015.250$. From this equation we can note that, every year, the indicator grow with 4575435168.068. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.34 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 66% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 43406.29. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 3% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $749.411 * \text{Year} - 1446422.359$. From this equation we can note that, every year, the indicator grow with 749.411. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.93 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 57% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 47168.28. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 1% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $767.939 * \text{Year} - 1483333.452$. From this equation we can note that, every year, the indicator grow with 767.939. Gross capital formation (% of GDP) during 1966-2016 highlights an average of 21.97 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 67% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 35.44 bigger than the World average: 20.32. Also for

Imports of goods and services (% of GDP) the region ranks on the first 36% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 37.62 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 17% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 36.93 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 14% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 36.86 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 10% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1970-2016 highlights an average of 70.67 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 10% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 4.69 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 79% in the World.

2.58 Dominican Republic

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 24719668207.89. Also for GDP (constant 2010 US\$) the region ranks on the first 48% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 5.37 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 10% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3115.15. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 46% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $86.180 * \text{Year} - 168211.340$. From this equation we can note that, every year, the indicator grows with 86.180. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 3.18 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 9% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 2991.84. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 47% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 20.48 smaller than the World average:

25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 53% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 32.53 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 74% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 26.44 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 66% in the World.

The indicator: Expense (% of GDP) during 1972-2016 reveals an average of 11.47 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 70% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2016 reveals an average of 14.08 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 84% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 58.95 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 27% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 10.98 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 56% in the World.

2.59 Algeria

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 90731928357.63. Also for GDP (constant 2010 US\$) the region ranks on the first 40% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $2886866348.635 * \text{Year} - 5648358372728.280$. From this equation we can note that, every year, the indicator grows with 2886866348.635. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.83 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 43% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3450.70. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 54% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.46 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 52% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 3367.10. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 55% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 34.61 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 2% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 29.31 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 59% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 29.68 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 81% in the World.

The indicator: Expense (% of GDP) during 1994-2011 reveals an average of 22.98 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 32% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1994-2011 reveals an average of 36.20 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 9% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 39.23 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 85% in the World.

Inflation, consumer prices (annual %) during 1970-2016 highlights an average of 9.04 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 16% in the World.

2.60 East Asia & Pacific (excluding high income)

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 2817756528093.43. Also for GDP (constant 2010 US\$) the region ranks on the first 7% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 7.15 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 12% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1549.21. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 51% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 5.57 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 6% in the World.

Gross capital formation (% of GDP) during 1960-2014 highlights an average of 33.82 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 5% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 17.10 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 88% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 18.57 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 68% in the World.

The analysis of: Revenue, excluding grants (% of GDP) during 2005-2014 reveals an average of 11.82 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 89% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 34.52 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 80% in the World.

Inflation, consumer prices (annual %) during 1987-2016 highlights an average of 5.35 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 49% in the World.

2.61 Early-demographic dividend

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 4439665562032.35. Also for GDP (constant 2010 US\$) the region ranks on the first 8% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.91. The equation of linear regression is therefore: $155629967976.364 * \text{Year} - 304952710774979.000$. From this equation we can note that, every year, the indicator grows with 155629967976.364. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.25 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 25% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2050.93. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 64% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.08 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 27% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1978-2016 highlights an average of 2301.61. Also for GNI per capita (constant 2010 US\$) the

region ranks on the first 64% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 24.10 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 29% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 20.45 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 82% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $0.320 * \text{Year} - 615.146$. From this equation we can note that, every year, the indicator grow with 0.320. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 20.23 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 71% in the World.

The indicator: Expense (% of GDP) during 1990-2013 reveals an average of 12.54 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 67% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1975-2013 reveals an average of 12.84 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 68% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 48.45 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 58% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $0.304 * \text{Year} - 556.164$. From this equation we can note that, every year, the indicator grow with 0.304.

Inflation, consumer prices (annual %) during 1965-2016 highlights an average of 7.93 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 32% in the World.

2.62 East Asia & Pacific

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 8277825576999.14. Also for GDP (constant 2010 US\$) the region ranks on the first 4% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $336903990907.143 * \text{Year} - 661487308346400.000$. From this equation we can note that, every year, the indicator grow with 336903990907.143. The analysis of indicator: GDP growth (annual %) during

1961-2015 highlights an average of 5.15 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 30% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 4309.07. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 37% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $133.111 * \text{Year} - 260314.605$. From this equation we can note that, every year, the indicator grow with 133.111. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 3.67 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 21% in the World.

Gross capital formation (% of GDP) during 1970-2016 highlights an average of 32.38 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 14% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 20.38 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 83% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $0.371 * \text{Year} - 717.795$. From this equation we can note that, every year, the indicator grow with 0.371. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 21.47 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 58% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $0.454 * \text{Year} - 880.307$. From this equation we can note that, every year, the indicator grow with 0.454.

The analysis of: Revenue, excluding grants (% of GDP) during 2005-2014 reveals an average of 12.74 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 88% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1994-2015 highlights an average of 56.29 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 49% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $0.442 * \text{Year} - 830.608$. From this equation we can note that, every year, the indicator grow with 0.442.

Inflation, consumer prices (annual %) during 1987-2016 highlights an average of 4.20 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 54% in the World.

2.63 Europe & Central Asia (excluding high income)

The study of indicator: GDP (constant 2010 US\$) during 1989-2016 highlights an average of 2592264931542.05. Also for GDP (constant 2010 US\$) the region ranks on the first 12% in the World. The analysis of indicator: GDP growth (annual %) during 1990-2016 highlights an average of 1.64 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 75% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6465.94. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 38% in the World. The indicator: GDP per capita growth (annual %) during 1990-2016 reveals an average of 1.37 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 66% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2016 highlights an average of 6337.32. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 40% in the World. Gross capital formation (% of GDP) during 1989-2016 highlights an average of 24.52 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 43% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1989-2016 reveals an average of 28.91 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 74% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1989-2016 highlights an average of 30.90 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 53% in the World.

The indicator: Expense (% of GDP) during 1994-2015 reveals an average of 20.47 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 43% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1994-2015 reveals an average of 21.54 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 46% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1989-2016 highlights an average of 54.43 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 41% in the World.

Inflation, consumer prices (annual %) during 1994-2016 highlights an average of 22.00 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 61% in the World.

2.64 Europe & Central Asia

The study of indicator: GDP (constant 2010 US\$) during 1970-2016 highlights an average of 15464608522458.20. Also for GDP (constant 2010 US\$) the region ranks on the first 4% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $313791655091.431 * \text{Year} - 609922160074763.000$. From this equation we can note that, every year, the indicator grow with 313791655091.431. The analysis of indicator: GDP growth (annual %) during 1971-2016 highlights an average of 2.21 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 70% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 18243.31. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 19% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $301.533 * \text{Year} - 582711.498$. From this equation we can note that, every year, the indicator grow with 301.533. The indicator: GDP per capita growth (annual %) during 1971-2016 reveals an average of 1.74 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 55% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1971-2016 highlights an average of 18362.91. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 23% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $299.232 * \text{Year} - 578156.604$. From this equation we can note that, every year, the indicator grow with 299.232. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 23.28 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 69% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 27.75 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 54% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.91. The equation of linear regression is therefore: $0.358 * \text{Year} - 684.276$. From this equation we can note that, every year, the indicator grow with 0.358. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 28.14 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region

ranks on the first 34% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $0.434 * \text{Year} - 833.852$. From this equation we can note that, every year, the indicator grow with 0.434.

The indicator: Expense (% of GDP) during 1973-2015 reveals an average of 30.09 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 27% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1973-2015 reveals an average of 29.03 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 25% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1991-2016 highlights an average of 68.74 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 17% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.95. The equation of linear regression is therefore: $0.357 * \text{Year} - 645.737$. From this equation we can note that, every year, the indicator grow with 0.357.

Inflation, consumer prices (annual %) during 1993-2016 highlights an average of 3.78 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 76% in the World.

2.65 Ecuador

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 39243832604.64. Also for GDP (constant 2010 US\$) the region ranks on the first 46% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $1294838032.362 * \text{Year} - 2534894175731.580$. From this equation we can note that, every year, the indicator grow with 1294838032.362. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.91 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 94% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3637.62. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 54% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.55 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 95% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 3513.24. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 53% in the World. Gross capital formation (% of GDP)

during 1960-2014 highlights an average of 22.15 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 39% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 21.60 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 96% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 19.93 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 83% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 52.03 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 68% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 19.19 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 51% in the World.

2.66 Egypt, Arab Rep.

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 98704754646.34. Also for GDP (constant 2010 US\$) the region ranks on the first 37% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $4211438322.670 * \text{Year} - 8273634630821.030$. From this equation we can note that, every year, the indicator grow with 4211438322.670. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 5.03 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 27% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1520.21. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 70% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $39.170 * \text{Year} - 76349.090$. From this equation we can note that, every year, the indicator grow with 39.170. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.68 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 42% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1965-2016 highlights an average of 1573.87. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 68% in the World. Time regression analysis reveals a

correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $41.530 * \text{Year} - 81092.354$. From this equation we can note that, every year, the indicator grow with 41.530. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 21.14 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 95% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1965-2016 reveals an average of 28.72 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 96% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1965-2016 highlights an average of 20.63 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 97% in the World.

The indicator: Expense (% of GDP) during 1975-2013 reveals an average of 29.13 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 32% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1975-2015 reveals an average of 27.02 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 70% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 48.30 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 68% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 9.35 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 6% in the World.

2.67 Euro area

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 8463604298089.69. Also for GDP (constant 2010 US\$) the region ranks on the first 7% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $195102092488.734 * \text{Year} - 379399355569514.000$. From this equation we can note that, every year, the indicator grow with 195102092488.734. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.81 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 70% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 26859.93. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 12% in the World. Time regression analysis reveals a correlation

coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $530.477 \cdot \text{Year} - 1027727.546$. From this equation we can note that, every year, the indicator grow with 530.477. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.35 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 53% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 29776.27. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 14% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $498.510 \cdot \text{Year} - 963754.850$. From this equation we can note that, every year, the indicator grow with 498.510. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 23.37 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 72% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 27.70 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 48% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $0.398 \cdot \text{Year} - 764.330$. From this equation we can note that, every year, the indicator grow with 0.398. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 27.99 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 28% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $0.474 \cdot \text{Year} - 915.182$. From this equation we can note that, every year, the indicator grow with 0.474.

The indicator: Expense (% of GDP) during 1973-2015 reveals an average of 31.54 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 23% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1973-2015 reveals an average of 28.85 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 22% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1991-2016 highlights an average of 70.77 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 14% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore:

0.310*Year-549.656. From this equation we can note that, every year, the indicator grow with 0.310.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 4.45 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 81% in the World.

2.68 Eritrea

The study of indicator: GDP (constant 2010 US\$) during 1992-2011 highlights an average of 1957908120.42. Also for GDP (constant 2010 US\$) the region ranks on the first 87% in the World. The analysis of indicator: GDP growth (annual %) during 1993-2011 highlights an average of 3.78 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 7% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 538.92. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 96% in the World. The indicator: GDP per capita growth (annual %) during 1993-2011 reveals an average of 1.88 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 10% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1992-2011 highlights an average of 536.80. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 95% in the World. Gross capital formation (% of GDP) during 1992-2011 highlights an average of 21.54 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 98% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1992-2011 reveals an average of 57.60 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 92% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1992-2011 highlights an average of 13.35 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 96% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1992-2009 highlights an average of 59.88 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 43% in the World.

2.69 Spain

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 856799700504.67. Also for GDP (constant 2010 US\$) the region ranks

on the first 20% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $23209878119.891 * \text{Year} - 45284438001838.800$. From this equation we can note that, every year, the indicator grow with 23209878119.891. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.45 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 43% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 21190.67. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 16% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $444.286 * \text{Year} - 862049.747$. From this equation we can note that, every year, the indicator grow with 444.286. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.67 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 25% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 23285.11. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 20% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $421.345 * \text{Year} - 816455.512$. From this equation we can note that, every year, the indicator grow with 421.345. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 24.78 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 71% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 20.72 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 71% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $0.404 * \text{Year} - 783.090$. From this equation we can note that, every year, the indicator grow with 0.404. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 18.98 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 46% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $0.432 * \text{Year} - 840.342$. From this equation we can note that, every year, the indicator grow with 0.432.

The indicator: Expense (% of GDP) during 1995-2015 reveals an average of 19.14 smaller than the World average: 25.25. Also for Expense (% of GDP) the region

ranks on the first 74% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1995-2015 reveals an average of 16.86 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 87% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 68.49 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 14% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 6.73 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 86% in the World.

2.70 Estonia

The study of indicator: GDP (constant 2010 US\$) during 1995-2016 highlights an average of 18251693600.31. Also for GDP (constant 2010 US\$) the region ranks on the first 62% in the World. The analysis of indicator: GDP growth (annual %) during 1996-2016 highlights an average of 4.15 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 63% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 13523.57. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 22% in the World. The indicator: GDP per capita growth (annual %) during 1996-2016 reveals an average of 4.59 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 44% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2000-2015 highlights an average of 14186.08. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 27% in the World. Gross capital formation (% of GDP) during 1995-2016 highlights an average of 29.88 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 46% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1995-2016 reveals an average of 73.08 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 9% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1995-2016 highlights an average of 69.92 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 7% in the World.

The indicator: Expense (% of GDP) during 1995-2015 reveals an average of 2.15 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 100% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1995-2015 reveals an average of 2.23 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 100% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 67.12 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 20% in the World.

Inflation, consumer prices (annual %) during 1993-2016 highlights an average of 11.20 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 82% in the World.

2.71 Ethiopia

The study of indicator: GDP (constant 2010 US\$) during 1981-2016 highlights an average of 18111839907.74. Also for GDP (constant 2010 US\$) the region ranks on the first 52% in the World. The analysis of indicator: GDP growth (annual %) during 1982-2016 highlights an average of 5.65 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 4% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 254.72. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 97% in the World. The indicator: GDP per capita growth (annual %) during 1982-2016 reveals an average of 2.56 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 11% in the World.

Gross capital formation (% of GDP) during 2011-2016 highlights an average of 36.97 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 6% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2011-2016 reveals an average of 29.89 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 78% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2011-2016 highlights an average of 11.99 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 99% in the World. Time regression analysis reveals a correlation coefficient value: -0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $-1.641 \cdot \text{Year} + 3316.928$. From this equation we can note that, every year, the indicator decreases with 1.641.

The indicator: Expense (% of GDP) during 1990-2011 reveals an average of 12.59 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 97% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2011 reveals an average of 10.76 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 96% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1981-2016 highlights an average of 38.43 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 95% in the World.

Inflation, consumer prices (annual %) during 1966-2016 highlights an average of 8.51 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 12% in the World.

2.72 European Union

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 11294081710043.20. Also for GDP (constant 2010 US\$) the region ranks on the first 6% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $260377092185.156 * \text{Year} - 506335577554047.000$. From this equation we can note that, every year, the indicator grow with 260377092185.156. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.72 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 68% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 23555.85. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 14% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $476.187 * \text{Year} - 923103.063$. From this equation we can note that, every year, the indicator grow with 476.187. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.31 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 52% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 26012.65. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 17% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $466.267 * \text{Year} - 903257.870$. From this equation we can note that, every year, the indicator grow with 466.267. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 22.98 smaller than the

World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 74% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 27.88 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 50% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 28.02 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 29% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $0.438 * \text{Year} - 842.818$. From this equation we can note that, every year, the indicator grow with 0.438.

The indicator: Expense (% of GDP) during 1973-2015 reveals an average of 35.54 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 24% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1973-2015 reveals an average of 33.01 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 23% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1991-2016 highlights an average of 70.89 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 13% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $0.313 * \text{Year} - 556.852$. From this equation we can note that, every year, the indicator grow with 0.313.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 4.71 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 80% in the World.

2.73 Fragile and conflict affected situations

The study of indicator: GDP (constant 2010 US\$) during 1988-2016 highlights an average of 457318530045.83. Also for GDP (constant 2010 US\$) the region ranks on the first 25% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $18859877797.776 * \text{Year} - 37300156821101.300$. From this equation we can note that, every year, the indicator grow with 18859877797.776. The analysis of indicator: GDP growth (annual %) during 1989-2016 highlights an average of 4.02 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 18% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1212.74. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 81% in the World. The indicator: GDP per capita growth (annual %) during 1989-2016 reveals an average of 1.41 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 29% in the World.

Gross capital formation (% of GDP) during 2000-2015 highlights an average of 20.49 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 55% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 reveals an average of 33.54 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 57% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 30.32 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 73% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1994-2016 highlights an average of 40.77 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 74% in the World.

Inflation, consumer prices (annual %) during 1986-2016 highlights an average of 7.89 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 28% in the World.

2.74 Finland

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 155305525023.12. Also for GDP (constant 2010 US\$) the region ranks on the first 37% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $3947070111.472 * \text{Year} - 7691469856583.570$. From this equation we can note that, every year, the indicator grow with 3947070111.472. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.83 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 69% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 30648.81. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 9% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $681.936 * \text{Year} - 1325039.208$. From this equation we can note that, every year, the indicator grow with 681.936. The indicator: GDP per

capita growth (annual %) during 1961-2015 reveals an average of 2.44 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 51% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 33794.94. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 10% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $698.514 * \text{Year} - 1358344.057$. From this equation we can note that, every year, the indicator grow with 698.514. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 25.66 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 59% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 28.63 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 58% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 30.05 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 41% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 32.65 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 14% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 32.81 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 18% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1975-2016 highlights an average of 61.22 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 21% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 4.86 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 77% in the World.

2.75 Fiji

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 2100613505.53. Also for GDP (constant 2010 US\$) the region ranks on the first 85% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $51975182.291 * \text{Year} - 101226048888.501$. From this equation we can note that, every year, the indicator grow with 51975182.291. The

analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.15 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 88% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2910.25. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 58% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $39.652 * \text{Year} - 75917.739$. From this equation we can note that, every year, the indicator grow with 39.652. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.64 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 81% in the World.

Gross capital formation (% of GDP) during 1960-2014 highlights an average of 19.91 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 75% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 55.64 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 31% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 50.46 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 64% in the World.

The indicator: Expense (% of GDP) during 1990-2013 reveals an average of 14.64 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 55% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2013 reveals an average of 14.63 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 42% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1963-2016 highlights an average of 57.53 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 24% in the World.

Inflation, consumer prices (annual %) during 1970-2016 highlights an average of 5.95 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 29% in the World.

2.76 France

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 1780533701548.34. Also for GDP (constant 2010 US\$) the region ranks

on the first 14% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $40859963514.147 * \text{Year} - 79449073764575.100$. From this equation we can note that, every year, the indicator grow with 40859963514.147. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.79 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 82% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 30049.36. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 11% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $544.956 * \text{Year} - 1053323.056$. From this equation we can note that, every year, the indicator grow with 544.956. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.14 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 70% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1971-2016 highlights an average of 33713.47. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 11% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $512.773 * \text{Year} - 988498.874$. From this equation we can note that, every year, the indicator grow with 512.773. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 23.11 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 54% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 21.55 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 67% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 21.50 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 56% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $0.295 * \text{Year} - 564.526$. From this equation we can note that, every year, the indicator grow with 0.295.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 41.92 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 5% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 39.79 bigger than the World

average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 5% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 69.70 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 6% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $0.454 * \text{Year} - 834.932$. From this equation we can note that, every year, the indicator grow with 0.454.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 4.30 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 81% in the World.

2.77 Faroe Islands

Gross capital formation (% of GDP) during 1998-2013 highlights an average of 23.55 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 44% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1998-2013 reveals an average of 52.66 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 30% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1998-2013 highlights an average of 45.66 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 26% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1998-2013 highlights an average of 63.97 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 33% in the World.

2.78 Micronesia, Fed. Sts.

The study of indicator: GDP (constant 2010 US\$) during 1986-2016 highlights an average of 275208543.28. Also for GDP (constant 2010 US\$) the region ranks on the first 98% in the World. The analysis of indicator: GDP growth (annual %) during 1987-2016 highlights an average of 1.31 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 90% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2659.89. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 69% in the World. The indicator: GDP per capita growth (annual %) during 1987-2016 reveals an average of 0.70 smaller than the World average: 1.88.

Also for GDP per capita growth (annual %) the region ranks on the first 83% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1983-2016 reveals an average of 32.59 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 10% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1983-2016 highlights an average of 9.04 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 63% in the World.

The indicator: Expense (% of GDP) during 2008-2016 reveals an average of 18.27 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 50% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2008-2016 reveals an average of 18.57 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 26% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2015 highlights an average of 66.56 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 36% in the World.

2.79 Gabon

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 10082462627.18. Also for GDP (constant 2010 US\$) the region ranks on the first 65% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.35 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 59% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 9926.25. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 36% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.83 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 79% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 10179.14. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 38% in the World. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 32.26 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 13% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 38.46 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 80% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 52.84 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 35% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2001-2016 highlights an average of 36.25 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 88% in the World.

Inflation, consumer prices (annual %) during 1963-2016 highlights an average of 4.97 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 48% in the World.

2.80 United Kingdom

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 1624489518309.15. Also for GDP (constant 2010 US\$) the region ranks on the first 14% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $37292795164.869 * \text{Year} - 72513587269451.000$. From this equation we can note that, every year, the indicator grow with 37292795164.869. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.43 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 71% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 27596.78. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 11% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $551.507 * \text{Year} - 1068799.558$. From this equation we can note that, every year, the indicator grow with 551.507. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.02 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 62% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 30146.62. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 13% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $575.163 * \text{Year} - 1116153.930$. From this equation we can note that, every year, the indicator grow with 575.163. Gross capital formation

(% of GDP) during 1965-2016 highlights an average of 20.20 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 90% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 25.19 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 70% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 24.22 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 59% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 35.74 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 20% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 33.31 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 23% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1990-2016 highlights an average of 75.57 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 5% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.93. The equation of linear regression is therefore: $0.421 * \text{Year} - 767.108$. From this equation we can note that, every year, the indicator grows with 0.421.

Inflation, consumer prices (annual %) during 1989-2016 highlights an average of 2.57 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 70% in the World.

2.81 Georgia

The study of indicator: GDP (constant 2010 US\$) during 1965-2016 highlights an average of 12017617569.80. Also for GDP (constant 2010 US\$) the region ranks on the first 68% in the World. The analysis of indicator: GDP growth (annual %) during 1966-2016 highlights an average of 2.18 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 51% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2780.14. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 59% in the World. The indicator: GDP per capita growth (annual %) during 1966-2016 reveals an average of 2.32 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 33% in the World.

Gross capital formation (% of GDP) during 1980-2016 highlights an average of 25.97 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 11% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1987-2016 reveals an average of 51.42 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 21% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1987-2016 highlights an average of 33.52 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 29% in the World.

The indicator: Expense (% of GDP) during 1997-2016 reveals an average of 20.06 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 36% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1997-2016 reveals an average of 19.03 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 36% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1980-2016 highlights an average of 48.81 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 31% in the World.

Inflation, consumer prices (annual %) during 1995-2016 highlights an average of 14.30 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 47% in the World.

2.82 Ghana

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 16578795964.90. Also for GDP (constant 2010 US\$) the region ranks on the first 54% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.60 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 40% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1036.00. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 76% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 0.96 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 55% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2006-2015 highlights an average of 1371.04. Also for GNI per capita (constant 2010 US\$) the

region ranks on the first 75% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $63.046 * \text{Year} - 125382.914$. From this equation we can note that, every year, the indicator grow with 63.046. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 16.92 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 55% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 31.97 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 36% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 23.81 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 36% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 33.76 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 78% in the World.

Inflation, consumer prices (annual %) during 1965-2016 highlights an average of 28.24 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 4% in the World.

2.83 Gibraltar

2.84 Guinea

The study of indicator: GDP (constant 2010 US\$) during 1986-2016 highlights an average of 5414368785.04. Also for GDP (constant 2010 US\$) the region ranks on the first 77% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $192974867.406 * \text{Year} - 380728340894.851$. From this equation we can note that, every year, the indicator grow with 192974867.406. The analysis of indicator: GDP growth (annual %) during 1987-2016 highlights an average of 3.92 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 11% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 600.05. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 92% in the World. The indicator: GDP per capita growth (annual %) during 1987-2016 reveals an average of 0.98 smaller than the World average: 1.88.

Also for GDP per capita growth (annual %) the region ranks on the first 15% in the World.

Gross capital formation (% of GDP) during 1986-2005 highlights an average of 19.59 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 74% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1986-2005 reveals an average of 28.12 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 59% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1986-2005 highlights an average of 26.20 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 52% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1986-2016 highlights an average of 46.84 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 86% in the World.

Inflation, consumer prices (annual %) during 2005-2016 highlights an average of 16.83 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 10% in the World.

2.85 Gambia, The

The study of indicator: GDP (constant 2010 US\$) during 1966-2016 highlights an average of 529690291.98. Also for GDP (constant 2010 US\$) the region ranks on the first 92% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $17748949.175 * \text{Year} - 34808467516.377$. From this equation we can note that, every year, the indicator grows with 17748949.175. The analysis of indicator: GDP growth (annual %) during 1968-2016 highlights an average of 3.88 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 60% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 511.71. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 97% in the World. The indicator: GDP per capita growth (annual %) during 1967-2016 reveals an average of 0.52 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 86% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2004-2016 highlights an average of 516.38. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 94% in the World. Gross capital formation (% of GDP)

during 1966-2016 highlights an average of 15.02 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 84% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1966-2016 reveals an average of 45.66 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 46% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1966-2016 highlights an average of 34.60 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 72% in the World.

The indicator: Expense (% of GDP) during 1990-2009 reveals an average of 6.86 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 80% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2009 reveals an average of 7.28 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 77% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2004-2016 highlights an average of 62.50 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 24% in the World.

Inflation, consumer prices (annual %) during 1962-2016 highlights an average of 8.10 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 13% in the World.

2.86 Guinea-Bissau

The study of indicator: GDP (constant 2010 US\$) during 1970-2016 highlights an average of 630075702.88. Also for GDP (constant 2010 US\$) the region ranks on the first 93% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $13468638.020 * \text{Year} - 26212919871.484$. From this equation we can note that, every year, the indicator grows with 13468638.020. The analysis of indicator: GDP growth (annual %) during 1971-2016 highlights an average of 2.71 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 16% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 553.92. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 96% in the World. The indicator: GDP per capita growth (annual %) during 1971-2016 reveals an average of 0.63 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 26% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2007-2016 highlights an average of 550.53. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 94% in the World. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 18.93 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 100% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1970-2016 reveals an average of 35.25 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 81% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1970-2016 highlights an average of 13.63 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 65% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1970-2016 highlights an average of 35.51 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 99% in the World.

Inflation, consumer prices (annual %) during 1988-2016 highlights an average of 19.29 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 53% in the World.

2.87 Equatorial Guinea

The study of indicator: GDP (constant 2010 US\$) during 1980-2016 highlights an average of 6499522334.04. Also for GDP (constant 2010 US\$) the region ranks on the first 68% in the World. The analysis of indicator: GDP growth (annual %) during 1981-2016 highlights an average of 15.82 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 100% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 7419.41. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 29% in the World. The indicator: GDP per capita growth (annual %) during 1981-2016 reveals an average of 10.95 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 100% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1980-2016 highlights an average of 5253.64. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 37% in the World. Gross capital formation (% of GDP) during 1962-2016 highlights an average of 61.58 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 98% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1962-2016 reveals an average of 123.21 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 45% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1962-2016 highlights an average of 63.22 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 18% in the World.

The indicator: Expense (% of GDP) during 2007-2009 reveals an average of 4.05 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 100% in the World. Time regression analysis reveals a correlation coefficient $r = 0.98$. The analysis of: Revenue, excluding grants (% of GDP) during 2007-2009 reveals an average of 34.91 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 21% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2006-2016 highlights an average of 25.27 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 88% in the World.

Inflation, consumer prices (annual %) during 1986-2016 highlights an average of 4.11 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 58% in the World.

2.88 Greece

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 194628140001.57. Also for GDP (constant 2010 US\$) the region ranks on the first 38% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.75 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 91% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 19055.54. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 19% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.27 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 75% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2015 highlights an average of 21231.35. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 23% in the World. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 25.90 bigger than the World average:

25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 99% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 24.53 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 68% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 16.77 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 50% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 33.71 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 3% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 28.94 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 3% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 75.89 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 4% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 8.51 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 94% in the World.

2.89 Grenada

The study of indicator: GDP (constant 2010 US\$) during 1977-2016 highlights an average of 563249982.30. Also for GDP (constant 2010 US\$) the region ranks on the first 94% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $17128211.148 * \text{Year} - 33633223575.598$. From this equation we can note that, every year, the indicator grow with 17128211.148. The analysis of indicator: GDP growth (annual %) during 1978-2016 highlights an average of 3.35 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 38% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 5565.18. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 40% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.95. The equation of linear regression is therefore: $149.714 * \text{Year} - 293339.312$. From this equation we can note that, every year, the indicator grow with 149.714. The indicator: GDP per capita growth (annual %) during 1978-2016 reveals an average of 2.90 bigger than the

World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 24% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1977-2016 reveals an average of 53.17 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 29% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1977-2016 highlights an average of 34.76 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 15% in the World.

The indicator: Expense (% of GDP) during 1991-2014 reveals an average of 16.24 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 75% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1999-2014 reveals an average of 20.08 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 70% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1977-2016 highlights an average of 73.25 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 7% in the World.

Inflation, consumer prices (annual %) during 1977-2016 highlights an average of 4.75 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 52% in the World.

2.90 Greenland

The study of indicator: GDP (constant 2010 US\$) during 1970-2015 highlights an average of 1597329903.51. Also for GDP (constant 2010 US\$) the region ranks on the first 87% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.93. The equation of linear regression is therefore: $32867625.477 * \text{Year} - 63891413858.548$. From this equation we can note that, every year, the indicator grows with 32867625.477. The analysis of indicator: GDP growth (annual %) during 1971-2015 highlights an average of 2.72 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 74% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 29311.28. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 12% in the World. The indicator: GDP per capita growth (annual %) during 1971-2015 reveals an average of 2.28 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 43% in the World.

Gross capital formation (% of GDP) during 2003-2015 highlights an average of 32.49 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 38% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2003-2015 reveals an average of 65.51 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 34% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2003-2015 highlights an average of 33.31 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 49% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2003-2015 highlights an average of 70.48 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 29% in the World.

2.91 Guatemala

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 22953581401.81. Also for GDP (constant 2010 US\$) the region ranks on the first 52% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $738021563.853 * \text{Year} - 1444233287538.560$. From this equation we can note that, every year, the indicator grows with 738021563.853. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.89 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 47% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2293.35. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 67% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.38 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 64% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 2254.44. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 66% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 15.10 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 97% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 25.75 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 79% in the

World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 19.64 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 84% in the World.

The indicator: Expense (% of GDP) during 1990-2013 reveals an average of 11.02 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 93% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2013 reveals an average of 10.57 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 95% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2001-2016 highlights an average of 58.32 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 42% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $0.358 * \text{Year} - 661.072$. From this equation we can note that, every year, the indicator grows with 0.358.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 8.07 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 25% in the World.

2.92 Guam

The study of indicator: GDP (constant 2010 US\$) during 2002-2016 highlights an average of 4845792597.15. Also for GDP (constant 2010 US\$) the region ranks on the first 83% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $56364778.149 * \text{Year} - 108391046703.203$. From this equation we can note that, every year, the indicator grows with 56364778.149. The analysis of indicator: GDP growth (annual %) during 2003-2016 highlights an average of 1.31 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 88% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 30372.60. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 16% in the World. The indicator: GDP per capita growth (annual %) during 2003-2016 reveals an average of 1.06 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 80% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2002-2016 reveals an average of 53.46 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 32% in the

World. The analysis of indicator: Exports of goods and services (% of GDP) during 2002-2016 highlights an average of 20.08 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 86% in the World.

2.93 Guyana

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 1599715364.99. Also for GDP (constant 2010 US\$) the region ranks on the first 87% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.13 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 42% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2163.95. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 63% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.58 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 34% in the World.

Gross capital formation (% of GDP) during 1960-2014 highlights an average of 26.83 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 22% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 80.62 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 22% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 68.56 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 23% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 42.57 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 76% in the World.

Inflation, consumer prices (annual %) during 1995-2016 highlights an average of 4.93 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 68% in the World.

2.94 High income

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 28397405922816.10. Also for GDP (constant 2010 US\$) the region ranks on the first 1% in the World. Time regression analysis reveals a correlation

coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $759987400458.143 \cdot \text{Year} - 1482457546187970.000$. From this equation we can note that, every year, the indicator grow with 759987400458.143. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.15 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 73% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 27747.70. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 10% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $563.486 \cdot \text{Year} - 1092463.105$. From this equation we can note that, every year, the indicator grow with 563.486. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.32 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 61% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 30680.25. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 12% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $557.478 \cdot \text{Year} - 1080372.960$. From this equation we can note that, every year, the indicator grow with 557.478. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 23.99 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 64% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 21.24 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 72% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $0.321 \cdot \text{Year} - 616.574$. From this equation we can note that, every year, the indicator grow with 0.321. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 21.35 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 51% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $0.338 \cdot \text{Year} - 651.242$. From this equation we can note that, every year, the indicator grow with 0.338.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 26.09 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 47% in the World. The analysis of: Revenue, excluding grants (%

of GDP) during 1972-2015 reveals an average of 23.57 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 51% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1997-2015 highlights an average of 72.09 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 14% in the World.

Inflation, consumer prices (annual %) during 1980-2016 highlights an average of 3.66 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 73% in the World.

2.95 Hong Kong SAR, China

The study of indicator: GDP (constant 2010 US\$) during 1961-2015 highlights an average of 109360703775.53. Also for GDP (constant 2010 US\$) the region ranks on the first 36% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $4856475585.632 * \text{Year} - 9547740998252.950$. From this equation we can note that, every year, the indicator grow with 4856475585.632. The analysis of indicator: GDP growth (annual %) during 1962-2016 highlights an average of 6.14 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 64% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 17476.16. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 13% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $631.524 * \text{Year} - 1238309.638$. From this equation we can note that, every year, the indicator grow with 631.524. The indicator: GDP per capita growth (annual %) during 1962-2016 reveals an average of 4.52 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 54% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1973-2016 highlights an average of 21068.25. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 17% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $733.932 * \text{Year} - 1442758.540$. From this equation we can note that, every year, the indicator grow with 733.932. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 26.01 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 60% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1961-2015 reveals an average of 118.64 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 1% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1961-2015 highlights an average of 122.64 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 1% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2000-2016 highlights an average of 91.49 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 0% in the World.

Inflation, consumer prices (annual %) during 1982-2016 highlights an average of 4.38 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 45% in the World.

2.96 Honduras

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 8473795678.49. Also for GDP (constant 2010 US\$) the region ranks on the first 65% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $289203073.243 * \text{Year} - 566461913928.913$. From this equation we can note that, every year, the indicator grows with 289203073.243. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.98 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 39% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1578.72. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 72% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.24 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 45% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 1503.73. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 73% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 22.86 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 50% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 45.65 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 22% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 37.23 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 30% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 7.88 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 68% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 9.47 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 62% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 50.92 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 53% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 8.29 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 44% in the World.

2.97 Heavily indebted poor countries (HIPC)

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 255184087972.59. Also for GDP (constant 2010 US\$) the region ranks on the first 26% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.39 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 25% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 662.13. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 90% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 0.62 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 51% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2002-2016 highlights an average of 696.38. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 88% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $16.465 * \text{Year} - 32381.214$. From this equation we can note that, every year, the indicator grows with 16.465. Gross capital formation (% of

GDP) during 1960-2014 highlights an average of 14.32 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 37% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 29.46 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 60% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 22.43 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 70% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1980-2016 highlights an average of 44.86 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 83% in the World.

Inflation, consumer prices (annual %) during 1973-2016 highlights an average of 9.51 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 23% in the World.

2.98 Croatia

The study of indicator: GDP (constant 2010 US\$) during 1995-2016 highlights an average of 54250302301.66. Also for GDP (constant 2010 US\$) the region ranks on the first 49% in the World. The analysis of indicator: GDP growth (annual %) during 1996-2016 highlights an average of 2.09 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 50% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 12343.06. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 27% in the World. The indicator: GDP per capita growth (annual %) during 1996-2016 reveals an average of 2.64 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 18% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1995-2016 highlights an average of 12096.59. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 28% in the World. Gross capital formation (% of GDP) during 1995-2016 highlights an average of 23.25 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 75% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1995-2016 reveals an average of 42.37 bigger than the World average: 20.32. Also for

Imports of goods and services (% of GDP) the region ranks on the first 38% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1995-2016 highlights an average of 38.15 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 20% in the World.

The indicator: Expense (% of GDP) during 1995-2014 reveals an average of 36.10 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 19% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1995-2014 reveals an average of 34.96 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 20% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 65.99 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 21% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $0.402 * \text{Year} - 740.372$. From this equation we can note that, every year, the indicator grows with 0.402.

Inflation, consumer prices (annual %) during 1986-2016 highlights an average of 151.14 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 96% in the World.

2.99 Haiti

The study of indicator: GDP (constant 2010 US\$) during 1996-2016 highlights an average of 6785287962.35. Also for GDP (constant 2010 US\$) the region ranks on the first 79% in the World. The analysis of indicator: GDP growth (annual %) during 1997-2016 highlights an average of 1.40 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 78% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 722.41. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 93% in the World. The indicator: GDP per capita growth (annual %) during 1997-2016 reveals an average of -0.16 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 76% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1996-2016 highlights an average of 722.75. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 89% in the World. Gross capital formation (% of GDP) during 1991-2016 highlights an average of 26.51 bigger than the World average:

25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 20% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1991-2016 reveals an average of 40.50 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 32% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1991-2016 highlights an average of 13.58 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 82% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 10.53 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 6% in the World.

2.100 Hungary

The study of indicator: GDP (constant 2010 US\$) during 1991-2016 highlights an average of 117756633950.29. Also for GDP (constant 2010 US\$) the region ranks on the first 43% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $2499378339.990 * \text{Year} - 4889747870219.450$. From this equation we can note that, every year, the indicator grow with 2499378339.990. The analysis of indicator: GDP growth (annual %) during 1992-2016 highlights an average of 1.94 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 60% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 11664.94. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 25% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $273.080 * \text{Year} - 535451.544$. From this equation we can note that, every year, the indicator grow with 273.080. The indicator: GDP per capita growth (annual %) during 1992-2016 reveals an average of 2.17 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 39% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1993-2015 highlights an average of 11174.19. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 30% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $266.055 * \text{Year} - 521999.118$. From this equation we can note that, every year, the indicator grow with 266.055. Gross capital formation (% of GDP) during 1991-2016 highlights an average of 23.47 smaller than the

World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 76% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1991-2016 reveals an average of 61.63 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 8% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1991-2016 highlights an average of 62.44 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 4% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $2.725 * \text{Year} - 5397.705$. From this equation we can note that, every year, the indicator grow with 2.725.

The indicator: Expense (% of GDP) during 1991-2015 reveals an average of 45.25 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 7% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1991-2015 reveals an average of 39.48 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 9% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 64.04 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 34% in the World.

Inflation, consumer prices (annual %) during 1973-2016 highlights an average of 9.56 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 76% in the World.

2.101 IBRD only

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 9507046171869.10. Also for GDP (constant 2010 US\$) the region ranks on the first 4% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.66 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 32% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2576.21. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 52% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.99 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 28% in the World.

Gross capital formation (% of GDP) during 1960-2014 highlights an average of 27.51 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 18% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 17.74 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 85% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $0.417 * \text{Year} - 810.423$. From this equation we can note that, every year, the indicator grow with 0.417. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 18.22 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 67% in the World.

The analysis of: Revenue, excluding grants (% of GDP) during 2005-2014 reveals an average of 17.74 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 65% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 44.29 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 54% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $0.466 * \text{Year} - 883.113$. From this equation we can note that, every year, the indicator grow with 0.466.

Inflation, consumer prices (annual %) during 1970-2016 highlights an average of 9.16 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 39% in the World.

2.102 IDA & IBRD total

The analysis of indicator: Imports of goods and services (% of GDP) during 1967-2016 reveals an average of 21.17 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 63% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1967-2016 highlights an average of 15.06 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 78% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1985-2016 highlights an average of 45.63 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 83% in the World.

Inflation, consumer prices (annual %) during 1981-2016 highlights an average of 8.51 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 25% in the World.

2.107 Isle of Man

The study of indicator: GDP (constant 2010 US\$) during 1984-2015 highlights an average of 3463155699.49. Also for GDP (constant 2010 US\$) the region ranks on the first 80% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $203787916.023 * \text{Year} - 404010782389.056$. From this equation we can note that, every year, the indicator grows with 203787916.023. The

analysis of indicator: GDP growth (annual %) during 1985-2015 highlights an average of 6.35 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 97% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 45670.23. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 1% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $2352.354 * \text{Year} - 4657862.381$. From this equation we can note that, every year, the indicator grow with 2352.354. The indicator: GDP per capita growth (annual %) during 1985-2015 reveals an average of 5.37 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 97% in the World.

2.108 India

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 674685788513.83. Also for GDP (constant 2010 US\$) the region ranks on the first 15% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 5.35 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 6% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 671.68. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 75% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 3.34 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 4% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 666.07. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 74% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 25.51 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 19% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 12.24 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 94% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 10.40 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 86% in the World.

The indicator: Expense (% of GDP) during 1974-2013 reveals an average of 14.42 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 82% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1974-2013 reveals an average of 12.13 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 90% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 39.57 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 72% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $0.390 * \text{Year} - 734.862$. From this equation we can note that, every year, the indicator grow with 0.390.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 7.59 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 24% in the World.

2.110 Ireland

The study of indicator: GDP (constant 2010 US\$) during 1970-2016 highlights an average of 128330243959.66. Also for GDP (constant 2010 US\$) the region ranks on the first 34% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $5699935117.903 * \text{Year} - 11231640446020.900$. From this equation we can note that, every year, the indicator grow with 5699935117.903. The analysis of indicator: GDP growth (annual %) during 1971-2016 highlights an average of 5.00 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 19% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 32051.24. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 2% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $1160.274 * \text{Year} - 2280375.725$. From this equation we can note that, every year, the indicator grow with 1160.274. The indicator: GDP per capita growth (annual %) during 1971-2016 reveals an average of 3.92 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 32% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1995-2015 highlights an average of 39619.77. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 4% in the World. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 23.23 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 12% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 59.03 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 4% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 62.12 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 2% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $1.572 * \text{Year} - 3063.899$. From this equation we can note that, every year, the indicator grows with 1.572.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 36.65 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 53% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 32.25 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 48% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 64.80 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 48% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 5.70 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 83% in the World.

2.111 Iran, Islamic Rep.

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 271519041072.16. Also for GDP (constant 2010 US\$) the region ranks on the first 28% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.34 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 1% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 5319.63. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 47% in the World. The indicator: GDP per capita growth (annual %)

during 1961-2015 reveals an average of 1.96 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 1% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1978-2016 highlights an average of 5191.15. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 47% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 34.75 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 7% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 20.34 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 93% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 20.63 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 77% in the World.

The indicator: Expense (% of GDP) during 1972-2009 reveals an average of 19.84 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 72% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2009 reveals an average of 24.23 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 44% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 47.46 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 69% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 15.10 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 10% in the World.

2.112 Iraq

The study of indicator: GDP (constant 2010 US\$) during 1968-2016 highlights an average of 72235930338.38. Also for GDP (constant 2010 US\$) the region ranks on the first 39% in the World. The analysis of indicator: GDP growth (annual %) during 1969-2016 highlights an average of 7.83 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 1% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3143.54. Also for GDP per capita (constant 2010 US\$) the region ranks

on the first 52% in the World. The indicator: GDP per capita growth (annual %) during 1969-2016 reveals an average of 4.74 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 1% in the World.

Gross capital formation (% of GDP) during 2000-2016 highlights an average of 20.49 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 70% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1970-2016 reveals an average of 33.36 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 48% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1970-2016 highlights an average of 40.01 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 47% in the World.

The indicator: Expense (% of GDP) during 2014-2016 reveals an average of 25.31 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 34% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2014-2016 reveals an average of 31.11 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 28% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 35.70 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 57% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 29.42 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 58% in the World.

2.113 Iceland

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 7890452065.24. Also for GDP (constant 2010 US\$) the region ranks on the first 68% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $243055302.885 * \text{Year} - 475303490069.861$. From this equation we can note that, every year, the indicator grows with 243055302.885. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.84 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 5% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 29381.85. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 7% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $637.749 * \text{Year} - 1238463.138$. From this equation we can note that, every year, the indicator grow with 637.749. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.65 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 5% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1980-2015 highlights an average of 33778.33. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 11% in the World. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 24.82 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 63% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 38.15 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 44% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 37.68 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 23% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 28.81 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 36% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 28.59 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 35% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1997-2015 highlights an average of 67.23 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 22% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 16.21 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 52% in the World.

2.114 Israel

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 117401693809.53. Also for GDP (constant 2010 US\$) the region ranks on the first 35% in the World. Time regression analysis reveals a correlation

coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $4592848484.361 * \text{Year} - 9013181093099.780$. From this equation we can note that, every year, the indicator grow with 4592848484.361. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 5.08 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 31% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 21175.22. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 15% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $422.871 * \text{Year} - 819493.267$. From this equation we can note that, every year, the indicator grow with 422.871. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.48 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 43% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1971-2016 highlights an average of 22803.13. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 19% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $420.498 * \text{Year} - 815459.822$. From this equation we can note that, every year, the indicator grow with 420.498. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 23.11 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 71% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 35.85 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 76% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 29.54 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 51% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 47.78 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 26% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 37.94 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 29% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 74.99 bigger than the World average: 65.34. Also for

Services, etc., value added (% of GDP) the region ranks on the first 8% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 31.84 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 91% in the World.

2.115 Italy

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 1542019079315.68. Also for GDP (constant 2010 US\$) the region ranks on the first 16% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $31049236445.096 * \text{Year} - 60183862973535.400$. From this equation we can note that, every year, the indicator grow with 31049236445.096. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.46 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 86% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 27097.05. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 15% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.91. The equation of linear regression is therefore: $492.125 * \text{Year} - 951246.726$. From this equation we can note that, every year, the indicator grow with 492.125. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.11 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 60% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 29842.30. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 18% in the World. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 21.87 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 89% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 20.26 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 81% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 20.84 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 54% in the World.

The indicator: Expense (% of GDP) during 1973-2015 reveals an average of 35.52 bigger than the World average: 25.25. Also for Expense (% of GDP) the region

ranks on the first 8% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1973-2015 reveals an average of 30.28 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 12% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1990-2016 highlights an average of 70.75 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 12% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $0.332 * \text{Year} - 594.217$. From this equation we can note that, every year, the indicator grows with 0.332.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 6.04 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 86% in the World.

2.116 Jamaica

The study of indicator: GDP (constant 2010 US\$) during 1966-2016 highlights an average of 10797836133.13. Also for GDP (constant 2010 US\$) the region ranks on the first 71% in the World. The analysis of indicator: GDP growth (annual %) during 1967-2016 highlights an average of 1.53 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 79% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 4445.05. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 55% in the World. The indicator: GDP per capita growth (annual %) during 1967-2016 reveals an average of 0.56 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 63% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2007-2016 highlights an average of 4625.45. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 56% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 23.14 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 63% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 44.81 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 41% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 36.34 bigger than the World average: 20.45.

Also for Exports of goods and services (% of GDP) the region ranks on the first 49% in the World.

The indicator: Expense (% of GDP) during 1988-2016 reveals an average of 26.46 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 32% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1988-2016 reveals an average of 25.97 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 24% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1993-2016 highlights an average of 67.02 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 23% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 14.09 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 46% in the World.

2.117 Jordan

The study of indicator: GDP (constant 2010 US\$) during 1975-2016 highlights an average of 14781696956.03. Also for GDP (constant 2010 US\$) the region ranks on the first 59% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $639217549.761 * \text{Year} - 1260776923591.950$. From this equation we can note that, every year, the indicator grows with 639217549.761. The analysis of indicator: GDP growth (annual %) during 1976-2016 highlights an average of 5.68 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 65% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2976.99. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 66% in the World. The indicator: GDP per capita growth (annual %) during 1976-2016 reveals an average of 1.84 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 89% in the World.

Gross capital formation (% of GDP) during 1976-2009 highlights an average of 29.01 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 32% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1976-2009 reveals an average of 77.29 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 10% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during

1976-2009 highlights an average of 45.28 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 28% in the World.

The indicator: Expense (% of GDP) during 2008-2013 reveals an average of 33.27 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 35% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2008-2012 reveals an average of 30.78 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 34% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 67.66 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 29% in the World.

Inflation, consumer prices (annual %) during 1970-2016 highlights an average of 6.12 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 93% in the World.

2.118 Japan

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 3852712009877.03. Also for GDP (constant 2010 US\$) the region ranks on the first 10% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $101349627136.049 * \text{Year} - 197630346736589.000$. From this equation we can note that, every year, the indicator grows with 101349627136.049. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.76 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 85% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 31630.10. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 8% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $723.770 * \text{Year} - 1407224.698$. From this equation we can note that, every year, the indicator grows with 723.770. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 3.16 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 59% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 36111.80. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 9% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of

linear regression is therefore: $694.940 \cdot \text{Year} - 1348904.549$. From this equation we can note that, every year, the indicator grows with 694.940. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 29.51 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 50% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 11.13 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 99% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 12.01 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 92% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 14.71 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 82% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 11.45 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 95% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1994-2015 highlights an average of 68.10 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 24% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $0.430 \cdot \text{Year} - 793.818$. From this equation we can note that, every year, the indicator grows with 0.430.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 3.19 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 85% in the World.

2.119 Kazakhstan

The study of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 109748984128.75. Also for GDP (constant 2010 US\$) the region ranks on the first 41% in the World. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 2.87 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 84% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6806.31. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 32% in the World. The indicator: GDP per capita growth (annual %) during 1991-2016 reveals an average of 2.50 bigger than the World average: 1.88.

Also for GDP per capita growth (annual %) the region ranks on the first 79% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1993-2015 highlights an average of 6272.42. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 37% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $292.935 * \text{Year} - 580768.816$. From this equation we can note that, every year, the indicator grow with 292.935. Gross capital formation (% of GDP) during 1992-2016 highlights an average of 25.40 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 30% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1992-2016 reveals an average of 39.26 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 75% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1992-2016 highlights an average of 44.28 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 48% in the World.

The indicator: Expense (% of GDP) during 1997-2016 reveals an average of 11.31 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 84% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1997-2016 reveals an average of 11.70 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 94% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1992-2016 highlights an average of 53.52 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 43% in the World.

Inflation, consumer prices (annual %) during 1994-2016 highlights an average of 98.78 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 5% in the World.

2.120 Kenya

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 21174093357.78. Also for GDP (constant 2010 US\$) the region ranks on the first 51% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $778752910.081 * \text{Year} - 1526986691883.560$. From this equation we can note that, every year, the indicator grow with 778752910.081. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an

average of 4.74 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 15% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 826.30. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 85% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.44 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 25% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1964-2016 highlights an average of 831.18. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 81% in the World. Gross capital formation (% of GDP) during 1964-2016 highlights an average of 20.35 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 89% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 31.61 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 86% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 26.57 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 93% in the World.

The indicator: Expense (% of GDP) during 2014-2015 reveals an average of 22.80 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 66% in the World. Time regression analysis reveals a correlation coefficient value: -1.00 and a value of R Square: 1.00. The equation of linear regression is therefore: $-0.461 * \text{Year} + 949.317$. From this equation we can note that, every year, the indicator decreases with 0.461.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 48.53 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 90% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 10.20 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 17% in the World.

2.121 Kyrgyz Republic

The study of indicator: GDP (constant 2010 US\$) during 1986-2016 highlights an average of 4109009607.12. Also for GDP (constant 2010 US\$) the region ranks on the first 81% in the World. The analysis of indicator: GDP growth (annual %) during 1987-2016 highlights an average of 2.02 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 37% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 822.71. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 86% in the World. The indicator: GDP per capita growth (annual %) during 1987-2016 reveals an average of 0.64 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 49% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1992-2016 highlights an average of 743.08. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 84% in the World. Gross capital formation (% of GDP) during 1987-2016 highlights an average of 23.62 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 10% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 reveals an average of 62.09 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 12% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 40.27 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 40% in the World.

The indicator: Expense (% of GDP) during 2014-2016 reveals an average of 27.12 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 24% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2014-2016 reveals an average of 29.59 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 20% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1990-2016 highlights an average of 41.81 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 64% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $1.233 * \text{Year} - 2427.127$. From this equation we can note that, every year, the indicator grows with 1.233.

Inflation, consumer prices (annual %) during 1996-2016 highlights an average of 11.31 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 75% in the World.

2.122 Cambodia

The study of indicator: GDP (constant 2010 US\$) during 1993-2016 highlights an average of 8497022683.83. Also for GDP (constant 2010 US\$) the region ranks on the first 66% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $599863207.810 * \text{Year} - 1193928777370.430$. From this equation we can note that, every year, the indicator grow with 599863207.810. The analysis of indicator: GDP growth (annual %) during 1994-2016 highlights an average of 7.64 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 7% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 621.04. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 86% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $34.149 * \text{Year} - 67829.799$. From this equation we can note that, every year, the indicator grow with 34.149. The indicator: GDP per capita growth (annual %) during 1994-2016 reveals an average of 5.52 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 9% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1995-2016 highlights an average of 619.27. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 83% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $33.310 * \text{Year} - 66183.803$. From this equation we can note that, every year, the indicator grow with 33.310. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 10.63 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 56% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 27.84 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 15% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 23.33 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 13% in the World.

The indicator: Expense (% of GDP) during 2002-2016 reveals an average of 10.11 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 94% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2002-2016 reveals an average of 12.17 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 76% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1993-2016 highlights an average of 39.36 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 94% in the World.

Inflation, consumer prices (annual %) during 1995-2016 highlights an average of 4.91 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 38% in the World.

2.123 Kiribati

The study of indicator: GDP (constant 2010 US\$) during 1970-2016 highlights an average of 149148522.99. Also for GDP (constant 2010 US\$) the region ranks on the first 99% in the World. The analysis of indicator: GDP growth (annual %) during 1971-2016 highlights an average of 1.42 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 83% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2034.30. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 78% in the World. The indicator: GDP per capita growth (annual %) during 1971-2016 reveals an average of -0.33 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 84% in the World.

Gross capital formation (% of GDP) during 1972-1992 highlights an average of 30.58 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 3% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1972-2016 reveals an average of 79.44 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 4% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1972-2016 highlights an average of 26.76 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 97% in the World.

The indicator: Expense (% of GDP) during 2011-2016 reveals an average of 66.18 bigger than the World average: 25.25. Also for Expense (% of GDP) the region

ranks on the first 0% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2011-2016 reveals an average of 85.18 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 0% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1978-2013 highlights an average of 62.62 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 23% in the World.

2.124 St. Kitts and Nevis

The study of indicator: GDP (constant 2010 US\$) during 1977-2016 highlights an average of 493531752.65. Also for GDP (constant 2010 US\$) the region ranks on the first 94% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $18048363.062 * \text{Year} - 35540025100.689$. From this equation we can note that, every year, the indicator grows with 18048363.062. The analysis of indicator: GDP growth (annual %) during 1978-2016 highlights an average of 4.19 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 61% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 10499.32. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 24% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.95. The equation of linear regression is therefore: $310.838 * \text{Year} - 610088.957$. From this equation we can note that, every year, the indicator grows with 310.838. The indicator: GDP per capita growth (annual %) during 1978-2016 reveals an average of 3.61 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 57% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1977-2016 reveals an average of 56.48 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 24% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1977-2016 highlights an average of 41.08 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 15% in the World.

The indicator: Expense (% of GDP) during 1990-2014 reveals an average of 17.42 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 66% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2014 reveals an average of 17.79 smaller than the World

average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 60% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1977-2016 highlights an average of 70.52 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 19% in the World.

Inflation, consumer prices (annual %) during 1980-2016 highlights an average of 3.34 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 92% in the World.

2.125 Korea, Rep.

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 453547136323.18. Also for GDP (constant 2010 US\$) the region ranks on the first 22% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $23927946313.532 * \text{Year} - 47115210134978.700$. From this equation we can note that, every year, the indicator grow with 23927946313.532. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 7.50 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 51% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 9760.69. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 18% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $470.360 * \text{Year} - 925314.167$. From this equation we can note that, every year, the indicator grow with 470.360. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 6.13 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 41% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 9738.77. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 21% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $470.192 * \text{Year} - 925002.880$. From this equation we can note that, every year, the indicator grow with 470.192. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 30.07 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 24% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 29.65 bigger than the World average: 20.32. Also for

Imports of goods and services (% of GDP) the region ranks on the first 59% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 27.78 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 31% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 16.06 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 60% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 18.36 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 47% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 50.87 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 50% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $0.442 * \text{Year} - 828.022$. From this equation we can note that, every year, the indicator grow with 0.442.

Inflation, consumer prices (annual %) during 1967-2016 highlights an average of 7.44 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 65% in the World.

2.126 Kuwait

The study of indicator: GDP (constant 2010 US\$) during 1992-2016 highlights an average of 97975926852.76. Also for GDP (constant 2010 US\$) the region ranks on the first 44% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $4106531272.210 * \text{Year} - 8131512742656.070$. From this equation we can note that, every year, the indicator grow with 4106531272.210. The analysis of indicator: GDP growth (annual %) during 1966-2016 highlights an average of 3.32 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 40% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 40402.70. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 14% in the World. The indicator: GDP per capita growth (annual %) during 1966-2016 reveals an average of -2.30 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 71% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2010-2016 highlights an average of 40592.56. Also for GNI per capita (constant 2010 US\$)

the region ranks on the first 16% in the World. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 17.27 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 31% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1965-2016 reveals an average of 36.65 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 38% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1965-2016 highlights an average of 59.76 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 25% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 37.54 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 4% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 46.04 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 16% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2010-2016 highlights an average of 38.11 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 81% in the World.

Inflation, consumer prices (annual %) during 1973-2016 highlights an average of 4.24 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 36% in the World.

2.127 Latin America & Caribbean (excluding high income)

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 2797380462413.17. Also for GDP (constant 2010 US\$) the region ranks on the first 11% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $84273135862.006 * \text{Year} - 164737613631255.000$. From this equation we can note that, every year, the indicator grows with 84273135862.006. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.67 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 94% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6429.29. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 39% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $90.424 * \text{Year} - 173333.466$. From this equation we can note

that, every year, the indicator grow with 90.424. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.68 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 92% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 6244.16. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 41% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $89.001 * \text{Year} - 170690.608$. From this equation we can note that, every year, the indicator grow with 89.001. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 21.03 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 83% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 15.15 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 90% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 15.12 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 81% in the World.

The indicator: Expense (% of GDP) during 1980-2015 reveals an average of 17.26 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 40% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1980-2015 reveals an average of 15.55 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 56% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 56.22 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 26% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 8.77 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 44% in the World.

2.128 Lao PDR

The study of indicator: GDP (constant 2010 US\$) during 1984-2016 highlights an average of 4479508397.21. Also for GDP (constant 2010 US\$) the region ranks on the first 76% in the World. The analysis of indicator: GDP growth (annual %) during 1985-2016 highlights an average of 6.45 bigger than the World average:

3.53. Also for GDP growth (annual %) the region ranks on the first 7% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 791.46. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 78% in the World. The indicator: GDP per capita growth (annual %) during 1985-2016 reveals an average of 4.37 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 7% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2000-2016 highlights an average of 1017.62. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 77% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $57.278 * \text{Year} - 113996.418$. From this equation we can note that, every year, the indicator grow with 57.278. Gross capital formation (% of GDP) during 1984-2016 highlights an average of 16.08 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 25% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1984-2016 reveals an average of 38.05 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 44% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1984-2016 highlights an average of 25.26 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 43% in the World.

The indicator: Expense (% of GDP) during 2008-2015 reveals an average of 12.76 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 92% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2006-2015 reveals an average of 12.09 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 89% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1989-2016 highlights an average of 34.26 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 86% in the World.

Inflation, consumer prices (annual %) during 1989-2016 highlights an average of 19.16 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 56% in the World.

2.129 Lebanon

The study of indicator: GDP (constant 2010 US\$) during 1988-2016 highlights an average of 26335338328.21. Also for GDP (constant 2010 US\$) the region ranks on the first 56% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $1126086671.838 * \text{Year} - 2228090178691.560$. From this equation we can note that, every year, the indicator grow with 1126086671.838. The analysis of indicator: GDP growth (annual %) during 1989-2016 highlights an average of 4.48 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 66% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6785.73. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 45% in the World. The indicator: GDP per capita growth (annual %) during 1989-2016 reveals an average of 1.52 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 84% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1994-2016 highlights an average of 7157.71. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 46% in the World. Gross capital formation (% of GDP) during 1990-2016 highlights an average of 25.20 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 42% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1989-2016 reveals an average of 58.24 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 37% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1989-2016 highlights an average of 23.12 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 66% in the World.

The indicator: Expense (% of GDP) during 1998-2016 reveals an average of 28.00 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 30% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1997-2016 reveals an average of 19.36 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 68% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1994-2016 highlights an average of 74.46 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 5% in the World.

Inflation, consumer prices (annual %) during 2009-2016 highlights an average of 2.31 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 94% in the World.

2.130 Liberia

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 1651684196.89. Also for GDP (constant 2010 US\$) the region ranks on the first 89% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 1.99 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 95% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 869.75. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 100% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of -0.82 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 97% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2000-2016 highlights an average of 272.31. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 99% in the World. Gross capital formation (% of GDP) during 2000-2016 highlights an average of 19.98 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 73% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 64.31 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 3% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 43.23 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 79% in the World.

The indicator: Expense (% of GDP) during 2004-2013 reveals an average of 16.46 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 52% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2005-2013 reveals an average of 18.12 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 46% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1964-2016 highlights an average of 32.56 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 76% in the World.

Inflation, consumer prices (annual %) during 2002-2016 highlights an average of 9.56 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 8% in the World.

2.131 Libya

The study of indicator: GDP (constant 2010 US\$) during 1999-2011 highlights an average of 56897338062.97. Also for GDP (constant 2010 US\$) the region ranks on the first 56% in the World. The analysis of indicator: GDP growth (annual %) during 2000-2011 highlights an average of -1.00 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 100% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 9820.98. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 54% in the World. The indicator: GDP per capita growth (annual %) during 2000-2011 reveals an average of -2.37 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 100% in the World.

Gross capital formation (% of GDP) during 1990-2008 highlights an average of 15.34 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 29% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2011 reveals an average of 28.29 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 46% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2011 highlights an average of 44.08 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 24% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2002-2008 highlights an average of 22.97 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 99% in the World.

Inflation, consumer prices (annual %) during 1965-2013 highlights an average of 5.35 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 57% in the World.

2.132 St. Lucia

The study of indicator: GDP (constant 2010 US\$) during 1977-2016 highlights an average of 980170303.74. Also for GDP (constant 2010 US\$) the region ranks on the first 91% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear

regression is therefore: $29910541.200 * \text{Year} - 58736225202.260$. From this equation we can note that, every year, the indicator grow with 29910541.200. The analysis of indicator: GDP growth (annual %) during 1978-2016 highlights an average of 3.64 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 86% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6395.08. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 41% in the World. The indicator: GDP per capita growth (annual %) during 1978-2016 reveals an average of 2.42 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 72% in the World.

Gross capital formation (% of GDP) during 1977-2016 highlights an average of 25.10 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 58% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1979-2016 reveals an average of 60.03 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 42% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1979-2016 highlights an average of 49.54 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 40% in the World.

The indicator: Expense (% of GDP) during 2000-2014 reveals an average of 19.08 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 74% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2000-2014 reveals an average of 21.69 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 63% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1977-2016 highlights an average of 76.06 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 3% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $0.426 * \text{Year} - 774.239$. From this equation we can note that, every year, the indicator grow with 0.426.

Inflation, consumer prices (annual %) during 1966-2016 highlights an average of 5.36 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 100% in the World.

2.133 Latin America & Caribbean

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 3021128079181.27. Also for GDP (constant 2010 US\$) the region ranks on the first 10% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $91647887040.521 * \text{Year} - 179174871357375.000$. From this equation we can note that, every year, the indicator grow with 91647887040.521. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.66 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 93% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6588.75. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 38% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $95.976 * \text{Year} - 184210.661$. From this equation we can note that, every year, the indicator grow with 95.976. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.71 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 91% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 6379.99. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 39% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $92.182 * \text{Year} - 176877.130$. From this equation we can note that, every year, the indicator grow with 92.182. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 20.92 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 83% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 16.10 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 88% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $0.248 * \text{Year} - 476.751$. From this equation we can note that, every year, the indicator grow with 0.248. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 16.23 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 78% in the World.

The indicator: Expense (% of GDP) during 1980-2015 reveals an average of 17.21 smaller than the World average: 25.25. Also for Expense (% of GDP) the region

ranks on the first 41% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1980-2015 reveals an average of 15.68 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 58% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 56.09 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 28% in the World.

Inflation, consumer prices (annual %) during 1966-2016 highlights an average of 8.69 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 45% in the World.

2.134 Least developed countries: UN classification

The study of indicator: GDP (constant 2010 US\$) during 1982-2016 highlights an average of 421160745323.72. Also for GDP (constant 2010 US\$) the region ranks on the first 25% in the World. The analysis of indicator: GDP growth (annual %) during 1983-2016 highlights an average of 4.24 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 32% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 602.59. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 89% in the World. The indicator: GDP per capita growth (annual %) during 1983-2016 reveals an average of 1.64 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 50% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2008-2012 highlights an average of 762.18. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 87% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 1.00. The equation of linear regression is therefore: $18.122 * \text{Year} - 35662.797$. From this equation we can note that, every year, the indicator grows with 18.122. Gross capital formation (% of GDP) during 1985-2016 highlights an average of 18.53 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 53% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 reveals an average of 31.63 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 68% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 24.42 bigger than the World average: 20.45.

Also for Exports of goods and services (% of GDP) the region ranks on the first 82% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1985-2016 highlights an average of 44.90 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 85% in the World.

Inflation, consumer prices (annual %) during 1981-2016 highlights an average of 8.84 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 22% in the World.

2.135 Low income

The study of indicator: GDP (constant 2010 US\$) during 1982-2016 highlights an average of 207025428273.29. Also for GDP (constant 2010 US\$) the region ranks on the first 32% in the World. The analysis of indicator: GDP growth (annual %) during 1983-2016 highlights an average of 3.48 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 29% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 471.15. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 95% in the World. The indicator: GDP per capita growth (annual %) during 1983-2016 reveals an average of 0.72 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 54% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2002-2016 highlights an average of 489.54. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 93% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 1.00. The equation of linear regression is therefore: $11.510 * \text{Year} - 22634.062$. From this equation we can note that, every year, the indicator grow with 11.510. Gross capital formation (% of GDP) during 1985-2016 highlights an average of 17.67 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 33% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 reveals an average of 34.72 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 56% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 20.46 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 83% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1986-2016 highlights an average of 40.18 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 87% in the World.

Inflation, consumer prices (annual %) during 1981-2016 highlights an average of 8.33 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 19% in the World.

2.136 Liechtenstein

The analysis of indicator: GDP growth (annual %) during 1971-2009 highlights an average of 3.79 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 59% in the World.

The indicator: GDP per capita growth (annual %) during 1971-2009 reveals an average of 2.41 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 55% in the World.

2.137 Sri Lanka

The study of indicator: GDP (constant 2010 US\$) during 1961-2015 highlights an average of 26740602792.12. Also for GDP (constant 2010 US\$) the region ranks on the first 46% in the World. The analysis of indicator: GDP growth (annual %) during 1962-2016 highlights an average of 4.86 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 26% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1482.67. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 62% in the World. The indicator: GDP per capita growth (annual %) during 1962-2016 reveals an average of 3.50 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 15% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1961-2015 highlights an average of 1452.95. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 61% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 23.25 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 15% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 35.73 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 73% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 28.05 bigger than the World average: 20.45.

Also for Exports of goods and services (% of GDP) the region ranks on the first 79% in the World.

The indicator: Expense (% of GDP) during 1990-2016 reveals an average of 20.87 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 72% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2016 reveals an average of 16.24 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 92% in the World. Time regression analysis reveals a correlation coefficient value: -0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $-0.345 * \text{Year} + 708.215$. From this equation we can note that, every year, the indicator decreases with 0.345.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 50.33 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 40% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 8.34 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 29% in the World.

2.138 Lower middle income

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 2190213523677.59. Also for GDP (constant 2010 US\$) the region ranks on the first 9% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.53 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 19% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1033.85. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 73% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.40 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 19% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1981-2016 highlights an average of 1203.36. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 71% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 22.54 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 30% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 21.28 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 79% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $0.417 * \text{Year} - 806.796$. From this equation we can note that, every year, the indicator grow with 0.417. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 18.83 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 74% in the World.

The indicator: Expense (% of GDP) during 1990-2013 reveals an average of 12.18 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 79% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2013 reveals an average of 15.53 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 84% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1981-2016 highlights an average of 44.93 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 73% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.95. The equation of linear regression is therefore: $0.410 * \text{Year} - 773.858$. From this equation we can note that, every year, the indicator grow with 0.410.

Inflation, consumer prices (annual %) during 1980-2016 highlights an average of 8.28 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 33% in the World.

2.139 Low & middle income

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 9897774889510.00. Also for GDP (constant 2010 US\$) the region ranks on the first 3% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.61 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 32% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2133.99. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 56% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.74 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 34% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2010-2014 highlights an average of 3736.65. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 60% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $92.190 \cdot \text{Year} - 181749.862$. From this equation we can note that, every year, the indicator grow with 92.190. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 27.12 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 18% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 17.96 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 85% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $0.399 \cdot \text{Year} - 775.441$. From this equation we can note that, every year, the indicator grow with 0.399. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 18.13 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 72% in the World.

The analysis of: Revenue, excluding grants (% of GDP) during 2005-2014 reveals an average of 17.09 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 68% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 43.99 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 58% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $0.445 \cdot \text{Year} - 841.432$. From this equation we can note that, every year, the indicator grow with 0.445.

Inflation, consumer prices (annual %) during 1977-2016 highlights an average of 8.55 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 37% in the World.

2.140 Lesotho

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 1204311914.99. Also for GDP (constant 2010 US\$) the region ranks on the first 87% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $47529201.432 \cdot \text{Year} - 93283740532.765$. From this equation we can note that, every year, the indicator grow with 47529201.432. The analysis of

indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.93 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 56% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 705.71. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 83% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $18.883 * \text{Year} - 36833.937$. From this equation we can note that, every year, the indicator grow with 18.883. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 3.16 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 64% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2007-2016 highlights an average of 1479.13. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 78% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 11.08 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 27% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 44.98 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 7% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 13.04 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 31% in the World.

The indicator: Expense (% of GDP) during 2003-2013 reveals an average of 40.37 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 15% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2003-2013 reveals an average of 49.35 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 2% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1963-2016 highlights an average of 51.38 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 59% in the World.

Inflation, consumer prices (annual %) during 1974-2016 highlights an average of 9.83 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 15% in the World.

2.141 Late-demographic dividend

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 6013667194283.79. Also for GDP (constant 2010 US\$) the region ranks on the first 6% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 5.27 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 38% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3086.18. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 42% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 3.91 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 28% in the World.

Gross capital formation (% of GDP) during 1960-2014 highlights an average of 29.45 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 13% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 18.07 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 80% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.93. The equation of linear regression is therefore: $0.494 * \text{Year} - 964.401$. From this equation we can note that, every year, the indicator grow with 0.494. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 19.71 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 55% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $0.585 * \text{Year} - 1143.829$. From this equation we can note that, every year, the indicator grow with 0.585.

The analysis of: Revenue, excluding grants (% of GDP) during 2005-2014 reveals an average of 18.13 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 67% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 41.01 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 54% in the World.

Inflation, consumer prices (annual %) during 1987-2016 highlights an average of 5.10 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 62% in the World.

2.142 Lithuania

The study of indicator: GDP (constant 2010 US\$) during 1995-2016 highlights an average of 33488291593.16. Also for GDP (constant 2010 US\$) the region ranks on the first 55% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $1306119539.496 * \text{Year} - 2585934444865.500$. From this equation we can note that, every year, the indicator grow with 1306119539.496. The analysis of indicator: GDP growth (annual %) during 1996-2016 highlights an average of 4.32 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 58% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 10473.38. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 24% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $523.725 * \text{Year} - 1039857.526$. From this equation we can note that, every year, the indicator grow with 523.725. The indicator: GDP per capita growth (annual %) during 1996-2016 reveals an average of 5.49 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 19% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2004-2016 highlights an average of 12649.96. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 26% in the World. Gross capital formation (% of GDP) during 1995-2016 highlights an average of 21.62 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 88% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1995-2016 reveals an average of 61.38 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 10% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1995-2016 highlights an average of 55.70 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 8% in the World.

The indicator: Expense (% of GDP) during 1995-2015 reveals an average of 10.33 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 98% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1995-2015 reveals an average of 9.44 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 99% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 63.73 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 26% in the World.

Inflation, consumer prices (annual %) during 1993-2016 highlights an average of 25.05 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 65% in the World.

2.143 Luxembourg

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 28042538644.09. Also for GDP (constant 2010 US\$) the region ranks on the first 49% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $997585304.255 * \text{Year} - 1955157046214.410$. From this equation we can note that, every year, the indicator grow with 997585304.255. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.70 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 46% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 64724.22. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 0% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.95. The equation of linear regression is therefore: $1727.467 * \text{Year} - 3369480.639$. From this equation we can note that, every year, the indicator grow with 1727.467. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.57 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 68% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 58549.22. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 3% in the World. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 22.13 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 87% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 99.41 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 0% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 117.94 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 0% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 31.93 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 19% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 35.27 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 8% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 83.37 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 1% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $0.499 \cdot \text{Year} - 917.121$. From this equation we can note that, every year, the indicator grows with 0.499.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 3.35 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 78% in the World.

2.144 Latvia

The study of indicator: GDP (constant 2010 US\$) during 1995-2016 highlights an average of 22173952089.59. Also for GDP (constant 2010 US\$) the region ranks on the first 59% in the World. The analysis of indicator: GDP growth (annual %) during 1996-2016 highlights an average of 4.13 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 63% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 10206.84. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 26% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.91. The equation of linear regression is therefore: $479.345 \cdot \text{Year} - 951118.915$. From this equation we can note that, every year, the indicator grows with 479.345. The indicator: GDP per capita growth (annual %) during 1996-2016 reveals an average of 5.31 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 29% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1995-2016 highlights an average of 10186.34. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 26% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $478.574 \cdot \text{Year} - 949594.464$. From this equation we can note that, every year, the indicator grows with 478.574. Gross capital formation (% of GDP) during 1995-2016 highlights an average of 26.45 bigger than the

World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 78% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1995-2016 reveals an average of 53.58 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 21% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1995-2016 highlights an average of 45.15 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 14% in the World.

The indicator: Expense (% of GDP) during 1995-2015 reveals an average of 44.25 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 9% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1995-2015 reveals an average of 40.44 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 6% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 70.25 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 11% in the World.

Inflation, consumer prices (annual %) during 1992-2016 highlights an average of 20.44 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 83% in the World.

2.145 Macao SAR, China

The study of indicator: GDP (constant 2010 US\$) during 1982-2016 highlights an average of 15405126836.41. Also for GDP (constant 2010 US\$) the region ranks on the first 58% in the World. The analysis of indicator: GDP growth (annual %) during 1983-2016 highlights an average of 6.57 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 94% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 32623.46. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 6% in the World. The indicator: GDP per capita growth (annual %) during 1983-2016 reveals an average of 3.81 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 94% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2002-2016 highlights an average of 42780.02. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 8% in the World. Gross capital formation (% of GDP)

during 1982-2016 highlights an average of 21.85 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 61% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1982-2016 reveals an average of 60.53 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 60% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1982-2016 highlights an average of 89.90 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 8% in the World.

The indicator: Expense (% of GDP) during 1996-2016 reveals an average of 13.66 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 80% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1996-2016 reveals an average of 27.45 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 16% in the World.

Inflation, consumer prices (annual %) during 1989-2016 highlights an average of 4.00 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 46% in the World.

2.147 Morocco

The study of indicator: GDP (constant 2010 US\$) during 1966-2016 highlights an average of 50098390150.60. Also for GDP (constant 2010 US\$) the region ranks on the first 45% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $1954715812.598 * \text{Year} - 3841740792732.400$. From this equation we can note that, every year, the indicator grow with 1954715812.598. The analysis of indicator: GDP growth (annual %) during 1967-2016 highlights an average of 4.70 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 81% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1828.78. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 66% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.95. The equation of linear regression is therefore: $44.993 * \text{Year} - 87752.273$. From this equation we can note that, every year, the indicator grow with 44.993. The indicator: GDP per capita growth (annual %) during 1967-2016 reveals an average of 2.84 bigger than the

World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 78% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1966-2016 highlights an average of 1794.75. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 66% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $44.316 * \text{Year} - 86437.828$. From this equation we can note that, every year, the indicator grow with 44.316. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 25.34 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 10% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 30.79 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 40% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 24.28 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 43% in the World.

The indicator: Expense (% of GDP) during 1972-2011 reveals an average of 21.09 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 27% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2011 reveals an average of 22.82 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 24% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1980-2016 highlights an average of 54.65 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 61% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 4.40 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 55% in the World.

2.148 Monaco

The analysis of indicator: GDP growth (annual %) during 1971-2008 highlights an average of 3.14 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 5% in the World.

The indicator: GDP per capita growth (annual %) during 1971-2008 reveals an average of 1.99 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 7% in the World.

2.149 Moldova

The study of indicator: GDP (constant 2010 US\$) during 1995-2016 highlights an average of 5085209739.93. Also for GDP (constant 2010 US\$) the region ranks on the first 81% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $190855421.176 * \text{Year} - 377675337427.655$. From this equation we can note that, every year, the indicator grow with 190855421.176. The analysis of indicator: GDP growth (annual %) during 1996-2016 highlights an average of 3.05 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 31% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1416.34. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 73% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $55.486 * \text{Year} - 109861.790$. From this equation we can note that, every year, the indicator grow with 55.486. The indicator: GDP per capita growth (annual %) during 1996-2016 reveals an average of 3.22 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 14% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1995-2016 highlights an average of 1526.61. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 70% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $63.747 * \text{Year} - 126318.417$. From this equation we can note that, every year, the indicator grow with 63.747. Gross capital formation (% of GDP) during 1995-2016 highlights an average of 25.86 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 57% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1995-2016 reveals an average of 79.35 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 12% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1995-2016 highlights an average of 47.14 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 29% in the World.

The indicator: Expense (% of GDP) during 1997-2016 reveals an average of 30.02 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 16% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1995-2016 reveals an average of 29.32 bigger than the World

average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 18% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 59.67 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 18% in the World.

Inflation, consumer prices (annual %) during 1995-2016 highlights an average of 12.60 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 16% in the World.

2.150 Madagascar

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 5983134020.23. Also for GDP (constant 2010 US\$) the region ranks on the first 77% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 1.96 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 29% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 531.96. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 99% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of -0.89 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 53% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 520.14. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 97% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 13.34 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 94% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 28.50 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 58% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 19.61 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 44% in the World.

The indicator: Expense (% of GDP) during 2000-2014 reveals an average of 10.58 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 97% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2000-2014 reveals an average of 22.77 bigger than the World average: 11.25. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 18% in the World.

of GDP) during 1972-2014 reveals an average of 20.20 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 97% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1966-2016 highlights an average of 55.91 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 64% in the World.

Inflation, consumer prices (annual %) during 1965-2016 highlights an average of 11.68 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 15% in the World.

2.151 Maldives

The study of indicator: GDP (constant 2010 US\$) during 2001-2016 highlights an average of 2391140896.86. Also for GDP (constant 2010 US\$) the region ranks on the first 85% in the World. The analysis of indicator: GDP growth (annual %) during 2002-2016 highlights an average of 17.00 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 13% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6589.60. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 40% in the World. The indicator: GDP per capita growth (annual %) during 2002-2016 reveals an average of 13.93 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 16% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1980-2016 reveals an average of 65.85 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 9% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1980-2016 highlights an average of 63.44 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 6% in the World.

The indicator: Expense (% of GDP) during 1990-2014 reveals an average of 19.87 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 57% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1980-2014 reveals an average of 21.60 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 46% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 80.35 bigger than the World average: 65.34. Also for

Services, etc., value added (% of GDP) the region ranks on the first 4% in the World.

Inflation, consumer prices (annual %) during 1978-2016 highlights an average of 5.93 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 74% in the World.

2.152 Middle East & North Africa

The study of indicator: GDP (constant 2010 US\$) during 1968-2016 highlights an average of 1609421183628.18. Also for GDP (constant 2010 US\$) the region ranks on the first 13% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.91. The equation of linear regression is therefore: $53452642831.159 * \text{Year} - 104868243336041.000$. From this equation we can note that, every year, the indicator grow with 53452642831.159. The analysis of indicator: GDP growth (annual %) during 1969-2016 highlights an average of 4.47 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 21% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 5717.97. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 43% in the World. The indicator: GDP per capita growth (annual %) during 1969-2016 reveals an average of 1.89 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 28% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2000-2016 highlights an average of 6792.43. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 42% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $137.084 * \text{Year} - 268473.210$. From this equation we can note that, every year, the indicator grow with 137.084. Gross capital formation (% of GDP) during 1968-2016 highlights an average of 29.29 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 23% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1968-2016 reveals an average of 32.70 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 49% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1968-2016 highlights an average of 37.37 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 38% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1975-2016 highlights an average of 46.04 smaller than the World average: 65.34. Also

for Services, etc., value added (% of GDP) the region ranks on the first 59% in the World.

Inflation, consumer prices (annual %) during 1970-2016 highlights an average of 5.76 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 43% in the World.

2.153 Mexico

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 628950113642.92. Also for GDP (constant 2010 US\$) the region ranks on the first 22% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $19397431773.021 * \text{Year} - 37933144251122.400$. From this equation we can note that, every year, the indicator grow with 19397431773.021. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.02 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 59% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 7132.99. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 35% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $100.663 * \text{Year} - 192985.986$. From this equation we can note that, every year, the indicator grow with 100.663. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.79 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 64% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 6969.29. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 36% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.95. The equation of linear regression is therefore: $102.087 * \text{Year} - 195979.290$. From this equation we can note that, every year, the indicator grow with 102.087. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 21.51 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 52% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 18.51 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 49% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 18.01 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first

38% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $0.526 * \text{Year} - 1026.710$. From this equation we can note that, every year, the indicator grow with 0.526.

The indicator: Expense (% of GDP) during 1972-2016 reveals an average of 14.28 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 56% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2016 reveals an average of 12.54 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 56% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 59.84 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 37% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 20.10 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 40% in the World.

2.154 Marshall Islands

The study of indicator: GDP (constant 2010 US\$) during 1981-2016 highlights an average of 137871401.17. Also for GDP (constant 2010 US\$) the region ranks on the first 100% in the World. The analysis of indicator: GDP growth (annual %) during 1982-2016 highlights an average of 2.85 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 69% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2819.32. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 66% in the World. The indicator: GDP per capita growth (annual %) during 1982-2016 reveals an average of 1.33 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 47% in the World.

Gross capital formation (% of GDP) during 2004-2015 highlights an average of 19.26 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 90% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2004-2016 reveals an average of 94.45 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 6% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2004-2016 highlights an average of 32.75 bigger than the World average: 20.45.

Also for Exports of goods and services (% of GDP) the region ranks on the first 62% in the World.

The indicator: Expense (% of GDP) during 2008-2016 reveals an average of 53.45 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 2% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2008-2016 reveals an average of 22.83 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 10% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2006-2015 highlights an average of 73.11 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 12% in the World.

2.155 Middle income

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 9736634686639.01. Also for GDP (constant 2010 US\$) the region ranks on the first 3% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.64 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 33% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2289.41. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 54% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.84 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 31% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2010-2014 highlights an average of 4091.93. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 56% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $106.473 * \text{Year} - 210131.241$. From this equation we can note that, every year, the indicator grows with 106.473. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 27.25 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 17% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 17.85 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 86% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore:

$0.398 \cdot \text{Year} - 773.630$. From this equation we can note that, every year, the indicator grows with 0.398. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 18.13 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 72% in the World.

The analysis of: Revenue, excluding grants (% of GDP) during 2005-2014 reveals an average of 17.13 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 68% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 44.01 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 56% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $0.448 \cdot \text{Year} - 847.338$. From this equation we can note that, every year, the indicator grows with 0.448.

Inflation, consumer prices (annual %) during 1976-2016 highlights an average of 8.42 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 43% in the World.

2.156 Macedonia, FYR

The study of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 7915474539.38. Also for GDP (constant 2010 US\$) the region ranks on the first 76% in the World. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 1.41 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 56% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3872.78. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 53% in the World. The indicator: GDP per capita growth (annual %) during 1991-2016 reveals an average of 1.24 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 41% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2016 highlights an average of 3802.86. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 54% in the World. Gross capital formation (% of GDP) during 1990-2016 highlights an average of 22.55 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 9% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 reveals an average of 52.72 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 16% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 38.18 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 22% in the World.

The indicator: Expense (% of GDP) during 2005-2012 reveals an average of 29.76 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 35% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2005-2012 reveals an average of 30.38 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 41% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1990-2016 highlights an average of 59.45 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 45% in the World.

Inflation, consumer prices (annual %) during 1994-2016 highlights an average of 8.03 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 87% in the World.

2.157 Mali

The study of indicator: GDP (constant 2010 US\$) during 1967-2016 highlights an average of 5612161893.87. Also for GDP (constant 2010 US\$) the region ranks on the first 71% in the World. The analysis of indicator: GDP growth (annual %) during 1968-2016 highlights an average of 4.14 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 16% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 523.14. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 91% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $8.266 * \text{Year} - 15938.255$. From this equation we can note that, every year, the indicator grow with 8.266. The indicator: GDP per capita growth (annual %) during 1968-2016 reveals an average of 1.73 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 34% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2016 highlights an average of 600.72. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 89% in the World. Time regression analysis reveals a

correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $9.475 * \text{Year} - 18377.794$. From this equation we can note that, every year, the indicator grow with 9.475. Gross capital formation (% of GDP) during 1967-2016 highlights an average of 16.55 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 88% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1967-2016 reveals an average of 30.82 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 51% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1967-2016 highlights an average of 18.11 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 74% in the World.

The indicator: Expense (% of GDP) during 2000-2016 reveals an average of 12.40 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 96% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2000-2016 reveals an average of 14.10 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 82% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1967-2016 highlights an average of 37.43 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 98% in the World.

Inflation, consumer prices (annual %) during 1989-2016 highlights an average of 2.75 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 100% in the World.

2.158 Malta

The study of indicator: GDP (constant 2010 US\$) during 1970-2016 highlights an average of 5353652129.78. Also for GDP (constant 2010 US\$) the region ranks on the first 75% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $213160994.784 * \text{Year} - 419476210474.050$. From this equation we can note that, every year, the indicator grow with 213160994.784. The analysis of indicator: GDP growth (annual %) during 1971-2016 highlights an average of 5.27 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 17% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 13952.36. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 18% in the World. Time regression analysis reveals a correlation

coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $463.544 * \text{Year} - 909891.736$. From this equation we can note that, every year, the indicator grows with 463.544. The indicator: GDP per capita growth (annual %) during 1971-2016 reveals an average of 4.43 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 13% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2000-2016 highlights an average of 20361.09. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 22% in the World. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 23.76 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 48% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1970-2016 reveals an average of 104.16 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 2% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1970-2016 highlights an average of 97.31 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 2% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 53.88 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 18% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 54.40 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 13% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1970-2016 highlights an average of 54.62 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 3% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 3.04 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 72% in the World.

2.159 Myanmar

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 17429747086.10. Also for GDP (constant 2010 US\$) the region ranks on the first 47% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 5.85 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 15% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 391.27. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 82% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 4.13 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 11% in the World.

Gross capital formation (% of GDP) during 2008-2015 highlights an average of 27.51 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 10% in the World. Time regression analysis reveals a correla

The analysis of indicator: Imports of goods and services (% of GDP) during 2000-2016 reveals an average of 6.40 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 76% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2000-2016 highlights an average of 5.42 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 90% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2000-2016 highlights an average of 36.22 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 98% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 13.62 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 14% in the World.

2.160 Middle East & North Africa (excluding high income)

The study of indicator: GDP (constant 2010 US\$) during 1965-2016 highlights an average of 756517718092.03. Also for GDP (constant 2010 US\$) the region ranks on the first 19% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $24025007796.150 * \text{Year} - 47065260300144.000$. From this equation we can note that, every year, the indicator grow with 24025007796.150. The analysis of indicator: GDP growth (annual %) during 1966-2016 highlights an average of 4.15 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 4% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3125.72. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 58% in the World. The indicator: GDP per capita growth (annual %) during 1966-2016 reveals an average of 1.71 smaller than the World average: 1.88.

Also for GDP per capita growth (annual %) the region ranks on the first 5% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1978-2016 highlights an average of 3294.11. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 57% in the World. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 29.62 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 20% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1965-2016 reveals an average of 28.10 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 72% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1965-2016 highlights an average of 25.94 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 75% in the World.

The indicator: Expense (% of GDP) during 1994-2009 reveals an average of 15.18 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 50% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1994-2009 reveals an average of 20.91 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 33% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1968-2016 highlights an average of 45.81 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 66% in the World.

Inflation, consumer prices (annual %) during 1970-2016 highlights an average of 7.26 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 43% in the World.

2.161 Montenegro

The study of indicator: GDP (constant 2010 US\$) during 1997-2016 highlights an average of 3739773716.04. Also for GDP (constant 2010 US\$) the region ranks on the first 83% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $96750736.634 * \text{Year} - 190390579339.406$. From this equation we can note that, every year, the indicator grows with 96750736.634. The analysis of indicator: GDP growth (annual %) during 1998-2016 highlights an average of 2.34 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 50% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6073.55. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 44% in the World. The indicator: GDP per capita growth (annual %) during 1998-2016 reveals an average of 2.23 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 31% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2007-2016 highlights an average of 7008.56. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 43% in the World. Gross capital formation (% of GDP) during 2000-2016 highlights an average of 22.91 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 33% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2000-2016 reveals an average of 64.88 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 18% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2000-2016 highlights an average of 40.09 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 36% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2000-2016 highlights an average of 69.08 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 17% in the World.

Inflation, consumer prices (annual %) during 2006-2016 highlights an average of 2.77 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 88% in the World.

2.162 Mongolia

The study of indicator: GDP (constant 2010 US\$) during 1981-2016 highlights an average of 5180824232.72. Also for GDP (constant 2010 US\$) the region ranks on the first 74% in the World. The analysis of indicator: GDP growth (annual %) during 1982-2016 highlights an average of 4.69 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 80% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2089.90. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 61% in the World. The indicator: GDP per capita growth (annual %) during 1982-2016 reveals an average of 3.02 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 82% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2010-2016 highlights an average of 3231.82. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 62% in the World. Gross capital formation (% of GDP) during 1981-2016 highlights an average of 39.63 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 23% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1981-2016 reveals an average of 60.76 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 39% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1981-2016 highlights an average of 43.24 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 19% in the World.

The indicator: Expense (% of GDP) during 1992-2013 reveals an average of 18.64 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 60% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1992-2013 reveals an average of 22.09 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 38% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1981-2016 highlights an average of 46.82 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 82% in the World.

Inflation, consumer prices (annual %) during 1993-2016 highlights an average of 25.38 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 72% in the World.

2.163 Northern Mariana Islands

The study of indicator: GDP (constant 2010 US\$) during 2002-2016 highlights an average of 1015965839.54. Also for GDP (constant 2010 US\$) the region ranks on the first 93% in the World. The analysis of indicator: GDP growth (annual %) during 2003-2016 highlights an average of -1.77 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 0% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 17077.45. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 22% in the World. The indicator: GDP per capita growth (annual %) during 2003-2016 reveals an average of -0.30 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 0% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2002-2016 reveals an average of 64.04 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 11% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2002-2016 highlights an average of 66.08 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 9% in the World.

2.164 Mozambique

The study of indicator: GDP (constant 2010 US\$) during 1980-2016 highlights an average of 5638863458.90. Also for GDP (constant 2010 US\$) the region ranks on the first 69% in the World. The analysis of indicator: GDP growth (annual %) during 1981-2016 highlights an average of 5.61 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 36% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 275.85. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 97% in the World. The indicator: GDP per capita growth (annual %) during 1981-2016 reveals an average of 3.03 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 67% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1980-2016 highlights an average of 266.62. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 95% in the World. Gross capital formation (% of GDP) during 1980-2016 highlights an average of 23.47 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 5% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1980-2016 reveals an average of 43.87 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 8% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1980-2016 highlights an average of 18.05 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 43% in the World.

The indicator: Expense (% of GDP) during 2010-2012 reveals an average of 23.36 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 56% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2010-2013 reveals an average of 21.71 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 42% in the World. Time regression analysis reveals a correlation

coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $2.507 * \text{Year} - 5020.783$. From this equation we can note that, every year, the indicator grow with 2.507.

The analysis of indicator: Services, etc., value added (% of GDP) during 1980-2016 highlights an average of 47.12 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 73% in the World.

Inflation, consumer prices (annual %) during 1988-2016 highlights an average of 20.22 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 8% in the World.

2.165 Mauritania

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 2413093409.13. Also for GDP (constant 2010 US\$) the region ranks on the first 82% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.00 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 65% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1105.60. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 83% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.04 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 85% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2003-2015 highlights an average of 1190.31. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 82% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 27.69 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 3% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 51.91 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 17% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 39.45 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 39% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 37.16 smaller than the World average: 65.34. Also

for Services, etc., value added (% of GDP) the region ranks on the first 92% in the World.

Inflation, consumer prices (annual %) during 1986-2016 highlights an average of 5.89 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 57% in the World.

2.166 Mauritius

The study of indicator: GDP (constant 2010 US\$) during 1976-2016 highlights an average of 5946455274.09. Also for GDP (constant 2010 US\$) the region ranks on the first 73% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $262206979.456 * \text{Year} - 517418675720.830$. From this equation we can note that, every year, the indicator grow with 262206979.456. The analysis of indicator: GDP growth (annual %) during 1977-2016 highlights an average of 4.56 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 37% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 5080.19. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 34% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $190.000 * \text{Year} - 374160.704$. From this equation we can note that, every year, the indicator grow with 190.000. The indicator: GDP per capita growth (annual %) during 1977-2016 reveals an average of 3.70 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 17% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2006-2016 highlights an average of 8306.75. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 35% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $278.543 * \text{Year} - 551843.741$. From this equation we can note that, every year, the indicator grow with 278.543. Gross capital formation (% of GDP) during 1976-2016 highlights an average of 25.17 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 91% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1976-2016 reveals an average of 61.07 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 27% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1976-2016 highlights an average of 55.33 bigger than the World average: 20.45.

Also for Exports of goods and services (% of GDP) the region ranks on the first 27% in the World.

The indicator: Expense (% of GDP) during 1976-2016 reveals an average of 20.33 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 44% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1976-2016 reveals an average of 20.34 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 46% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1976-2016 highlights an average of 61.50 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 10% in the World.

Inflation, consumer prices (annual %) during 1964-2016 highlights an average of 7.48 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 64% in the World.

2.167 Malawi

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 3479942380.09. Also for GDP (constant 2010 US\$) the region ranks on the first 78% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.31 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 55% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 365.05. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 98% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.36 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 82% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2002-2016 highlights an average of 420.17. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 96% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $9.738 * \text{Year} - 19144.108$. From this equation we can note that, every year, the indicator grows with 9.738. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 18.33 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 95% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 36.13 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 40% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 24.22 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 45% in the World.

The indicator: Expense (% of GDP) during 2009-2016 reveals an average of 19.10 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 64% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2009-2016 reveals an average of 15.97 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 80% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 40.93 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 62% in the World.

Inflation, consumer prices (annual %) during 1981-2016 highlights an average of 20.41 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 2% in the World.

2.168 Malaysia

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 111658275674.60. Also for GDP (constant 2010 US\$) the region ranks on the first 34% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 6.31 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 28% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 5046.85. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 31% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $171.855 * \text{Year} - 336600.365$. From this equation we can note that, every year, the indicator grow with 171.855. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 3.80 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 36% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 4841.41. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 31% in the World. Time regression analysis reveals a

correlation coefficient value: 0.98 and a value of R Square: 0.95. The equation of linear regression is therefore: $165.283 * \text{Year} - 323741.348$. From this equation we can note that, every year, the indicator grow with 165.283. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 26.10 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 34% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 63.68 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 19% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 71.40 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 10% in the World.

The indicator: Expense (% of GDP) during 1996-2015 reveals an average of 18.66 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 80% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1996-2015 reveals an average of 20.84 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 78% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 38.60 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 75% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 3.05 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 48% in the World.

2.169 North America

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 10201510432316.30. Also for GDP (constant 2010 US\$) the region ranks on the first 5% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $283813841572.574 * \text{Year} - 554020406613962.000$. From this equation we can note that, every year, the indicator grow with 283813841572.574. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.12 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 76% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 34966.63. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 6% in the World. Time regression analysis reveals a correlation

coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $654.614 \cdot \text{Year} - 1266405.655$. From this equation we can note that, every year, the indicator grow with 654.614. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.03 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 70% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 38243.00. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 5% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $669.444 \cdot \text{Year} - 1295958.452$. From this equation we can note that, every year, the indicator grow with 669.444. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 22.19 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 74% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 11.88 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 98% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $0.251 \cdot \text{Year} - 487.574$. From this equation we can note that, every year, the indicator grow with 0.251. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 10.51 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 94% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $0.165 \cdot \text{Year} - 317.463$. From this equation we can note that, every year, the indicator grow with 0.165.

The indicator: Expense (% of GDP) during 1972-2016 reveals an average of 20.93 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 52% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2016 reveals an average of 18.20 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 66% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1997-2015 highlights an average of 76.84 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 7% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 3.82 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 58% in the World.

2.170 Namibia

The study of indicator: GDP (constant 2010 US\$) during 1980-2016 highlights an average of 7741389790.54. Also for GDP (constant 2010 US\$) the region ranks on the first 69% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $289608421.264 * \text{Year} - 570896235894.764$. From this equation we can note that, every year, the indicator grow with 289608421.264. The analysis of indicator: GDP growth (annual %) during 1981-2016 highlights an average of 3.50 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 85% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 4312.61. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 49% in the World. The indicator: GDP per capita growth (annual %) during 1981-2016 reveals an average of 0.96 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 88% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1980-2016 highlights an average of 4212.81. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 49% in the World. Gross capital formation (% of GDP) during 1980-2016 highlights an average of 20.58 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 35% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1980-2016 reveals an average of 53.01 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 15% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1980-2016 highlights an average of 46.21 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 32% in the World.

The indicator: Expense (% of GDP) during 1991-2015 reveals an average of 22.38 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 22% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2015 reveals an average of 30.24 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 21% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1980-2016 highlights an average of 58.85 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 41% in the World.

Inflation, consumer prices (annual %) during 2003-2016 highlights an average of 5.81 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 14% in the World.

2.171 New Caledonia

The analysis of indicator: GDP growth (annual %) during 1966-2000 highlights an average of 4.32 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 80% in the World.

The indicator: GDP per capita growth (annual %) during 1966-2000 reveals an average of 1.75 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 83% in the World.

Gross capital formation (% of GDP) during 1981-1990 highlights an average of 13.28 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 10% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-1999 reveals an average of 30.25 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 54% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-1999 highlights an average of 14.83 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 91% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1990-1997 highlights an average of 75.51 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 5% in the World.

2.172 Niger

The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.63 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 20% in the World.

The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of -0.63 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 61% in the World.

Gross capital formation (% of GDP) during 1960-2014 highlights an average of 16.67 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 14% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 26.37 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 66% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 16.81 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 91% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2006-2016 highlights an average of 42.94 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 97% in the World.

Inflation, consumer prices (annual %) during 1964-2016 highlights an average of 4.54 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 82% in the World.

2.173 Nigeria

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 171985172125.73. Also for GDP (constant 2010 US\$) the region ranks on the first 30% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.05 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 95% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1648.23. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 72% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.45 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 97% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1981-2015 highlights an average of 1537.62. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 68% in the World. Gross capital formation (% of GDP) during 1981-2015 highlights an average of 12.59 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 92% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 19.35 smaller than the World average: 20.32. Also for

Imports of goods and services (% of GDP) the region ranks on the first 100% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 24.34 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 96% in the World.

The indicator: Expense (% of GDP) during 2003-2013 reveals an average of 7.94 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 99% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2003-2013 reveals an average of 9.22 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 99% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1981-2016 highlights an average of 31.32 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 44% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 15.94 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 4% in the World.

2.174 Nicaragua

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 6272564127.63. Also for GDP (constant 2010 US\$) the region ranks on the first 74% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.88 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 22% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1663.04. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 74% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 0.63 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 19% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 1568.03. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 73% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 22.31 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 16% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 40.52 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 23% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 26.62 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 37% in the World.

The indicator: Expense (% of GDP) during 1990-2016 reveals an average of 16.84 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 78% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2016 reveals an average of 14.83 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 74% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1994-2016 highlights an average of 56.30 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 65% in the World.

Inflation, consumer prices (annual %) during 1973-2016 highlights an average of 629.98 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 35% in the World.

2.175 Netherlands

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 534120231595.81. Also for GDP (constant 2010 US\$) the region ranks on the first 24% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $13134286951.284 * \text{Year} - 25576842227556.900$. From this equation we can note that, every year, the indicator grow with 13134286951.284. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.84 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 61% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 35192.59. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 5% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $674.005 * \text{Year} - 1304729.786$. From this equation we can note that, every year, the indicator grow with 674.005. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.12 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 50% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 38796.46. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 5% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $665.439 * \text{Year} - 1287424.363$. From this equation we can note that, every year, the indicator grow with 665.439. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 22.48 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 73% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 51.80 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 13% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 56.70 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 5% in the World.

The indicator: Expense (% of GDP) during 1973-2015 reveals an average of 43.08 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 15% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1973-2015 reveals an average of 41.14 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 15% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1969-2016 highlights an average of 68.34 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 6% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $0.451 * \text{Year} - 830.459$. From this equation we can note that, every year, the indicator grow with 0.451.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 3.45 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 77% in the World.

2.176 Norway

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 264390350527.42. Also for GDP (constant 2010 US\$) the region ranks on the first 29% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $7477583309.986 * \text{Year} - 14601045269725.100$. From this equation we can note that, every year, the indicator grow with

7477583309.986. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.17 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 84% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 59653.40. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 1% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $1386.689 * \text{Year} - 2697084.991$. From this equation we can note that, every year, the indicator grow with 1386.689. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.48 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 75% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1978-2016 highlights an average of 72130.36. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 0% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $1448.160 * \text{Year} - 2819844.863$. From this equation we can note that, every year, the indicator grow with 1448.160. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 27.62 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 24% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 33.49 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 62% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 38.49 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 44% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 34.40 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 16% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 41.69 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 2% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1970-2016 highlights an average of 60.95 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 32% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 4.59 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 33% in the World.

2.177 Nepal

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 8061524019.96. Also for GDP (constant 2010 US\$) the region ranks on the first 64% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.67 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 87% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 391.55. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 93% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.73 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 85% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2001-2016 highlights an average of 572.71. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 91% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $17.277 * \text{Year} - 34127.421$. From this equation we can note that, every year, the indicator grow with 17.277. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 20.97 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 9% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1965-2016 reveals an average of 23.99 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 52% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $0.641 * \text{Year} - 1251.092$. From this equation we can note that, every year, the indicator grow with 0.641. The analysis of indicator: Exports of goods and services (% of GDP) during 1965-2016 highlights an average of 12.68 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 98% in the World.

The indicator: Expense (% of GDP) during 2004-2016 reveals an average of 9.58 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 76% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2016 reveals an average of 12.30 smaller than the World

average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 50% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 40.19 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 77% in the World.

Inflation, consumer prices (annual %) during 1965-2016 highlights an average of 8.22 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 9% in the World.

2.178 Nauru

The study of indicator: GDP (constant 2010 US\$) during 2007-2016 highlights an average of 71000237.41. Also for GDP (constant 2010 US\$) the region ranks on the first 100% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $11058759.619 * \text{Year} - 22173694735.685$. From this equation we can note that, every year, the indicator grow with 11058759.619. The analysis of indicator: GDP growth (annual %) during 2008-2016 highlights an average of 18.04 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 2% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6318.29. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 35% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $787.379 * \text{Year} - 1577493.709$. From this equation we can note that, every year, the indicator grow with 787.379. The indicator: GDP per capita growth (annual %) during 2008-2016 reveals an average of 14.63 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 7% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2012-2016 reveals an average of 88.08 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 2% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2012-2016 highlights an average of 59.52 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 24% in the World.

2.179 New Zealand

The study of indicator: GDP (constant 2010 US\$) during 1977-2016 highlights an average of 109770860342.27. Also for GDP (constant 2010 US\$) the region ranks

on the first 42% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $2758570747.434 * \text{Year} - 5397715636910.060$. From this equation we can note that, every year, the indicator grow with 2758570747.434. The analysis of indicator: GDP growth (annual %) during 1978-2016 highlights an average of 2.47 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 47% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 28623.96. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 13% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $403.399 * \text{Year} - 776763.091$. From this equation we can note that, every year, the indicator grow with 403.399. The indicator: GDP per capita growth (annual %) during 1978-2016 reveals an average of 1.41 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 67% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1998-2016 highlights an average of 24936.04. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 100% in the World. Gross capital formation (% of GDP) during 1971-2016 highlights an average of 23.58 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 51% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1971-2016 reveals an average of 28.13 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 82% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1971-2016 highlights an average of 28.46 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 63% in the World.

The indicator: Expense (% of GDP) during 1972-2016 reveals an average of 24.40 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 18% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2016 reveals an average of 24.55 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 8% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1971-2014 highlights an average of 62.84 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 20% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore:

$0.485 \cdot \text{Year} - 904.457$. From this equation we can note that, every year, the indicator grow with 0.485.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 5.70 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 63% in the World.

2.180 OECD members

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 28225135769668.50. Also for GDP (constant 2010 US\$) the region ranks on the first 1% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $747521000358.459 \cdot \text{Year} - 1457846612942950.000$. From this equation we can note that, every year, the indicator grow with 747521000358.459. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.12 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 72% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 25727.17. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 13% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $500.533 \cdot \text{Year} - 969333.379$. From this equation we can note that, every year, the indicator grow with 500.533. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.22 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 63% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 28341.75. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 15% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $491.975 \cdot \text{Year} - 952163.713$. From this equation we can note that, every year, the indicator grow with 491.975. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 23.74 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 66% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 19.30 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 79% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $0.306 \cdot \text{Year} - 589.925$. From this equation we can note that, every year, the indicator

grow with 0.306. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 18.93 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 60% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.95. The equation of linear regression is therefore: $0.312 * \text{Year} - 602.059$. From this equation we can note that, every year, the indicator grow with 0.312.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 25.86 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 46% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 23.26 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 50% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1997-2015 highlights an average of 72.36 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 12% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 5.00 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 76% in the World.

2.181 Oman

The study of indicator: GDP (constant 2010 US\$) during 1965-2015 highlights an average of 29357268436.22. Also for GDP (constant 2010 US\$) the region ranks on the first 46% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $1327792838.416 * \text{Year} - 2612950480012.080$. From this equation we can note that, every year, the indicator grow with 1327792838.416. The analysis of indicator: GDP growth (annual %) during 1966-2015 highlights an average of 8.93 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 16% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 13928.46. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 23% in the World. The indicator: GDP per capita growth (annual %) during 1966-2015 reveals an average of 4.87 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 83% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2000-2015 highlights an average of 17461.58. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 27% in the World. Gross capital formation (% of GDP)

during 1967-2015 highlights an average of 23.55 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 8% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1967-2016 reveals an average of 35.83 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 58% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1967-2016 highlights an average of 54.44 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 33% in the World.

The indicator: Expense (% of GDP) during 1990-2013 reveals an average of 29.48 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 27% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2013 reveals an average of 34.54 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 3% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1961-2015 highlights an average of 11.38 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 82% in the World.

Inflation, consumer prices (annual %) during 2001-2016 highlights an average of 2.53 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 63% in the World.

2.182 Other small states

The study of indicator: GDP (constant 2010 US\$) during 2000-2016 highlights an average of 283192472742.24. Also for GDP (constant 2010 US\$) the region ranks on the first 32% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $16109502243.334 * \text{Year} - 32064688031872.000$. From this equation we can note that, every year, the indicator grow with 16109502243.334. The analysis of indicator: GDP growth (annual %) during 2001-2016 highlights an average of 5.60 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 62% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 11049.25. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 29% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $386.749 * \text{Year} - 765543.082$. From this equation we can note that, every year, the indicator grow with 386.749. The indicator: GDP per capita

growth (annual %) during 2001-2016 reveals an average of 3.25 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 76% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2004-2015 highlights an average of 11004.69. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 33% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $378.723 * \text{Year} - 750039.020$. From this equation we can note that, every year, the indicator grow with 378.723. Gross capital formation (% of GDP) during 1994-2016 highlights an average of 29.44 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 11% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1994-2016 reveals an average of 50.25 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 30% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1994-2016 highlights an average of 61.73 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 16% in the World.

The indicator: Expense (% of GDP) during 2004-2010 reveals an average of 24.87 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 54% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2004-2010 reveals an average of 36.43 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 23% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2000-2016 highlights an average of 51.72 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 57% in the World.

Inflation, consumer prices (annual %) during 1980-2016 highlights an average of 5.08 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 53% in the World.

2.183 Pakistan

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 86325344760.89. Also for GDP (constant 2010 US\$) the region ranks on the first 39% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $3627730628.240 * \text{Year} - 7125603144180.800$. From this equation we can note that, every year, the indicator grow with

3627730628.240. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 5.18 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 17% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 703.63. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 85% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $15.048 * \text{Year} - 29212.100$. From this equation we can note that, every year, the indicator grows with 15.048. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.47 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 21% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1967-2016 highlights an average of 779.39. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 80% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $15.743 * \text{Year} - 30572.775$. From this equation we can note that, every year, the indicator grows with 15.743. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 17.43 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 93% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1967-2016 reveals an average of 19.31 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 98% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1967-2016 highlights an average of 12.90 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 99% in the World.

The indicator: Expense (% of GDP) during 1997-2011 reveals an average of 16.86 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 78% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1973-2011 reveals an average of 11.70 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 90% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 47.73 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 63% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore:

0.313*Year-575.409. From this equation we can note that, every year, the indicator grow with 0.313.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 8.08 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 30% in the World.

2.184 Panama

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 13958451029.24. Also for GDP (constant 2010 US\$) the region ranks on the first 55% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 5.44 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 21% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 5023.42. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 31% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 3.07 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 24% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 4695.33. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 32% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 31.74 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 3% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 66.24 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 34% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 58.94 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 27% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1970-2016 highlights an average of 69.52 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 22% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 2.79 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 68% in the World.

2.185 Peru

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 80220166938.92. Also for GDP (constant 2010 US\$) the region ranks on the first 41% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.69 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 36% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3695.54. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 49% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.59 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 37% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 3534.26. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 50% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 25.34 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 60% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 19.57 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 89% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 18.86 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 76% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 16.63 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 74% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 16.46 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 72% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 43.77 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 47% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 233.38 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 32% in the World.

2.186 Philippines

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 105874881546.67. Also for GDP (constant 2010 US\$) the region ranks on the first 36% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.28 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 8% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1605.84. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 70% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.77 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 10% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 1727.54. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 65% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 22.51 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 46% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 32.27 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 57% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 29.03 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 59% in the World.

The indicator: Expense (% of GDP) during 1990-2016 reveals an average of 11.92 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 90% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2016 reveals an average of 15.53 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 86% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 45.05 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 49% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 8.88 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 51% in the World.

2.187 Palau

The study of indicator: GDP (constant 2010 US\$) during 1991-2016 highlights an average of 195682435.74. Also for GDP (constant 2010 US\$) the region ranks on the first 99% in the World. The analysis of indicator: GDP growth (annual %) during 1992-2016 highlights an average of 1.21 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 68% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 10198.63. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 32% in the World. The indicator: GDP per capita growth (annual %) during 1992-2016 reveals an average of -0.11 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 66% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2007-2016 highlights an average of 9067.56. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 34% in the World. Gross capital formation (% of GDP) during 2007-2016 highlights an average of 23.35 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 44% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1991-2016 reveals an average of 72.15 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 14% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1991-2016 highlights an average of 38.13 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 15% in the World.

The indicator: Expense (% of GDP) during 2008-2016 reveals an average of 48.67 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 6% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2008-2016 reveals an average of 22.27 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 34% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1992-2016 highlights an average of 79.40 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 9% in the World.

2.188 Papua New Guinea

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 8038559736.74. Also for GDP (constant 2010 US\$) the region ranks on the first 64% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.03 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 57% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1743.69. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 72% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.48 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 73% in the World.

Gross capital formation (% of GDP) during 1960-2004 highlights an average of 22.55 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 67% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1961-2004 reveals an average of 46.85 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 22% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1961-2004 highlights an average of 40.89 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 7% in the World.

The indicator: Expense (% of GDP) during 1990-2016 reveals an average of 15.52 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 62% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2016 reveals an average of 13.30 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 90% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1961-2014 highlights an average of 35.29 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 84% in the World.

Inflation, consumer prices (annual %) during 1972-2016 highlights an average of 7.48 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 15% in the World.

2.189 Poland

The study of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 371882699439.60. Also for GDP (constant 2010 US\$) the region ranks on the first 27% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $14483750228.384 * \text{Year} - 28639069008012.700$. From this equation we can note that, every year, the indicator grow with 14483750228.384. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 3.66 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 50% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 9734.11. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 25% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $384.421 * \text{Year} - 760261.772$. From this equation we can note that, every year, the indicator grow with 384.421. The indicator: GDP per capita growth (annual %) during 1991-2016 reveals an average of 3.68 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 31% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2004-2016 highlights an average of 12089.44. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 27% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $420.243 * \text{Year} - 832598.688$. From this equation we can note that, every year, the indicator grow with 420.243. Gross capital formation (% of GDP) during 1990-2016 highlights an average of 21.05 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 79% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 reveals an average of 34.00 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 35% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $1.192 * \text{Year} - 2352.664$. From this equation we can note that, every year, the indicator grow with 1.192. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 32.93 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 18% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of

linear regression is therefore: $1.201 * \text{Year} - 2371.828$. From this equation we can note that, every year, the indicator grow with 1.201.

The indicator: Expense (% of GDP) during 1994-2015 reveals an average of 19.40 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 30% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1994-2015 reveals an average of 17.93 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 27% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 63.23 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 36% in the World.

Inflation, consumer prices (annual %) during 1971-2016 highlights an average of 31.38 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 92% in the World.

2.190 Pre-demographic dividend

The study of indicator: GDP (constant 2010 US\$) during 1968-2016 highlights an average of 545526504322.19. Also for GDP (constant 2010 US\$) the region ranks on the first 21% in the World. The analysis of indicator: GDP growth (annual %) during 1969-2016 highlights an average of 4.27 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 54% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1086.79. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 82% in the World. The indicator: GDP per capita growth (annual %) during 1969-2016 reveals an average of 1.38 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 79% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2001-2015 highlights an average of 1178.64. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 80% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $42.297 * \text{Year} - 83753.956$. From this equation we can note that, every year, the indicator grow with 42.297. Gross capital formation (% of GDP) during 1985-2016 highlights an average of 16.58 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 72% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1970-2016 reveals an average of 29.95 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 61% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1970-2016 highlights an average of 29.97 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 65% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1981-2016 highlights an average of 38.29 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 70% in the World.

Inflation, consumer prices (annual %) during 1984-2016 highlights an average of 8.37 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 22% in the World.

2.191 Puerto Rico

The study of indicator: GDP (constant 2010 US\$) during 1960-2013 highlights an average of 62768695256.95. Also for GDP (constant 2010 US\$) the region ranks on the first 44% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.95. The equation of linear regression is therefore: $1917378965.964 * \text{Year} - 3746104620630.010$. From this equation we can note that, every year, the indicator grow with 1917378965.964. The analysis of indicator: GDP growth (annual %) during 1961-2013 highlights an average of 3.63 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 92% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 17737.24. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 17% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $425.058 * \text{Year} - 827278.929$. From this equation we can note that, every year, the indicator grow with 425.058. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.84 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 86% in the World.

Gross capital formation (% of GDP) during 1960-2013 highlights an average of 18.23 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 99% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2013 reveals an average of 64.35 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 32% in the

World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2013 highlights an average of 63.70 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 9% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1971-2013 highlights an average of 16.54 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 100% in the World.

No data available

2.193 Portugal

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 150590491303.56. Also for GDP (constant 2010 US\$) the region ranks on the first 38% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $3981980710.243 * \text{Year} - 7765587160659.880$. From this equation we can note that, every year, the indicator grow with 3981980710.243. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.25 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 75% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 15034.11. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 20% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $355.740 * \text{Year} - 692176.515$. From this equation we can note that, every year, the indicator grow with 355.740. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.98 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 46% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 16707.32. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 24% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.91. The equation of linear regression is therefore: $318.861 * \text{Year} - 618782.466$. From this equation we can note that, every year, the indicator grow with 318.861. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 25.23 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 93% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 31.73 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 53% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 25.19 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 36% in the World.

The indicator: Expense (% of GDP) during 1975-2015 reveals an average of 35.22 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 7% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1975-2015 reveals an average of 28.19 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 12% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 71.94 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 9% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.93. The equation of linear regression is therefore: $0.550 * \text{Year} - 1031.176$. From this equation we can note that, every year, the indicator grow with 0.550.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 8.46 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 71% in the World.

2.194 Paraguay

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 10711488507.55. Also for GDP (constant 2010 US\$) the region ranks on the first 61% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $401203322.270 * \text{Year} - 786880716164.832$. From this equation we can note that, every year, the indicator grow with 401203322.270. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.84 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 33% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2323.66. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 60% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.91. The equation of linear regression is therefore: $45.996 * \text{Year} - 89116.864$. From this equation we can note that, every year, the indicator grow with 45.996. The indicator: GDP per capita

growth (annual %) during 1961-2015 reveals an average of 2.50 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 35% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1995-2016 highlights an average of 2781.58. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 61% in the World. Gross capital formation (% of GDP) during 1991-2016 highlights an average of 17.73 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 86% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1991-2016 reveals an average of 45.37 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 50% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1991-2016 highlights an average of 52.18 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 32% in the World.

The indicator: Expense (% of GDP) during 2005-2015 reveals an average of 17.50 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 71% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2005-2015 reveals an average of 20.23 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 62% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1991-2016 highlights an average of 47.45 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 84% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 11.11 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 28% in the World.

2.195 West Bank and Gaza

The study of indicator: GDP (constant 2010 US\$) during 1994-2016 highlights an average of 7522568568.43. Also for GDP (constant 2010 US\$) the region ranks on the first 75% in the World. The analysis of indicator: GDP growth (annual %) during 1995-2016 highlights an average of 4.74 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 30% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2181.88. Also for GDP per capita (constant 2010 US\$) the region ranks

on the first 71% in the World. The indicator: GDP per capita growth (annual %) during 1995-2016 reveals an average of 1.66 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 58% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1994-2016 highlights an average of 2407.38. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 67% in the World. Gross capital formation (% of GDP) during 1994-2016 highlights an average of 27.20 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 64% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1994-2016 reveals an average of 66.82 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 24% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1994-2016 highlights an average of 16.46 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 89% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1994-2015 highlights an average of 65.66 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 18% in the World.

Inflation, consumer prices (annual %) during 1997-2016 highlights an average of 3.59 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 87% in the World.

2.196 Pacific island small states

The study of indicator: GDP (constant 2010 US\$) during 1981-2016 highlights an average of 5274527732.23. Also for GDP (constant 2010 US\$) the region ranks on the first 80% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $112967578.442 * \text{Year} - 220491177784.834$. From this equation we can note that, every year, the indicator grows with 112967578.442. The analysis of indicator: GDP growth (annual %) during 1982-2016 highlights an average of 2.11 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 63% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2713.24. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 67% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.91. The equation of linear regression is therefore: $21.987 * \text{Year} - 41226.973$. From this equation we can note

that, every year, the indicator grow with 21.987. The indicator: GDP per capita growth (annual %) during 1982-2016 reveals an average of 0.67 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 69% in the World.

Gross capital formation (% of GDP) during 1980-2012 highlights an average of 17.42 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 80% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1980-2016 reveals an average of 60.06 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 22% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1980-2016 highlights an average of 44.70 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 62% in the World.

The indicator: Expense (% of GDP) during 2010-2013 reveals an average of 27.37 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 38% in the World. Time regression analysis reveals a correlation coefficient value. The analysis of: Revenue, excluding grants (% of GDP) during 2010-2013 reveals an average of 25.37 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 37% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $1.771 * \text{Year} - 3537.696$. From this equation we can note that, every year, the indicator grow with 1.771.

The analysis of indicator: Services, etc., value added (% of GDP) during 1979-2016 highlights an average of 61.61 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 25% in the World.

2.197 Post-demographic dividend

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 27046745795316.50. Also for GDP (constant 2010 US\$) the region ranks on the first 2% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $703014770824.709 * \text{Year} - 1370546618604200.000$. From this equation we can note that, every year, the indicator grow with 703014770824.709. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.06 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 73% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 27558.24. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 10% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $573.057 \cdot \text{Year} - 1111679.245$. From this equation we can note that, every year, the indicator grow with 573.057. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.36 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 58% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 30487.03. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 12% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $576.406 \cdot \text{Year} - 1118289.803$. From this equation we can note that, every year, the indicator grow with 576.406. Gross capital formation (% of GDP) during 1970-2016 highlights an average of 23.89 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 68% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 20.41 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 77% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $0.306 \cdot \text{Year} - 588.611$. From this equation we can note that, every year, the indicator grow with 0.306. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 20.15 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 57% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $0.313 \cdot \text{Year} - 602.647$. From this equation we can note that, every year, the indicator grow with 0.313.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 25.86 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 49% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 23.32 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 52% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1997-2015 highlights an average of 73.01 bigger than the World average: 65.34. Also for

Services, etc., value added (% of GDP) the region ranks on the first 11% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 4.45 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 73% in the World.

2.198 French Polynesia

The analysis of indicator: GDP growth (annual %) during 1966-2000 highlights an average of 4.37 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 55% in the World.

The indicator: GDP per capita growth (annual %) during 1966-2000 reveals an average of 1.62 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 66% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1991-2000 reveals an average of 25.68 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 82% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1991-2000 highlights an average of 3.44 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 100% in the World.

2.199 Qatar

The study of indicator: GDP (constant 2010 US\$) during 2000-2016 highlights an average of 98379110312.03. Also for GDP (constant 2010 US\$) the region ranks on the first 42% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $9997372392.475 * \text{Year} - 19976344653778.400$. From this equation we can note that, every year, the indicator grow with 9997372392.475. The analysis of indicator: GDP growth (annual %) during 2001-2016 highlights an average of 10.44 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 60% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 65974.51. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 2% in the World. The indicator: GDP per capita growth (annual %) during 2001-2016 reveals an average of 0.62 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 89% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2004-2015 highlights an average of 62551.12. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 2% in the World. Gross capital formation (% of GDP)

during 1994-2016 highlights an average of 33.34 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 4% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1994-2016 reveals an average of 31.68 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 47% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1994-2016 highlights an average of 59.48 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 25% in the World.

The indicator: Expense (% of GDP) during 2004-2010 reveals an average of 19.13 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 73% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2004-2010 reveals an average of 40.23 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 17% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2000-2016 highlights an average of 39.51 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 87% in the World.

Inflation, consumer prices (annual %) during 1980-2016 highlights an average of 3.68 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 39% in the World.

2.200 Romania

The study of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 140075010488.22. Also for GDP (constant 2010 US\$) the region ranks on the first 40% in the World. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 1.96 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 23% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6608.63. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 34% in the World. The indicator: GDP per capita growth (annual %) during 1991-2016 reveals an average of 2.61 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 10% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2016 highlights an average of 6495.28. Also for GNI per capita (constant 2010 US\$) the

region ranks on the first 35% in the World. Gross capital formation (% of GDP) during 1981-2016 highlights an average of 20.92 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 40% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 reveals an average of 37.07 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 45% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 30.73 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 34% in the World.

The indicator: Expense (% of GDP) during 1981-2015 reveals an average of 33.46 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 34% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1981-2015 reveals an average of 33.81 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 28% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1981-2016 highlights an average of 38.43 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 38% in the World.

Inflation, consumer prices (annual %) during 1991-2016 highlights an average of 51.78 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 99% in the World.

2.201 Russian Federation

The study of indicator: GDP (constant 2010 US\$) during 1989-2016 highlights an average of 1272700503201.38. Also for GDP (constant 2010 US\$) the region ranks on the first 19% in the World. The analysis of indicator: GDP growth (annual %) during 1990-2016 highlights an average of 0.69 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 90% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 8748.54. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 30% in the World. The indicator: GDP per capita growth (annual %) during 1990-2016 reveals an average of 0.73 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 81% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2016 highlights an average of 8498.33. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 30% in the World. Gross capital formation (% of GDP) during 1989-2016 highlights an average of 23.69 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 49% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1989-2016 reveals an average of 22.99 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 94% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1989-2016 highlights an average of 31.13 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 65% in the World.

The indicator: Expense (% of GDP) during 1994-2016 reveals an average of 21.67 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 20% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1994-2016 reveals an average of 24.08 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 40% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1989-2016 highlights an average of 55.64 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 39% in the World.

Inflation, consumer prices (annual %) during 1993-2016 highlights an average of 73.04 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 13% in the World.

2.202 Rwanda

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 2805913644.78. Also for GDP (constant 2010 US\$) the region ranks on the first 78% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.66 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 14% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 394.62. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 92% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.00 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 22% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 410.92. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 90% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 14.63 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 32% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 22.35 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 63% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 10.44 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 93% in the World.

The indicator: Expense (% of GDP) during 1990-2016 reveals an average of 3.51 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 60% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1973-2016 reveals an average of 4.44 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 54% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2005-2016 highlights an average of 51.29 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 81% in the World.

Inflation, consumer prices (annual %) during 1967-2016 highlights an average of 7.12 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 18% in the World.

2.203 South Asia

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 858794797231.96. Also for GDP (constant 2010 US\$) the region ranks on the first 13% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 5.20 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 9% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 657.44. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 77% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 3.10 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 8% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 655.30. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 76% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 24.11 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 25% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 13.81 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 92% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 11.04 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 90% in the World.

The indicator: Expense (% of GDP) during 1974-2013 reveals an average of 14.43 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 84% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1974-2013 reveals an average of 12.36 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 91% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 41.00 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 71% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.93. The equation of linear regression is therefore: $0.384 * \text{Year} - 721.678$. From this equation we can note that, every year, the indicator grows with 0.384.

Inflation, consumer prices (annual %) during 1965-2016 highlights an average of 7.71 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 27% in the World.

2.204 Saudi Arabia

The study of indicator: GDP (constant 2010 US\$) during 1968-2016 highlights an average of 358492916892.52. Also for GDP (constant 2010 US\$) the region ranks on the first 26% in the World. The analysis of indicator: GDP growth (annual %) during 1969-2016 highlights an average of 5.31 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 71% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 22485.13. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 21% in the World. The indicator: GDP per capita growth (annual

%) during 1969-2016 reveals an average of 1.47 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 83% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2000-2016 highlights an average of 19762.10. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 24% in the World. Gross capital formation (% of GDP) during 1968-2016 highlights an average of 33.45 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 16% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1968-2016 reveals an average of 29.98 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 69% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1968-2016 highlights an average of 47.32 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 50% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1968-2016 highlights an average of 40.12 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 72% in the World.

Inflation, consumer prices (annual %) during 1964-2016 highlights an average of 3.71 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 34% in the World.

2.205 Sudan

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 28419164169.03. Also for GDP (constant 2010 US\$) the region ranks on the first 47% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.96 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 22% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1012.81. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 75% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.53 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 42% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1965-2016 highlights an average of 962.40. Also for GNI per capita (constant 2010 US\$) the

region ranks on the first 75% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 14.37 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 79% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 15.97 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 100% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 11.56 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 98% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 45.88 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 55% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 28.29 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 3% in the World.

2.206 Senegal

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 7345230998.89. Also for GDP (constant 2010 US\$) the region ranks on the first 67% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.93 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 10% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 939.90. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 85% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 0.08 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 16% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1968-2016 highlights an average of 900.02. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 82% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 16.17 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 41% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 35.24 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 42% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 25.88 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 57% in the World.

The indicator: Expense (% of GDP) during 1999-2016 reveals an average of 10.79 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 38% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1996-2016 reveals an average of 12.49 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 42% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1980-2016 highlights an average of 58.26 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 49% in the World.

Inflation, consumer prices (annual %) during 1968-2016 highlights an average of 4.94 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 67% in the World.

2.207 Singapore

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 92618776497.53. Also for GDP (constant 2010 US\$) the region ranks on the first 35% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 7.43 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 66% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 22952.94. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 4% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $934.656 * \text{Year} - 1835143.510$. From this equation we can note that, every year, the indicator grow with 934.656. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 5.11 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 71% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1975-2016 highlights an average of 28536.94. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 6% in the World. Time regression analysis reveals a

correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $1058.543 \cdot \text{Year} - 2083785.754$. From this equation we can note that, every year, the indicator grow with 1058.543. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 31.55 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 38% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 162.19 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 1% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 168.52 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 1% in the World.

The indicator: Expense (% of GDP) during 1972-2016 reveals an average of 15.60 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 86% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2016 reveals an average of 23.08 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 60% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 68.63 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 13% in the World.

Inflation, consumer prices (annual %) during 1961-2015 highlights an average of 2.62 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 90% in the World.

2.208 Solomon Islands

The study of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 605691567.83. Also for GDP (constant 2010 US\$) the region ranks on the first 94% in the World. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 3.30 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 49% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1351.44. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 82% in the World. The indicator: GDP per capita growth (annual %) during 1991-2016 reveals an average of 0.73 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 65% in the World.

Gross capital formation (% of GDP) during 1980-2006 highlights an average of 11.95 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 94% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1981-2015 reveals an average of 59.67 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 29% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1981-2015 highlights an average of 37.39 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 26% in the World.

The indicator: Expense (% of GDP) during 2011-2016 reveals an average of 33.42 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 10% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2011-2016 reveals an average of 34.00 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 12% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1990-2006 highlights an average of 49.10 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 49% in the World.

Inflation, consumer prices (annual %) during 1972-2015 highlights an average of 9.42 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 89% in the World.

2.209 Sierra Leone

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 1731115249.98. Also for GDP (constant 2010 US\$) the region ranks on the first 86% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.72 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 12% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 416.49. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 98% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 0.57 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 14% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2001-2016 highlights an average of 401.37. Also for GNI per capita (constant 2010 US\$) the

region ranks on the first 96% in the World. Gross capital formation (% of GDP) during 1980-2016 highlights an average of 12.11 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 81% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1964-2016 reveals an average of 30.35 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 30% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1964-2016 highlights an average of 21.56 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 73% in the World.

The indicator: Expense (% of GDP) during 1999-2014 reveals an average of 16.94 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 96% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2014 reveals an average of 9.44 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 98% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1964-2016 highlights an average of 35.43 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 100% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 23.12 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 7% in the World.

2.210 El Salvador

The study of indicator: GDP (constant 2010 US\$) during 1965-2016 highlights an average of 14718564195.96. Also for GDP (constant 2010 US\$) the region ranks on the first 62% in the World. The analysis of indicator: GDP growth (annual %) during 1966-2016 highlights an average of 2.37 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 57% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2818.91. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 62% in the World. The indicator: GDP per capita growth (annual %) during 1966-2016 reveals an average of 1.00 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 46% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1965-2016 highlights an average of 2754.92. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 63% in the World. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 15.83 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 96% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1965-2016 reveals an average of 35.72 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 52% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1965-2016 highlights an average of 25.35 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 67% in the World.

The indicator: Expense (% of GDP) during 1998-2015 reveals an average of 36.89 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 75% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1998-2015 reveals an average of 37.35 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 78% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1990-2016 highlights an average of 58.55 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 39% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $0.302 * \text{Year} - 545.406$. From this equation we can note that, every year, the indicator grows with 0.302.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 7.61 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 71% in the World.

2.211 San Marino

The study of indicator: GDP (constant 2010 US\$) during 1997-2016 highlights an average of 2019446312.78. Also for GDP (constant 2010 US\$) the region ranks on the first 89% in the World. The analysis of indicator: GDP growth (annual %) during 1998-2016 highlights an average of 0.59 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 85% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 68065.10. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 4% in the World. The indicator: GDP per capita growth (annual

%) during 1998-2016 reveals an average of -0.60 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 74% in the World.

The indicator: Expense (% of GDP) during 2002-2016 reveals an average of 30.94 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 4% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2002-2016 reveals an average of 31.94 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 2% in the World.

Inflation, consumer prices (annual %) during 2004-2016 highlights an average of 1.93 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 72% in the World.

2.212 Somalia

The analysis of indicator: GDP growth (annual %) during 1961-1990 highlights an average of 2.51 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 87% in the World.

The indicator: GDP per capita growth (annual %) during 1961-1990 reveals an average of -0.82 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 82% in the World.

Gross capital formation (% of GDP) during 1960-1990 highlights an average of 19.86 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 81% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 24.43 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 17% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 9.43 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 93% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-1986 highlights an average of 25.60 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 98% in the World.

2.213 Serbia

The study of indicator: GDP (constant 2010 US\$) during 1995-2016 highlights an average of 33640920266.11. Also for GDP (constant 2010 US\$) the region ranks on the first 56% in the World. The analysis of indicator: GDP growth (annual %)

during 1996-2016 highlights an average of 2.72 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 52% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 4575.86. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 51% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $147.663 * \text{Year} - 291561.352$. From this equation we can note that, every year, the indicator grow with 147.663. The indicator: GDP per capita growth (annual %) during 1996-2016 reveals an average of 3.09 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 22% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1997-2016 highlights an average of 4608.17. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 52% in the World. Gross capital formation (% of GDP) during 1995-2016 highlights an average of 19.89 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 82% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1995-2016 reveals an average of 41.82 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 23% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1995-2016 highlights an average of 27.17 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 20% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $1.714 * \text{Year} - 3410.357$. From this equation we can note that, every year, the indicator grow with 1.714.

The indicator: Expense (% of GDP) during 2007-2012 reveals an average of 38.07 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 15% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2007-2012 reveals an average of 36.68 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 20% in the World. Time regression analysis reveals a correlation coefficient value: -0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $-0.834 * \text{Year} + 1712.751$. From this equation we can note that, every year, the indicator decreases with 0.834.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 55.37 smaller than the World average: 65.34. Also

for Services, etc., value added (% of GDP) the region ranks on the first 44% in the World.

Inflation, consumer prices (annual %) during 1995-2016 highlights an average of 26.02 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 62% in the World.

2.214 Sub-Saharan Africa (excluding high income)

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 725482270744.39. Also for GDP (constant 2010 US\$) the region ranks on the first 18% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.53 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 82% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1325.46. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 79% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 0.78 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 91% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1981-2015 highlights an average of 1269.37. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 78% in the World. Gross capital formation (% of GDP) during 1981-2016 highlights an average of 17.98 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 66% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 27.77 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 65% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 27.22 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 60% in the World.

The indicator: Expense (% of GDP) during 2003-2013 reveals an average of 20.53 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 65% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2003-2013 reveals an average of 21.82 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 59% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1981-2016 highlights an average of 46.89 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 52% in the World.

Inflation, consumer prices (annual %) during 1974-2016 highlights an average of 9.51 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 19% in the World.

2.215 South Sudan

The study of indicator: GDP (constant 2010 US\$) during 2008-2015 highlights an average of 11921692462.20. Also for GDP (constant 2010 US\$) the region ranks on the first 76% in the World. The analysis of indicator: GDP growth (annual %) during 2009-2015 highlights an average of -4.29 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 98% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1150.34. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 92% in the World. The indicator: GDP per capita growth (annual %) during 2009-2015 reveals an average of -7.64 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 98% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2008-2015 highlights an average of 909.24. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 90% in the World. Gross capital formation (% of GDP) during 2008-2015 highlights an average of 11.17 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 98% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2008-2015 reveals an average of 37.18 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 25% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2008-2015 highlights an average of 38.76 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 98% in the World.

Inflation, consumer prices (annual %) during 2009-2016 highlights an average of 66.59 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 0% in the World.

2.216 Sub-Saharan Africa

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 726020837733.17. Also for GDP (constant 2010 US\$) the region ranks on the first 18% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.53 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 82% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1326.19. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 79% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 0.78 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 90% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1981-2015 highlights an average of 1270.11. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 77% in the World. Gross capital formation (% of GDP) during 1981-2016 highlights an average of 17.99 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 66% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 27.80 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 64% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 27.22 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 61% in the World.

The indicator: Expense (% of GDP) during 2003-2013 reveals an average of 20.53 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 64% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2003-2013 reveals an average of 21.83 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 57% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1981-2016 highlights an average of 46.93 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 53% in the World.

Inflation, consumer prices (annual %) during 1971-2016 highlights an average of 9.13 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 21% in the World.

2.217 Small states

The study of indicator: GDP (constant 2010 US\$) during 1997-2016 highlights an average of 325759202000.97. Also for GDP (constant 2010 US\$) the region ranks on the first 29% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $16212517018.143 * \text{Year} - 32204656194902.900$. From this equation we can note that, every year, the indicator grow with 16212517018.143. The analysis of indicator: GDP growth (annual %) during 1998-2016 highlights an average of 4.72 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 72% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 9578.26. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 30% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $306.814 * \text{Year} - 606044.886$. From this equation we can note that, every year, the indicator grow with 306.814. The indicator: GDP per capita growth (annual %) during 1998-2016 reveals an average of 2.84 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 77% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2004-2015 highlights an average of 9939.40. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 34% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $323.565 * \text{Year} - 640264.854$. From this equation we can note that, every year, the indicator grow with 323.565. Gross capital formation (% of GDP) during 1994-2016 highlights an average of 28.35 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 12% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1994-2016 reveals an average of 50.34 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 31% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1994-2016 highlights an average of 59.34 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 17% in the World.

The indicator: Expense (% of GDP) during 2004-2010 reveals an average of 24.98 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 53% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2004-2010 reveals an average of 34.55 bigger than the World

average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 26% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2000-2016 highlights an average of 53.85 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 48% in the World.

Inflation, consumer prices (annual %) during 1977-2016 highlights an average of 5.13 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 58% in the World.

2.218 Sao Tome and Principe

The study of indicator: GDP (constant 2010 US\$) during 2000-2016 highlights an average of 179998904.67. Also for GDP (constant 2010 US\$) the region ranks on the first 98% in the World. Time regression analysis reveals a correlation coefficient value: 1.00 and a value of R Square: 0.99. The equation of linear regression is therefore: $8961855.676 * \text{Year} - 17815407291.828$. From this equation we can note that, every year, the indicator grow with 8961855.676. The analysis of indicator: GDP growth (annual %) during 2001-2016 highlights an average of 4.97 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 29% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1057.11. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 84% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.99. The equation of linear regression is therefore: $29.023 * \text{Year} - 57221.968$. From this equation we can note that, every year, the indicator grow with 29.023. The indicator: GDP per capita growth (annual %) during 2001-2016 reveals an average of 2.60 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 45% in the World.

The indicator: Expense (% of GDP) during 2002-2012 reveals an average of 22.68 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 77% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2002-2012 reveals an average of 20.17 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 83% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2008-2016 highlights an average of 70.57 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 19% in the World.

Inflation, consumer prices (annual %) during 1997-2016 highlights an average of 16.27 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 23% in the World.

2.219 Suriname

The study of indicator: GDP (constant 2010 US\$) during 1975-2016 highlights an average of 3156733139.10. Also for GDP (constant 2010 US\$) the region ranks on the first 84% in the World. The analysis of indicator: GDP growth (annual %) during 1976-2016 highlights an average of 1.35 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 99% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 7042.43. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 41% in the World. The indicator: GDP per capita growth (annual %) during 1976-2016 reveals an average of 0.28 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 99% in the World.

Gross capital formation (% of GDP) during 1960-2014 highlights an average of 30.62 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 0% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 50.08 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 29% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 45.25 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 21% in the World.

The indicator: Expense (% of GDP) during 2001-2012 reveals an average of 24.45 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 63% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2001-2012 reveals an average of 25.10 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 47% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 54.15 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 55% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 26.40 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 1% in the World.

2.220 Slovak Republic

The study of indicator: GDP (constant 2010 US\$) during 1992-2016 highlights an average of 70791100179.05. Also for GDP (constant 2010 US\$) the region ranks on the first 45% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $2802387143.615 * \text{Year} - 5545192735625.340$. From this equation we can note that, every year, the indicator grow with 2802387143.615. The analysis of indicator: GDP growth (annual %) during 1993-2016 highlights an average of 4.06 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 42% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 13139.29. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 22% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $513.105 * \text{Year} - 1015123.772$. From this equation we can note that, every year, the indicator grow with 513.105. The indicator: GDP per capita growth (annual %) during 1993-2016 reveals an average of 3.96 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 25% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2004-2015 highlights an average of 15766.68. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 26% in the World. Gross capital formation (% of GDP) during 1990-2016 highlights an average of 27.51 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 57% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 reveals an average of 69.84 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 5% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 67.30 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 3% in the World.

The indicator: Expense (% of GDP) during 1995-2015 reveals an average of 40.73 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 12% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1995-2015 reveals an average of 36.20 bigger than the World

average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 7% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 60.23 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 42% in the World.

Inflation, consumer prices (annual %) during 1994-2016 highlights an average of 5.06 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 91% in the World.

2.221 Slovenia

The study of indicator: GDP (constant 2010 US\$) during 1995-2016 highlights an average of 42578248988.90. Also for GDP (constant 2010 US\$) the region ranks on the first 52% in the World. The analysis of indicator: GDP growth (annual %) during 1996-2016 highlights an average of 2.57 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 46% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 21064.79. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 19% in the World. The indicator: GDP per capita growth (annual %) during 1996-2016 reveals an average of 2.39 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 27% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2004-2015 highlights an average of 22998.34. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 22% in the World. Gross capital formation (% of GDP) during 1995-2016 highlights an average of 25.19 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 85% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1995-2016 reveals an average of 59.04 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 13% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1995-2016 highlights an average of 59.95 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 7% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $1.700 * \text{Year} - 3349.629$. From this equation we can note that, every year, the indicator grows with 1.700.

The indicator: Expense (% of GDP) during 2002-2015 reveals an average of 41.56 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 11% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2002-2015 reveals an average of 38.40 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 11% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1995-2016 highlights an average of 63.49 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 32% in the World.

Inflation, consumer prices (annual %) during 1993-2016 highlights an average of 6.51 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 85% in the World.

2.222 Sweden

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 320092772941.95. Also for GDP (constant 2010 US\$) the region ranks on the first 27% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.97. The equation of linear regression is therefore: $6964551454.745 * \text{Year} - 13525435519090.600$. From this equation we can note that, every year, the indicator grow with 6964551454.745. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 2.59 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 44% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 36648.57. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 3% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $654.211 * \text{Year} - 1263922.512$. From this equation we can note that, every year, the indicator grow with 654.211. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.07 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 44% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 39831.84. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 2% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $703.403 * \text{Year} - 1362049.900$. From this equation we can note that, every year, the indicator grow with 703.403. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 24.77 smaller than the

World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 43% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 30.48 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 51% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 33.42 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 28% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 34.32 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 35% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 34.08 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 31% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1980-2016 highlights an average of 67.38 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 11% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 4.49 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 64% in the World.

2.223 Swaziland

The study of indicator: GDP (constant 2010 US\$) during 1970-2016 highlights an average of 2533406024.15. Also for GDP (constant 2010 US\$) the region ranks on the first 82% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $108406348.833 * \text{Year} - 213520447199.147$. From this equation we can note that, every year, the indicator grows with 108406348.833. The analysis of indicator: GDP growth (annual %) during 1971-2016 highlights an average of 5.22 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 79% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2586.46. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 60% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.98. The equation of linear regression is therefore: $64.672 * \text{Year} - 126304.877$. From this equation we can note that, every year, the indicator grows with 64.672. The indicator: GDP per capita growth (annual %) during 1971-2016 reveals an average of 2.71 bigger than the

World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 82% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2016 highlights an average of 3334.67. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 59% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 21.90 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 97% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 71.27 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 28% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 63.21 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 22% in the World.

The indicator: Expense (% of GDP) during 1999-2012 reveals an average of 21.49 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 62% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1999-2012 reveals an average of 23.62 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 36% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 43.67 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 77% in the World.

Inflation, consumer prices (annual %) during 1966-2016 highlights an average of 9.44 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 11% in the World.

2.224 Sint Maarten (Dutch part)

2.225 Seychelles

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 541539934.52. Also for GDP (constant 2010 US\$) the region ranks on the first 91% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $19735217.255 * \text{Year} - 38692071967.537$. From this equation we can note that, every year, the indicator grows with 19735217.255. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.59

bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 24% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 7187.41. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 28% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $190.411 * \text{Year} - 371349.832$. From this equation we can note that, every year, the indicator grow with 190.411. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 3.07 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 26% in the World.

Gross capital formation (% of GDP) during 1976-2015 highlights an average of 28.95 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 12% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1976-2014 reveals an average of 74.06 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 4% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1976-2014 highlights an average of 42.80 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 6% in the World.

The indicator: Expense (% of GDP) during 1985-2016 reveals an average of 29.59 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 14% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1985-2016 reveals an average of 31.28 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 6% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1976-2014 highlights an average of 86.57 bigger than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 4% in the World.

Inflation, consumer prices (annual %) during 1971-2016 highlights an average of 7.00 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 96% in the World.

2.226 Syrian Arab Republic

The analysis of indicator: GDP growth (annual %) during 1961-2007 highlights an average of 5.80 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 56% in the World.

The indicator: GDP per capita growth (annual %) during 1961-2007 reveals an average of 2.57 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 77% in the World.

Gross capital formation (% of GDP) during 1960-2007 highlights an average of 20.93 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 37% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2007 reveals an average of 29.88 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 57% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2007 highlights an average of 23.61 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 45% in the World.

The indicator: Expense (% of GDP) during 1998-2007 reveals an average of 17.62 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 78% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2007 reveals an average of 23.52 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 61% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1985-2007 highlights an average of 45.58 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 68% in the World.

Inflation, consumer prices (annual %) during 1960-2012 highlights an average of 9.68 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 2% in the World.

2.227 Turks and Caicos Islands

No data available

2.228 Chad

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 4519964172.46. Also for GDP (constant 2010 US\$) the region ranks on the first 72% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.58 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 100% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 622.13. Also for GDP per capita (constant 2010 US\$) the region ranks

on the first 90% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 0.69 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 100% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2007-2016 highlights an average of 835.00. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 86% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 17.60 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 45% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 31.82 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 55% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 20.73 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 53% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 45.14 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 100% in the World.

Inflation, consumer prices (annual %) during 1984-2015 highlights an average of 4.01 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 32% in the World.

2.229 East Asia & Pacific (IDA & IBRD countries)

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 2812254168782.24. Also for GDP (constant 2010 US\$) the region ranks on the first 8% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 7.15 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 11% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1565.92. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 50% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 5.57 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 7% in the World.

Gross capital formation (% of GDP) during 1960-2014 highlights an average of 33.82 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 6% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 17.10 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 89% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 18.57 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 69% in the World.

The analysis of: Revenue, excluding grants (% of GDP) during 2005-2014 reveals an average of 11.82 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 88% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 34.52 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 79% in the World.

Inflation, consumer prices (annual %) during 1987-2016 highlights an average of 5.35 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 49% in the World.

2.230 Europe & Central Asia (IDA & IBRD countries)

The study of indicator: GDP (constant 2010 US\$) during 1989-2016 highlights an average of 2958278127994.85. Also for GDP (constant 2010 US\$) the region ranks on the first 11% in the World. The analysis of indicator: GDP growth (annual %) during 1990-2016 highlights an average of 1.83 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 72% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6735.70. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 37% in the World. The indicator: GDP per capita growth (annual %) during 1990-2016 reveals an average of 1.58 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 60% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2016 highlights an average of 6634.32. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 38% in the World. Gross capital formation (% of GDP) during 1989-2016 highlights an average of 24.07 smaller than the World average:

25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 47% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1989-2016 reveals an average of 29.55 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 67% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1989-2016 highlights an average of 31.13 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 46% in the World.

The indicator: Expense (% of GDP) during 1994-2015 reveals an average of 17.13 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 39% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1994-2015 reveals an average of 17.66 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 42% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1989-2016 highlights an average of 55.04 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 40% in the World.

Inflation, consumer prices (annual %) during 1994-2016 highlights an average of 17.77 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 62% in the World.

2.231 Togo

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 2032860565.74. Also for GDP (constant 2010 US\$) the region ranks on the first 84% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $52349764.993 * \text{Year} - 102038472240.887$. From this equation we can note that, every year, the indicator grows with 52349764.993. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.87 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 19% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 528.95. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 96% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.00 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 40% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2012 highlights an average of 500.19. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 98% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 19.09 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 56% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 47.37 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 19% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 40.18 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 30% in the World.

The indicator: Expense (% of GDP) during 2004-2016 reveals an average of 16.52 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 54% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2004-2016 reveals an average of 16.87 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 44% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 42.71 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 94% in the World.

Inflation, consumer prices (annual %) during 1967-2016 highlights an average of 5.27 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 67% in the World.

2.232 Thailand

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 154885630426.43. Also for GDP (constant 2010 US\$) the region ranks on the first 31% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $7210101572.186 * \text{Year} - 14178796295078.500$. From this equation we can note that, every year, the indicator grows with 7210101572.186. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 6.05 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 44% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2585.86. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 50% in the World. Time regression analysis reveals a correlation

coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $98.980 \cdot \text{Year} - 194186.625$. From this equation we can note that, every year, the indicator grow with 98.980. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 4.31 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 30% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 2509.59. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 51% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.95. The equation of linear regression is therefore: $94.040 \cdot \text{Year} - 184442.529$. From this equation we can note that, every year, the indicator grow with 94.040. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 26.95 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 59% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 38.22 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 26% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $1.007 \cdot \text{Year} - 1963.226$. From this equation we can note that, every year, the indicator grow with 1.007. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 38.28 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 9% in the World.

The indicator: Expense (% of GDP) during 1972-2016 reveals an average of 15.02 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 58% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2016 reveals an average of 16.64 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 58% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 49.89 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 65% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 4.35 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 80% in the World.

2.233 Tajikistan

The study of indicator: GDP (constant 2010 US\$) during 1985-2016 highlights an average of 4916535043.46. Also for GDP (constant 2010 US\$) the region ranks on the first 79% in the World. The analysis of indicator: GDP growth (annual %) during 1986-2016 highlights an average of 1.58 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 8% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 779.00. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 87% in the World. The indicator: GDP per capita growth (annual %) during 1986-2016 reveals an average of -0.55 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 12% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2013 highlights an average of 680.00. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 84% in the World. Gross capital formation (% of GDP) during 1985-2013 highlights an average of 22.72 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 79% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1988-2015 reveals an average of 60.38 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 47% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1988-2015 highlights an average of 39.53 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 97% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1985-2015 highlights an average of 37.98 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 88% in the World.

Inflation, consumer prices (annual %) during 2001-2016 highlights an average of 11.19 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 18% in the World.

2.234 Turkmenistan

The study of indicator: GDP (constant 2010 US\$) during 1987-2016 highlights an average of 16587535265.10. Also for GDP (constant 2010 US\$) the region ranks on the first 57% in the World. The analysis of indicator: GDP growth (annual %) during 1988-2016 highlights an average of 5.55 bigger than the World average:

3.53. Also for GDP growth (annual %) the region ranks on the first 13% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3498.90. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 45% in the World. The indicator: GDP per capita growth (annual %) during 1988-2016 reveals an average of 3.73 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 13% in the World.

Gross capital formation (% of GDP) during 1987-2012 highlights an average of 32.07 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 4% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1991-2012 reveals an average of 57.33 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 47% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1991-2012 highlights an average of 68.73 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 11% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1987-2010 highlights an average of 34.19 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 99% in the World.

2.235 Latin America & the Caribbean (IDA & IBRD countries)

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 2903348954230.42. Also for GDP (constant 2010 US\$) the region ranks on the first 10% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $88417416819.050 * \text{Year} - 172870475682040.000$. From this equation we can note that, every year, the indicator grows with 88417416819.050. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.67 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 92% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6549.68. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 38% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $93.726 * \text{Year} - 179777.610$. From this equation we can note that, every year, the indicator grows with 93.726. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 1.68 smaller than the

World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 92% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 6394.40. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 40% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $90.655 * \text{Year} - 173827.716$. From this equation we can note that, every year, the indicator grow with 90.655. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 21.02 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 82% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 15.53 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 90% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 15.64 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 80% in the World.

The indicator: Expense (% of GDP) during 1980-2015 reveals an average of 17.86 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 40% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1980-2015 reveals an average of 16.24 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 57% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 55.95 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 27% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 8.85 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 41% in the World.

2.236 Timor-Leste

The study of indicator: GDP (constant 2010 US\$) during 1999-2016 highlights an average of 766964151.82. Also for GDP (constant 2010 US\$) the region ranks on the first 92% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $45611313.669 * \text{Year} - 90797748039.422$. From this equation we can note that, every year, the indicator grow with 45611313.669. The analysis of indicator: GDP growth (annual %) during 2000-2016 highlights an average of 8.55

bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 16% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 706.57. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 88% in the World. The indicator: GDP per capita growth (annual %) during 2000-2016 reveals an average of 6.20 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 22% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2000-2015 highlights an average of 2042.96. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 72% in the World. Gross capital formation (% of GDP) during 2000-2015 highlights an average of 36.70 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 8% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2000-2015 reveals an average of 122.91 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 24% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2000-2015 highlights an average of 7.79 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 100% in the World.

The indicator: Expense (% of GDP) during 2010-2015 reveals an average of 71.77 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 0% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2010-2015 reveals an average of 240.14 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 1% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2000-2015 highlights an average of 64.44 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 40% in the World.

Inflation, consumer prices (annual %) during 2003-2016 highlights an average of 5.61 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 97% in the World.

2.237 Middle East & North Africa (IDA & IBRD countries)

The study of indicator: GDP (constant 2010 US\$) during 1965-2016 highlights an average of 751449288603.81. Also for GDP (constant 2010 US\$) the region ranks on the first 20% in the World. Time regression analysis reveals a correlation

coefficient value: 0.96 and a value of R Square: 0.92. The equation of linear regression is therefore: $23854743860.600 \cdot \text{Year} - 46731418365920.800$. From this equation we can note that, every year, the indicator grows with 23854743860.600. The analysis of indicator: GDP growth (annual %) during 1966-2016 highlights an average of 4.15 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 4% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3124.08. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 57% in the World. The indicator: GDP per capita growth (annual %) during 1966-2016 reveals an average of 1.74 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 4% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1978-2016 highlights an average of 3295.08. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 56% in the World. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 29.62 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 19% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1965-2016 reveals an average of 27.98 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 73% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1965-2016 highlights an average of 25.98 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 75% in the World.

The indicator: Expense (% of GDP) during 1994-2009 reveals an average of 15.18 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 51% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1994-2009 reveals an average of 20.91 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 34% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 45.82 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 66% in the World.

Inflation, consumer prices (annual %) during 1965-2016 highlights an average of 6.86 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 36% in the World.

2.238 Tonga

The study of indicator: GDP (constant 2010 US\$) during 1981-2016 highlights an average of 306066109.45. Also for GDP (constant 2010 US\$) the region ranks on the first 97% in the World. Time regression analysis reveals a correlation coefficient value: 0.99 and a value of R Square: 0.97. The equation of linear regression is therefore: $5518434.615 * \text{Year} - 10722525468.054$. From this equation we can note that, every year, the indicator grow with 5518434.615. The analysis of indicator: GDP growth (annual %) during 1982-2016 highlights an average of 1.99 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 41% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3081.63. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 63% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.94. The equation of linear regression is therefore: $43.175 * \text{Year} - 83202.836$. From this equation we can note that, every year, the indicator grow with 43.175. The indicator: GDP per capita growth (annual %) during 1982-2016 reveals an average of 1.59 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 37% in the World.

Gross capital formation (% of GDP) during 1975-2012 highlights an average of 24.09 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 15% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1975-2016 reveals an average of 59.27 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 14% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1975-2016 highlights an average of 21.70 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 80% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1975-2016 highlights an average of 53.28 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 45% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.90. The equation of linear regression is therefore: $0.510 * \text{Year} - 964.183$. From this equation we can note that, every year, the indicator grow with 0.510.

Inflation, consumer prices (annual %) during 1976-2016 highlights an average of 7.20 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 44% in the World.

2.239 South Asia (IDA & IBRD)

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 858794797231.96. Also for GDP (constant 2010 US\$) the region ranks on the first 13% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 5.20 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 9% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 657.44. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 77% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 3.10 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 8% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 655.30. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 76% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 24.11 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 26% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 13.81 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 92% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 11.04 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 90% in the World.

The indicator: Expense (% of GDP) during 1974-2013 reveals an average of 14.43 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 84% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1974-2013 reveals an average of 12.36 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 91% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 41.00 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 71% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.93. The equation of linear regression is therefore: $0.384 * \text{Year} - 721.678$. From this equation we can note that, every year, the indicator grow with 0.384.

Inflation, consumer prices (annual %) during 1965-2016 highlights an average of 7.71 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 27% in the World.

2.240 Sub-Saharan Africa (IDA & IBRD countries)

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 726020837733.17. Also for GDP (constant 2010 US\$) the region ranks on the first 17% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.53 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 82% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1326.19. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 79% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 0.78 smaller than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 90% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1981-2015 highlights an average of 1270.11. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 77% in the World. Gross capital formation (% of GDP) during 1981-2016 highlights an average of 17.99 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 65% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 27.80 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 64% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 27.22 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 61% in the World.

The indicator: Expense (% of GDP) during 2003-2013 reveals an average of 20.53 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 64% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2003-2013 reveals an average of 21.83 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 58% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1981-2016 highlights an average of 46.93 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 52% in the World.

Inflation, consumer prices (annual %) during 1971-2016 highlights an average of 9.13 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 21% in the World.

2.241 Trinidad and Tobago

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 11494271820.49. Also for GDP (constant 2010 US\$) the region ranks on the first 63% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 3.10 smaller than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 97% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 9630.62. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 23% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.23 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 93% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 8828.85. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 28% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 21.66 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 96% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 41.37 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 41% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 50.87 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 20% in the World.

The indicator: Expense (% of GDP) during 2001-2014 reveals an average of 25.20 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 25% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1976-2014 reveals an average of 16.36 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 18% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1984-2016 highlights an average of 49.51 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 33% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 7.58 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 37% in the World.

2.242 Tunisia

The study of indicator: GDP (constant 2010 US\$) during 1965-2016 highlights an average of 22526510739.89. Also for GDP (constant 2010 US\$) the region ranks on the first 53% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $887371342.430 * \text{Year} - 1743786146367.080$. From this equation we can note that, every year, the indicator grow with 887371342.430. The analysis of indicator: GDP growth (annual %) during 1966-2016 highlights an average of 4.59 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 83% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2541.64. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 57% in the World. Time regression analysis reveals a correlation coefficient value: 0.98 and a value of R Square: 0.96. The equation of linear regression is therefore: $63.837 * \text{Year} - 124526.294$. From this equation we can note that, every year, the indicator grow with 63.837. The indicator: GDP per capita growth (annual %) during 1966-2016 reveals an average of 2.72 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 76% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1965-2013 highlights an average of 2328.46. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 57% in the World. Time regression analysis reveals a correlation coefficient value: 0.97 and a value of R Square: 0.95. The equation of linear regression is therefore: $59.375 * \text{Year} - 115768.081$. From this equation we can note that, every year, the indicator grow with 59.375. Gross capital formation (% of GDP) during 1965-2016 highlights an average of 25.73 bigger than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 77% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1965-2016 reveals an average of 40.87 bigger than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 33% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1965-2016 highlights an average of 37.37 bigger than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 37% in the World.

The indicator: Expense (% of GDP) during 1972-2012 reveals an average of 27.41 bigger than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 21% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2012 reveals an average of 29.21 bigger than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 30% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 54.51 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 37% in the World.

Inflation, consumer prices (annual %) during 1984-2016 highlights an average of 4.82 smaller than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 31% in the World.

2.243 Turkey

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 405165104163.86. Also for GDP (constant 2010 US\$) the region ranks on the first 23% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 4.74 bigger than the World average: 3.53. Also for GDP growth (annual %) the region ranks on the first 45% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6961.10. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 27% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.91. The equation of linear regression is therefore: $168.887 * \text{Year} - 328786.286$. From this equation we can note that, every year, the indicator grow with 168.887. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 2.77 bigger than the World average: 1.88. Also for GDP per capita growth (annual %) the region ranks on the first 52% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1987-2016 highlights an average of 9009.18. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 28% in the World. Time regression analysis reveals a correlation coefficient value: 0.95 and a value of R Square: 0.91. The equation of linear regression is therefore: $258.264 * \text{Year} - 507907.126$. From this equation we can note that, every year, the indicator grow with 258.264. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 20.51 smaller than the World average: 25.10. Also for Gross capital formation (% of GDP) the region ranks on the first 27% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 16.81 smaller than the World average: 20.32. Also for Imports of goods and services (% of GDP) the region ranks on the first 84% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 13.82 smaller than the World average: 20.45. Also for Exports of goods and services (% of GDP) the region ranks on the first 77% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 16.10 smaller than the World average: 25.25. Also for Expense (% of GDP) the region ranks on the first 38% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 15.35 smaller than the World average: 22.77. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 30% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 48.69 smaller than the World average: 65.34. Also for Services, etc., value added (% of GDP) the region ranks on the first 43% in the World. Time regression analysis reveals a correlation coefficient value: 0.96 and a value of R Square: 0.93. The equation of linear regression is therefore: $0.630 * \text{Year} - 1203.976$. From this equation we can note that, every year, the indicator grow with 0.630.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 32.36 bigger than the World average: 6.21. Also for Inflation, consumer prices (annual %) the region ranks on the first 11% in the World.

2.244 Tuvalu

The study of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 29.811.629. Also for GDP (constant 2010 US\$) the region ranks on the first 100% in the World. Time regression analysis reveals a correlation coefficient value: 0.01 and a value of R Square: 0.01. The equation of linear regression is therefore: $565.715 * \text{Year} - 1.103.315.056$. From this equation we can note that, every year, the indicator grow with 565.715. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 0.02 smaller than the World average: 0.04. Also for GDP growth (annual %) the region ranks on the first 53% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2.999. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 65% in the World. The indicator: GDP per capita growth (annual %) during 1991-2016 reveals an average of 0.02 smaller than the World average: 0.02. Also for GDP per capita growth (annual %) the region ranks on the first 46% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2000-2015 highlights an average of 068 bigger than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 29% in the World.

2.245 Tanzania

The study of indicator: GDP (constant 2010 US\$) during 1988-2016 highlights an average of 22.580.436.260. Also for GDP (constant 2010 US\$) the region ranks on the first 55% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $1.205.941.874 * \text{Year} - 2.391.715.196.413$. From this equation we can note that, every year, the indicator grow with 1.205.941.874. The analysis of indicator: GDP growth (annual %) during 1989-2016 highlights an average of 005 bigger than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 7% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 589. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 89% in the World. The indicator: GDP per capita growth (annual %) during 1989-2016 reveals an average of 002 bigger than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 17% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2016 highlights an average of 587. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 85% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.016 * \text{Year} - 31.232$. From this equation we can note that, every year, the indicator grow with 0.016. Gross capital formation (% of GDP) during 1990-2016 highlights an average of 024 smaller than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 44% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 reveals an average of 030 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 87% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 018 smaller than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 85% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1990-2016 highlights an average of 043 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 96% in the World.

Inflation, consumer prices (annual %) during 1966-2016 highlights an average of 016 bigger than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 24% in the World.

2.246 Uganda

The study of indicator: GDP (constant 2010 US\$) during 1982-2016 highlights an average of 11.806.154.292. Also for GDP (constant 2010 US\$) the region ranks on the first 60% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $695.354.283 * \text{Year} - 1.378.207.057.673$. From this equation we can note that, every year, the indicator grow with 695.354.283. The analysis of indicator: GDP growth (annual %) during 1983-2016 highlights an average of 006 bigger than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 23% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 433. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 94% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.013 * \text{Year} - 24.634$. From this equation we can note that, every year, the indicator grow with 0.013. The indicator: GDP per capita growth (annual %) during 1983-2016 reveals an average of 002 bigger than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 56% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1982-2016 highlights an average of 425. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 91% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.012 * \text{Year} - 24.028$. From this equation we can note that, every year, the indicator grow with 0.012. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 015 smaller than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 36% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 022 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 75% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 016 smaller than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 88% in the World.

The indicator: Expense (% of GDP) during 2015-2016 reveals an average of 013 smaller than the World average: 025. Also for Expense (% of GDP) the region ranks on the first 92% in the World. Time regression analysis reveals a correlation coefficient value: The analysis of: Revenue, excluding grants (% of GDP) during 2015-2016 reveals an average of 014 smaller than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 88% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.001 * \text{Year} - 1.297$. From this equation we can note that, every year, the indicator grows with 0.001.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 038 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 78% in the World.

Inflation, consumer prices (annual %) during 1981-2016 highlights an average of 035 bigger than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 22% in the World.

2.247 Ukraine

The study of indicator: GDP (constant 2010 US\$) during 1987-2016 highlights an average of 135.982.786.612. Also for GDP (constant 2010 US\$) the region ranks on the first 44% in the World. The analysis of indicator: GDP growth (annual %) during 1988-2016 highlights an average of -001 smaller than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 58% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2.808. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 68% in the World. The indicator: GDP per capita growth (annual %) during 1988-2016 reveals an average of -001 smaller than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 33% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1990-2016 highlights an average of 2.634. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 68% in the World. Gross capital formation (% of GDP) during 1989-2016 highlights an average of 023 smaller than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 62% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1989-2016 reveals an average of 047 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 25% in the

World. The analysis of indicator: Exports of goods and services (% of GDP) during 1989-2016 highlights an average of 045 bigger than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 22% in the World.

The indicator: Expense (% of GDP) during 1999-2016 reveals an average of 035 bigger than the World average: 025. Also for Expense (% of GDP) the region ranks on the first 12% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1999-2016 reveals an average of 033 bigger than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 14% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1987-2016 highlights an average of 049 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 50% in the World.

Inflation, consumer prices (annual %) during 1993-2016 highlights an average of 265 bigger than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 5% in the World.

2.248 Upper middle income

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 7.551.295.825.023. Also for GDP (constant 2010 US\$) the region ranks on the first 5% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 005 bigger than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 38% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3.553. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 41% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 003 bigger than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 30% in the World.

Gross capital formation (% of GDP) during 1960-2014 highlights an average of 029 bigger than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 15% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 017 smaller than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 87% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.000 \cdot \text{Year} - 0.765$. From this equation we can note that, every year, the indicator grow with

0.000. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 018 smaller than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 71% in the World.

The analysis of: Revenue, excluding grants (% of GDP) during 2005-2014 reveals an average of 018 smaller than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 66% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 044 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 51% in the World.

Inflation, consumer prices (annual %) during 1975-2016 highlights an average of 009 bigger than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 50% in the World.

2.249 Uruguay

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 24.586.188.430. Also for GDP (constant 2010 US\$) the region ranks on the first 53% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 002 smaller than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 78% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 7.847. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 28% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 002 smaller than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 61% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1965-2016 highlights an average of 7.895. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 29% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 017 smaller than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 85% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 020 smaller than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 95% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 020 smaller than the World average: 020. Also

for Exports of goods and services (% of GDP) the region ranks on the first 79% in the World.

The indicator: Expense (% of GDP) during 1972-2014 reveals an average of 025 bigger than the World average: 025. Also for Expense (% of GDP) the region ranks on the first 31% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 025 bigger than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 36% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1983-2016 highlights an average of 061 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 34% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 040 bigger than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 8% in the World.

2.250 United States

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 9.192.822.901.707. Also for GDP (constant 2010 US\$) the region ranks on the first 7% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $256.590.599.289 * \text{Year} - 500.909.288.485.598$. From this equation we can note that, every year, the indicator grow with 256.590.599.289. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 003 smaller than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 75% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 34.931. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 5% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.661 * \text{Year} - 1.279.750$. From this equation we can note that, every year, the indicator grow with 0.661. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 002 bigger than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 69% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 38.324. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 4% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.681 * \text{Year} - 1.318.688$. From this equation we can

note that, every year, the indicator grow with 0.681. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 022 smaller than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 77% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 010 smaller than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 99% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.000 * \text{Year} - 0.472$. From this equation we can note that, every year, the indicator grow with 0.000. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 009 smaller than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 96% in the World.

The indicator: Expense (% of GDP) during 1972-2016 reveals an average of 021 smaller than the World average: 025. Also for Expense (% of GDP) the region ranks on the first 46% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2016 reveals an average of 018 smaller than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 64% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1997-2015 highlights an average of 077 bigger than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 7% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 004 smaller than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 60% in the World.

2.251 Uzbekistan

The study of indicator: GDP (constant 2010 US\$) during 1987-2016 highlights an average of 28.536.124.411. Also for GDP (constant 2010 US\$) the region ranks on the first 49% in the World. The analysis of indicator: GDP growth (annual %) during 1988-2016 highlights an average of 005 bigger than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 3% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1.091. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 74% in the World. The indicator: GDP per capita growth (annual %) during 1988-2016 reveals an average of 003 bigger than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 4% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1995-2016 highlights an average of 1.178. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 72% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.063 * \text{Year} - 126.144$. From this equation we can note that, every year, the indicator grow with 0.063. Gross capital formation (% of GDP) during 1987-2016 highlights an average of 025 smaller than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 42% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 reveals an average of 031 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 93% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 030 bigger than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 87% in the World.

The indicator: Expense (% of GDP) during 2011-2015 reveals an average of 019 smaller than the World average: 025. Also for Expense (% of GDP) the region ranks on the first 76% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2011-2015 reveals an average of 028 bigger than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 49% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1987-2016 highlights an average of 042 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 84% in the World.

2.252 St. Vincent and the Grenadines

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 382.257.629. Also for GDP (constant 2010 US\$) the region ranks on the first 96% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $12.219.673 * \text{Year} - 23.910.452.538$. From this equation we can note that, every year, the indicator grow with 12.219.673. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 003 smaller than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 69% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3.645. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 47% in the World. Time regression analysis reveals a correlation

coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.104 * \text{Year} - 202.525$. From this equation we can note that, every year, the indicator grow with 0.104. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 003 bigger than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 49% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1977-2016 reveals an average of 060 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 27% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1977-2016 highlights an average of 041 bigger than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 39% in the World.

The indicator: Expense (% of GDP) during 2000-2014 reveals an average of 023 smaller than the World average: 025. Also for Expense (% of GDP) the region ranks on the first 53% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2014 reveals an average of 024 bigger than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 43% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1977-2016 highlights an average of 070 bigger than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 12% in the World.

Inflation, consumer prices (annual %) during 1975-2016 highlights an average of 004 smaller than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 86% in the World.

2.253 Venezuela, RB

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 246.171.980.265. Also for GDP (constant 2010 US\$) the region ranks on the first 29% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $5.408.053.059 * \text{Year} - 10.499.629.448.836$. From this equation we can note that, every year, the indicator grow with 5.408.053.059. The analysis of indicator: GDP growth (annual %) during 1961-2014 highlights an average of 003 smaller than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 100% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 13.171. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 29% in the World. The indicator: GDP per capita growth (annual %)

during 1961-2014 reveals an average of 000 smaller than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 100% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1973-2014 highlights an average of 12.891. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 29% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 025 smaller than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 43% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 021 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 69% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 027 bigger than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 93% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1968-2014 highlights an average of 047 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 67% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 027 bigger than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 1% in the World.

2.254 British Virgin Islands

No data available

2.255 Virgin Islands (U.S.)

The study of indicator: GDP (constant 2010 US\$) during 2002-2015 highlights an average of 3.953.288.375. Also for GDP (constant 2010 US\$) the region ranks on the first 86% in the World. The analysis of indicator: GDP growth (annual %) during 1971-2015 highlights an average of 001 smaller than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 88% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 36.502. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 17% in the World. The indicator: GDP per capita growth (annual %) during 1971-2015 reveals an average of 000 smaller than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 72% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2002-2015 reveals an average of 204 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 50% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2002-2015 highlights an average of 214 bigger than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 35% in the World.

2.256 Vietnam

The study of indicator: GDP (constant 2010 US\$) during 1984-2016 highlights an average of 72.084.552.494. Also for GDP (constant 2010 US\$) the region ranks on the first 43% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $4.332.384.445 * \text{Year} - 8.592.684.338.450$. From this equation we can note that, every year, the indicator grow with 4.332.384.445. The analysis of indicator: GDP growth (annual %) during 1985-2016 highlights an average of 006 bigger than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 13% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 864. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 76% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.043 * \text{Year} - 84.975$. From this equation we can note that, every year, the indicator grow with 0.043. The indicator: GDP per capita growth (annual %) during 1985-2016 reveals an average of 005 bigger than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 10% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1989-2016 highlights an average of 931. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 77% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.046 * \text{Year} - 91.271$. From this equation we can note that, every year, the indicator grow with 0.046. Gross capital formation (% of GDP) during 1986-2016 highlights an average of 027 bigger than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 31% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1986-2016 reveals an average of 058 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 6% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.002 * \text{Year} -$

4.677. From this equation we can note that, every year, the indicator grow with 0.002. The analysis of indicator: Exports of goods and services (% of GDP) during 1986-2016 highlights an average of 052 bigger than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 4% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.003 * \text{Year} - 5.272$. From this equation we can note that, every year, the indicator grow with 0.003.

The indicator: Expense (% of GDP) during 2003-2013 reveals an average of 019 smaller than the World average: 025. Also for Expense (% of GDP) the region ranks on the first 68% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1994-2013 reveals an average of 022 smaller than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 61% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2010-2016 highlights an average of 043 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 89% in the World.

Inflation, consumer prices (annual %) during 1996-2016 highlights an average of 007 bigger than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 36% in the World.

2.257 Vanuatu

The study of indicator: GDP (constant 2010 US\$) during 1979-2016 highlights an average of 488.594.717. Also for GDP (constant 2010 US\$) the region ranks on the first 95% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $14.225.369 * \text{Year} - 27.926.579.271$. From this equation we can note that, every year, the indicator grow with 14.225.369. The analysis of indicator: GDP growth (annual %) during 1980-2016 highlights an average of 003 smaller than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 34% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2.646. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 68% in the World. The indicator: GDP per capita growth (annual %) during 1980-2016 reveals an average of 001 smaller than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 47% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2004-2014 highlights an average of 2.761. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 67% in the World. Gross capital formation (% of GDP)

during 1983-2014 highlights an average of 025 bigger than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 37% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1980-2014 reveals an average of 054 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 39% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1980-2014 highlights an average of 044 bigger than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 26% in the World.

The indicator: Expense (% of GDP) during 1990-2011 reveals an average of 009 smaller than the World average: 025. Also for Expense (% of GDP) the region ranks on the first 61% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2011 reveals an average of 009 smaller than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 74% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1979-2014 highlights an average of 067 bigger than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 41% in the World.

Inflation, consumer prices (annual %) during 1977-2016 highlights an average of 004 smaller than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 66% in the World.

2.258 World

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 38.334.405.109.845. The equation of linear regression is therefore: $1.144.059.851.502 * \text{Year} - 2.236.056.579.675.550$. From this equation we can note that, every year, the indicator grow with 1.144.059.851.502.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6.980. The equation of linear regression is therefore: $0.111 * \text{Year} - 214.506$. From this equation we can note that, every year, the indicator grow with 0.111.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1970-2016 highlights an average of 7.923. The equation of linear regression is therefore: $0.093 * \text{Year} - 177.423$. From this equation we can note that, every year, the indicator grow with 0.093. Gross capital formation (% of GDP) during 1966-2016 highlights an average of 025 bigger than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 48% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 020 bigger than the World average: 020.

2.259 Samoa

The study of indicator: GDP (constant 2010 US\$) during 1982-2016 highlights an average of 505.845.816. Also for GDP (constant 2010 US\$) the region ranks on the first 95% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $12.382.149 * \text{Year} - 24.246.069.572$. From this equation we can note that, every year, the indicator grow with 12.382.149. The analysis of indicator: GDP growth (annual %) during 1983-2016 highlights an average of 002 smaller than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 5% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 2.869. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 63% in the World. The indicator: GDP per capita growth (annual %) during 1983-2016 reveals an average of 002 smaller than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 2% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1994-2016 reveals an average of 052 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 34% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1994-2016 highlights an average of 029 bigger than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 55% in the World.

The indicator: Expense (% of GDP) during 2010-2016 reveals an average of 026 bigger than the World average: 025. Also for Expense (% of GDP) the region ranks on the first 40% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2010-2016 reveals an average of 024 bigger than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 30% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1994-2016 highlights an average of 060 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 30% in the World.

Inflation, consumer prices (annual %) during 1962-2016 highlights an average of 007 bigger than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 59% in the World.

2.260 Kosovo

The study of indicator: GDP (constant 2010 US\$) during 2000-2016 highlights an average of 5.390.351.401. Also for GDP (constant 2010 US\$) the region ranks on the first 81% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $215.371.154 * \text{Year} - 427.074.925.912$. From this equation we can note that, every year, the indicator grow with 215.371.154. The analysis of indicator: GDP growth (annual %) during 2001-2016 highlights an average of 005 bigger than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 41% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 3.060. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 61% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.107 * \text{Year} - 211.280$. From this equation we can note that, every year, the indicator grow with 0.107. The indicator: GDP per capita growth (annual %) during 2001-2016 reveals an average of 005 bigger than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 38% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2006-2016 highlights an average of 3.474. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 59% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear regression is therefore: $0.087 * \text{Year} - 172.285$. From this equation we can note that, every year, the indicator grow with 0.087. Gross capital formation (% of GDP) during 2005-2016 highlights an average of 029 bigger than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 28% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 2006-2016 reveals an average of 052 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 33% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 2006-2016 highlights an average of 020 smaller than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 76% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 2006-2016 highlights an average of 065 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 33% in the World.

Inflation, consumer prices (annual %) during 2003-2016 highlights an average of 002 smaller than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 78% in the World.

2.261 Yemen, Rep.

The study of indicator: GDP (constant 2010 US\$) during 1990-2016 highlights an average of 21.504.665.327. Also for GDP (constant 2010 US\$) the region ranks on the first 66% in the World. The analysis of indicator: GDP growth (annual %) during 1991-2016 highlights an average of 002 smaller than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 100% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1.092. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 94% in the World. The indicator: GDP per capita growth (annual %) during 1991-2016 reveals an average of -001 smaller than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 100% in the World.

Gross capital formation (% of GDP) during 1990-2016 highlights an average of 016 smaller than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 100% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1990-2016 reveals an average of 035 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 83% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1990-2016 highlights an average of 027 bigger than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 100% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1990-2016 highlights an average of 043 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 93% in the World.

Inflation, consumer prices (annual %) during 1991-2014 highlights an average of 017 bigger than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 8% in the World.

2.262 South Africa

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 228.555.268.357. Also for GDP (constant 2010 US\$) the region ranks on the first 30% in the World. Time regression analysis reveals a correlation coefficient value: 001 and a value of R Square: 001. The equation of linear

regression is therefore: $5.677.706.150 * \text{Year} - 11.058.724.558.533$. From this equation we can note that, every year, the indicator grows with 5.677.706.150. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 003 smaller than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 88% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 6.141. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 44% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 001 smaller than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 88% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 1960-2014 highlights an average of 5.959. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 45% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 023 smaller than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 80% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1960-2014 reveals an average of 025 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 69% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1960-2014 highlights an average of 027 bigger than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 52% in the World.

The indicator: Expense (% of GDP) during 1972-2015 reveals an average of 027 bigger than the World average: 025. Also for Expense (% of GDP) the region ranks on the first 28% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1972-2015 reveals an average of 025 bigger than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 33% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1960-2014 highlights an average of 058 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 25% in the World.

Inflation, consumer prices (annual %) during 1960-2014 highlights an average of 008 bigger than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 17% in the World.

2.263 Zambia

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 10.426.801.338. Also for GDP (constant 2010 US\$) the region ranks on the first 60% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 003 smaller than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 39% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1.293. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 80% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 000 smaller than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 72% in the World.

Gross capital formation (% of GDP) during 2010-2016 highlights an average of 035 bigger than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 7% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1994-2016 reveals an average of 035 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 54% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1994-2016 highlights an average of 032 bigger than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 42% in the World.

The indicator: Expense (% of GDP) during 1998-2011 reveals an average of 015 smaller than the World average: 025. Also for Expense (% of GDP) the region ranks on the first 84% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 1990-2011 reveals an average of 016 smaller than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 76% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 042 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 60% in the World.

Inflation, consumer prices (annual %) during 1986-2016 highlights an average of 041 bigger than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 3% in the World.

2.264 Zimbabwe

The study of indicator: GDP (constant 2010 US\$) during 1960-2014 highlights an average of 9.944.236.184. Also for GDP (constant 2010 US\$) the region ranks on

the first 70% in the World. The analysis of indicator: GDP growth (annual %) during 1961-2015 highlights an average of 003 smaller than the World average: 004. Also for GDP growth (annual %) the region ranks on the first 87% in the World.

The analysis of: GDP per capita (constant 2010 US\$) during - highlights an average of 1.076. Also for GDP per capita (constant 2010 US\$) the region ranks on the first 88% in the World. The indicator: GDP per capita growth (annual %) during 1961-2015 reveals an average of 000 smaller than the World average: 002. Also for GDP per capita growth (annual %) the region ranks on the first 91% in the World.

The analysis of indicator: GNI per capita (constant 2010 US\$) during 2005-2016 highlights an average of 722. Also for GNI per capita (constant 2010 US\$) the region ranks on the first 87% in the World. Gross capital formation (% of GDP) during 1960-2014 highlights an average of 016 smaller than the World average: 025. Also for Gross capital formation (% of GDP) the region ranks on the first 98% in the World.

The analysis of indicator: Imports of goods and services (% of GDP) during 1975-2016 reveals an average of 035 bigger than the World average: 020. Also for Imports of goods and services (% of GDP) the region ranks on the first 53% in the World. The analysis of indicator: Exports of goods and services (% of GDP) during 1975-2016 highlights an average of 029 bigger than the World average: 020. Also for Exports of goods and services (% of GDP) the region ranks on the first 69% in the World.

The indicator: Expense (% of GDP) during 2009-2012 reveals an average of 019 smaller than the World average: 025. Also for Expense (% of GDP) the region ranks on the first 56% in the World. The analysis of: Revenue, excluding grants (% of GDP) during 2009-2012 reveals an average of 021 smaller than the World average: 023. Also for Revenue, excluding grants (% of GDP) the region ranks on the first 53% in the World.

The analysis of indicator: Services, etc., value added (% of GDP) during 1965-2016 highlights an average of 049 smaller than the World average: 065. Also for Services, etc., value added (% of GDP) the region ranks on the first 30% in the World.

Inflation, consumer prices (annual %) during 1965-2016 highlights an average of 525 bigger than the World average: 006. Also for Inflation, consumer prices (annual %) the region ranks on the first 100% in the World.
